

FARM PESTS COST BILLION A YEAR

WASHINGTON, March — A billion dollars a year is the board bill of untaxed farm and fruit pests which have come to the United States from foreign lands, according to Chairman C. L. Mariatt of the Federal Horticultural board. Two hours of every day's work on the farm or in the garden and orchard goes to feed these guests, Dr. Mariatt says.

There are at least 100 major plant pests and many hundreds of minor pests which have been imported, but there are thousands of other pests, insect and plant that have not gained entry into the United States and which the Federal Horticultural board is endeavoring to keep out.

Fifteen quarantines are being enforced now, and in connection with these, efforts are under way to eradicate the pink bollworm, the citrus canker, and the Paratuberculosis scale. The other recently established pests, including the European corn borer, the Japanese beetle, the pine blister, etc., are recognized now as permanent factors in the agriculture of the country, and for these eradication and control work is being conducted by the Federal Horticultural board and involves an annual expenditure of upwards of \$2,999,000.

EAGLE POINT EAGLETS

By A. C. Howlett

Pete Young, one of our prosperous farmers who lives on his own farm, a short distance below here, was a business caller the latter part of the past week.

Mr. and Mrs. W. B. Dennis who are on the Grant Mathews farm came in to bring in Mr. and Mrs. Birch of Glendale who had been out visiting them. Mr. Birch is one of the conductors on the S. P. railroad.

Mrs. W. C. Daley and her daughter, Mrs. Myrtle Von der Hellen were pleasant callers at the Sunnyside Thursday. Mrs. Daley is somewhat aged and in poor health owing to a serious accident she met with several years ago when she was thrown from a horse and badly hurt, and her many friends were pleased to see her able to ride out and visit some of her old friends. And I notice that Mrs. Von der Hellen has purchased a fine new car, a Durant.

R. A. Petty, one of our prosperous farmers, was a business caller Thursday.

Mrs. L. E. Hinman and her daughter, Mrs. E. R. Van Leeuwen of Medford, came out Friday to take dinner and to bid us farewell.

Mrs. Van Leeuwen said that she had her things all packed and expected to start the first of this week to join her husband in Revere, New Jersey, who is in charge of the Japanese Beetle Laboratory in interest of U. S. Department of Agriculture. Mrs. Van Leeu-

wen will be greatly missed by her host of friends, not only in Medford where she was in business at the time of her marriage, but by a large circle of friends outside of Medford.

Mr. and Mrs. Thomas Pason, life insurance agents, were out Friday and took dinner at the Sunnyside.

Marsh Garrett, one of our big stock men was a business caller the same day.

Carl Stanley went to Prospect to arrange the Wm. Von der Hellen camp so that he can start up operations on his contract on the Crater Lake highway again.

Alvin Conover, wife and two boys were trading with our popular merchant, Fred McPherson Saturday, and Mrs. Conover promised me that she would subscribe for the Mail Tribune in the near future. Rube Johnson, W. H. label of Reese creek, T. E. Clark and P. R. Frey of Lake Creek were also trading with him the same day.

Wort Pool, another one of our farmers, and W. H. Crandall, a prominent orchardist were here. He brought in a nice lot of dressed turkeys, leaving a couple at the Sunnyside. George Given, another one of our farmers, was in town on business. I asked him how his cows and chickens were doing and he replied that they only had about three hundred hens and a few cows but they managed to keep them out of the poorhouse. A few hundred such men as the Givens, Stowells, French, Bellows, Britton Bros., and a lot more I could mention in these parts will soon build up a community.

The contractors on the canal and the laterals have about all resumed work and the result is that business is not so lively as it might be as most of the men are at work, but when the water comes business will boom and Eagle Point district will be plainly seen on the map.

Mrs. E. G. Riddell of Santa Barbara, Calif., and Mrs. G. A. Utzen of Medford, two daughters of our soft drink man and grocery and hardware merchant, Frank Lewis, were out here visiting their parents Saturday. Mrs. Riddell only made a very short visit, two or three days, returning to her home Saturday night.

Thomas McCabe and son came out on the stage Saturday and went on up to the McCabe ranch the same afternoon.

Mrs. Robert Harnish and Mrs. Joe Moomaw motored to Medford last Tuesday.

J. H. Carlton, one of the contractors on the laterals from the Eagle Point-Butte Falls canal was a business caller Sunday and so was Lois Martin, he was giving Mr. Carlton some pointers on the use of the different kinds of powder in blasting work in his work on the laterals, as he is considered an expert in that line of business.

Mr. and Mrs. R. I. Stewart and son Gilbert of Medford were among the diners at the Sunnyside Sunday. They are among the contractors on the concrete bridge work; H. E. Campbell and wife and Rev. G. N. Edwards, the traveling Sunday school missionary for the Congregational church in Oregon, and preached here Sunday forenoon, returning to Medford Sunday afternoon; Mr. and Mrs. E. G. Trowbridge and Mr. and Mrs. John Perl, our popular corner, and J. A. Perry

and wife and Mr. and Mrs. Montgomery, the S. P. railroad agent of Medford, Lucius Kincaid and wife, the contractor who is carrying the mail from here to Persist and A. J. Florey and wife were here for dinner.

