A novel and a captivating idea—to make dresses and frocks out of Damask. The "Sunbeam" makers originated it. Others have imitated. But the imitations fall short, as imitations always do. Only in Sunbeam Damask Frocks and Dresses will you find the sparkling style, the alluring quality, the piquant coloring and the marvelous workmanship that is the despair of all imitators.

Exclusive Styles and Colors

The variety of styles and the diversity of patterns and colors in these dresses is truly amazing. Many of the designs and color effects were originated for these dresses; and nowhere will you find anything half so lovely as the checked and flower-spray designs worked out in combinations of golden rod, periwinkle, turkey red, seafoam green, delft blue, buff, navy and other colors.

Made of Genuine Rensfrew Damask

A name that guarantees quality. A special soft finish is used for these frocks. This damask will retain its color as long as the fabric holds together. And nothing launders more easily or more beautifully.

Will Be Worn Everywhere

As home dresses—demurely attractive and supremely comfortable. As street dresses—neat and just unusual enough to attract admiring comment. As outing dresses—strong, serviceable, easily laundered, and with the charm of color that's right in keeping with outdoor activities. Wear Damask dresses on all these occasions with the assurance that you're smartly and "differently" attired.

We feel that in securing these frocks we are living up to the reputation we have established for offering only the newest and best to our customers. Come and see them. Choose while our assortments are complete.
