

DISTRICT CONFAB OF LEGION POSTS HELD TOMORROW

George R. Wilbur and Harry N. Nelson, state commander and adjutant respectively, of the American Legion department of Oregon, will arrive in Medford Saturday morning in time to participate in the opening of the district conference, according to word received today. The state legion officials will leave the train at Grants Pass, where they will be guests of Grants Pass Legion men at breakfast and will then be brought to Medford by automobile.

A complete program for the convention has been prepared by Commander Tongwald of the local post and visiting delegates will be kept busy from the opening hour of the conference until the end of the big public dance to be given in their honor at the Oriental ballroom in the evening.

A large number of posts covering a wide area, is included in the Medford conference and it is expected that approximately a hundred legionnaires will be present. Representatives of the United States Veterans Bureau will be on hand and Mr. Clary of the Pacific Legion will report the proceedings of the convention for that publication.

Tourists Poisoned.

MANILA, March 22.—(By the Associated Press)—More than one hundred tourists who are making a trip around the world on the liner Empress of France were ill yesterday with ptomaine poisoning after a banquet the previous evening. None was in a serious condition and all departed last night for Singapore aboard this ship. Physicians said shell fish caused the trouble.

Madrid, Spain, has the finest collection of paintings of any city in the world.

REMODEL CITY HALL TO MAKE EXIT FOR FIRES ON 6TH ST.

The city administration has decided to remodel the city hall building at an estimated expense of \$3000, and has instructed the fire committee of the council, of which J. H. Butler is chairman and B. W. Paul and E. H. Janney are the other members, to go ahead with the work, which will be done by day labor.

The chief change will be made in the main or old building. The plans decided on provide for the rearrangement of the big fire department room. The front of this room, where the main fire truck now stands will be remodeled into offices for the city attorney and the city recorder, and a vault at its rear will be remodeled into a dormitory for the regular and volunteer firemen. Other changes are contemplated in the remodeling.

The upstairs of the city hall annex, which was constructed two years ago at an expense of about \$6000, was never finished up and utilized until recently when the city allowed Company A of the national guard to occupy it temporarily until the national guard armory is completed. The remodeling will probably begin within the next week and while it is on, Company A will probably have to occupy other quarters.

Up stairs the city council room in the main building will be moved over to the upper floor of the annex, and the council room will be remodeled into a dormitory for the regular and volunteer firemen. Other changes are contemplated in the remodeling.

The Noted Dead

GREAT BARRINGTON, Mass., March 23.—Washington Bissell, believed to be the oldest Mason, oldest collegiate graduate and oldest retired lawyer in the United States, died here today. He would have been 103 years old April 13. He was graduated from Union college, Schenectady, N. Y., in the class of 1846 and practiced law in New York state and Connecticut.

Mr. Bissell recently said that he had smoked since he was 12 years old and believed it had helped to prolong his life. He used liquor moderately.

away. The property damage was estimated in excess of \$100,000.

As men attempted to break the water barrier, warnings were sent out to all residents south of the gorge to abandon their homes. Many had already departed. Should the gorge give way suddenly, those directing the dynamiting said, the tremendous head of water would destroy property within a wide range along the lowlands south of Brassfield's Island.

Two ineffectual attempts were made to dynamite the ice jam by dropping bombs from an airplane.

Hopes were held out for a period of mind peather, which meteorologists said probably would cause an early loosening of the jam.