We also had a very interesting meeting with one of the clubs of the Presbyterian church of Medford. It appears that there are two of them organized to go out into the outlying districts where they have little or no religious services and one of them go out one place and the other, another, wherever there seems to be an opening. There was a large congregation out and we were favored with some fine instrumental and vocal music and three very interesting talks, one by Ed Gore who presided and read a scripture lesson and commented on it, and one by Frank Smith who told what a desperate fight he had before he succeeded in coming off victorious over the terrible curse, the liquor habit; how his Christian wife stayed with him and prayed with and for him and after he had by the grace of God finally succeeded, how she encouraged him and bore him up at a throne of peace until now he is able to fight the battle alone with God's assistance, as he has lost his wife and now he is warning the young against the fearful consequences of the habit.

The other two members were Dr. Elliott and D. L. Steiner, each of them taking an active part but as I did not know either of them do not know what part each one took. They will receive a cordial welcome whenever they will favor us with another visit.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching
Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

San Francisco Lady Declares Tanlac So Completely Overcame Distressing Effects of Flu, She Wants Other Sufferers to Know Facts

Here is another instance of the remarkable powers of Tanlac in overcoming a weak, run-down condition and other troubles following the ravaging effects of influenza.

Mrs. Anna Wasserman, 550 Pine St., San Francisco, highly esteemed manager of the Lady Washington apartments, says:

"It is my wish to avoid publicity, but I have been so greatly benefited by Tanlac that I feel like I should be willing to make a statement myself and try to help others get relief."

"Last year an attack of influenza left me so badly run down that I could do nothing but lie in bed. I had a very poor appetite, my nerves were unstrung, and I was extremely low spirited. Why, it just seemed that I had no life or vitality at all, and I simply felt miserable."

"One of my friends told me she had taken Tanlac with splendid results, and thought it would be the very thing for my troubles too. Well, I took her advice, and commenced taking the treatment, and it proved just splendid. My appetite improved rapidly, and when I began getting the benefit of my food, that weak, run-down feeling disappeared and I began to feel strong and healthy. I have recovered my health completely now, and think Tanlac is the grandest medicine made."

Tanlac is for sale by all good druggists—take no substitute. Over 35 million bottles sold.

THE CALIFORNIA OREGON POWER COMPANY

7% PREFERRED CAPITAL STOCK
PRICE \$95 PER SHARE*
YIELDING 7.37%

*This price will be advanced May 1st

THE COMPANY

The history of The California Oregon Power Company shows a substantial growth in facilities and earnings resulting from the large sums of money invested in its properties and from the development of the territory in which it operates.

Steady Growth in Customers Served

The territory now served by The California Oregon Power Company includes parts of Jackson, Josephine, Klamath and Douglas Counties in Oregon, and Siskiyou County and parts of Shasta and Trinity Counties in California. This is an area equal to the combined areas of the states of Massachusetts, Rhode Island and Connecticut.

During the period between 1912 and 1922, the number of consumers has grown from 6,551 to 13,123, an increase of 100%.

Increase in Facilities

The Company owns and operates seven hydro-electric plants in Southern Oregon and Northern California. It has never resorted to generation of electricity by steam power. In building these hydro-electric plants, a natural resource is being developed which will be productive forever.

In 1912, the generating capacity was 11,800 H. P. and at the end of 1922, it amounted to \$2,580 H. P.

The Company's high tension lines at the end of 1922 were over six hundred miles in length.

The aggregate length of the distribution lines was over eight hundred and ten miles.

The investment needed for the construction of these facilities has increased from \$4,189,325.76 in 1912 to \$10,293,569.69 in 1922.

THE STOCK

Par value \$100 per share.

Dividends have been paid on The California Oregon Power Company Preferred Capital Stock since issuance (April 15, 1921) at the rate of 7.37% per share per annum. Checks are mailed every three months at rate of \$1.75 per share.

Proceeds of all securities sold are devoted exclusively to additions to and betterments of Company's properties.

It is not assessable by the Company for any purpose whatsoever.

It is non-callable, and if purchased at the present price yields a permanent return of 7.37% on the investment.

It is exempt from Federal Normal Individual Income Tax.

It takes precedence as to assets and dividends over common stock amounting to \$4,441,100 par value. The equity back of the preferred stock now outstanding amounts to a total of \$8,385,361.53 which equals \$288.30 per share or over three times the present cost of \$95 per share.

Purchase may be made in any amount from one share upward.

The stock may be purchased for cash or on our special savings plan, namely, \$5.00 per share as first payment, and \$5.00 per share per month.

Interest is paid by the Company on all partial payments under the savings plan at the rate of 6% per annum. Interest checks are mailed to subscribers under the savings plan every three months.

The stock is listed on the San Francisco Stock and Bond Exchange.

THE RECORD OF TEN YEARS' GROWTH

YEAR	Value Physical Properties	Gross Revenues	Operating Maintenance Expense	Net Earnings without Interest or Depreciation	Kilowatt Hours Generated
1912	\$4,189,325.76	\$307,040.29	\$137,663.49	\$169,376.80	21,492,374
1913	4,787,524.35	347,261.70	143,745.67	203,516.03	26,485,359
1914	5,054,312.08	385,331.23	153,209.21	232,122.02	33,245,366
