

O. G. CHRONINGER, well known Kansas City business man, who declares Tanlac overcame indigestion, nervousness and insomnia. Gains 15 pounds.

Among the many substantial business men of Kansas City who have spoken in behalf of Tanlac is O. G. Chroninger, 2542 Wabash Ave., well-known photographer, whose studio at 317 E. 12th St., is one of the most popular in this section.

"My wife and I have both derived splendid results from Tanlac," he said recently, "and our home wouldn't be complete without a bottle on hand."

"My trouble was a badly run-down condition, disordered digestion, nervousness, sleeplessness and splitting headaches. Then the Christmas rush in the studio came along and the extra work pulled me down till my whole system was out of focus."

"I began to develop new energy when I started on the Tanlac treatment, and was soon feeling like a new man with a fifteen-pound gain. I eat like a farm hand now, never have indigestion, and hours of overtime in the dark room never tire me any more. Tanlac is the camera-man's friend, and I'll speak up for it at all times."

Tanlac is for sale by all good druggists. Accept no substitute. Over 35 million bottles sold. Adv.

2 RURAL DISTRICTS PLAN NEW SCHOOLS FOR COMING TERM

A well attended meeting of the South Zone was held last Saturday in the public library at Ashland, there being only one absent among the rural teachers. Mrs. Bessie Murphy presided.

The West Zone will hold its third meeting for this school year next Saturday, March 31st, at the Sams Valley school. An interesting program has been arranged. Every one is urged to be present as plans are being made to round up the closing events of the school term.

A children's pet exhibition is being held in San Francisco, March 27th and 28th, under the auspices of the San Francisco Society for the Prevention of Cruelty to Animals. This will prove a very interesting exhibit and represents a practical phase of education. It is something that it might be well for local authorities to consider for our own county children.

Mt. Pitt District No. 23 is planning to build a new schoolhouse this summer, their present one having served a good many years. The playshed built last year, has been much enjoyed this year.

Watkins District No. 68 on the Applegate river is another district that is planning a new school house, their present one being an old log structure. In both these schools bonds will not be offered, as budget reports show that sufficient funds will be raised by tax levy to meet building expenses.

Schools that wish to transport to a nearby school rather than maintain a small school of their own may do so without losing the elementary funds allotted on a teacher basis, due to new legislation.

Butte Falls is having a radio plant installed in the schoolhouse. Their school is one of the best equipped in the county with a gymnasium, playground, library, and a four-year high school course.

The county stereopticon is at Butte Falls this week which was used to show slides illustrating the story of "The Other Wise Man" at a service held last Sunday and is used to show "Oregon Birds" before the biology class.

No Arbor Day bulletins will be received from the state superintendent's office this year, but the day will be observed on April 13th.

The week of April 2 to 7 has been set aside nationally to be observed as Garden Week. The schools have been asked to cooperate in this observance. The state club leader, Mr. Seymour, is seeking the cooperation of all club members in this program of gardening.

New clubs have been recently organized at Jacksonville and at Ashland. Other places are becoming actively interested in the boys' and girls' projects and we look for some splendid results in this work in the county this year.

The Eagle Point Parent-Teachers' association, a new organization, will hold its regular monthly meeting on Friday afternoon, March 30th, at 3 o'clock at the school house. Some of the Medford Parent-Teacher association workers are planning to attend.

SOCIETY CONVICT VIOLATES PAROLE

CANON CITY, Colo., Mar. 28.—Harold F. Henwood, paroled by Governor Oliver H. Shoup last May, was returned to the state penitentiary here today to serve out his sentence for killing Tony Von Phil and George Copeland in the bar room of the Brown Palace hotel in Denver a number of years ago. He had violated his parole, officials announced. At the time of the shooting all of the principals were prominent in Denver society.

Thos. J. Tynan, warden, announced that Henwood "threatened to kill a young girl, a banker and a woman with whom he had words, because the girl would not marry him. This was a violation of his parole and we had to bring him back."

STATEMENT DISPLEASES

(Continued from page one)

the facts developed by the commission showed the need.

Meantime various other agencies of the federal government, including the department of justice were watching the trend of the sugar market for any evidence that speculators are overstepping legal restrictions to the detriment of the consuming public. It was indicated today that thus far the department had taken no positive step in the matter, although it is taken for granted that District Attorney Hayward at New York would take whatever action he found was feasible under the law.

The order of the president broadens an investigation already undertaken by the tariff commission and Chairman Marvin said today, will require a far-reaching examination into the cause and effect of the recent sugar price ranges. The commission when it met today immediately ordered that the original investigation be extended to encompass all the information sought by the president.

ALBANY—The state senate passed a bill intended to repeal the state prohibition enforcement laws.
