Items of Interest From the Rogue River Valley

GOLD HILL NAMES PRESENT CORPS OF TEACHERS AGAIN

GOLD HILL, Mar. 29.—(Special).—The school board at its official meeting last Monday evening re-elected the entire teaching force for the ensuing year. The present high school teachers are Prof. M. E. Wright, supt., Prof. W. R. Wegner and Bernice Dunnette, while the grade teachers are Margaret E. Galligan, Lucile Oatman, Maude Coy, and Alice L. Harper. It is reported that Miss Oatman of the 5th and 6th grades will not accept the position, but will attend the normal school another year before taking up the work again. Prof. Wegner is entertaining a position in another school and it is reported that he may not engage with the Gold Hill school another year. The present board of

directors consists of Silas Fleming, Wm. H. Miller and P. H. Bell with Mrs. A. E. Kellogg, clerk. J. A. Clements who recently acquired the Herman Bros. sawmill on Sardine creek has entered into a contract with W. J. Smith of Gold Hill to log and deliver to the mill all the timber on the "Childers" tract adjoining the mill. The tract is owned by the contractor and it will require two seasons run to cut the timber. There is quite a lot of pine on the tract which will go to the Medford box factories, while the fir and cedar will be sold on the Gold Hill market.

Last September of representing himself to be J. D. Austin, and representing the Standard American Circulation company, of Los Angeles, took the order of quite a number of Gold Hill people for subscription for five standard magazines for three years and a set of books, "History of the World," for the sum of \$30. In the meantime the subscribers having never received the magazines or books considered the matter settled, until a few days ago they received a notice from the local bank to please call and settle a certain promissory note in the sum of \$30 assigned to the bank before the book agent left town. It is reported that this same book artist cleaned up \$1200 in Grants Pass, and all the other towns in the valley are heavy losers.

Rev. T. L. Thuemler who has been holding a series of revival services here at Gold Hill in the M. E. church the past two weeks left Sunday afternoon for Roseburg on church matters and returned Wednesday and resumed the meetings. His success as a divine healer still continues to attract considerable attention among those attending the meetings and those seeking relief. He will continue to hold the meetings the next two weeks.

The young hobo who was arrested here in Gold Hill Sunday and taken to the county jail at Jacksonville charged with throwing glass on the Pacific highway here Tuesday for a hearing before the justice in this district. After examining several witnesses and the matter was argued by the prosecuting attorney and attorney for the defendant the court let the young culprit go believing he had been sufficiently punished by spending two days in jail. After the trial the several present gave the young fellows, who was penniless, several dollars and charged him "go and sin no more."

RURAL RUSH TO PAY TAXES NOTED IN EDEN PRECINCT

By Mary O. Carey, Phone 341-J-1
An old college chum of Professor Reimer spent last Monday at the Experiment Station.

A number of Talent people are making a rush to the county seat this week to part with their coin in paying taxes. Many think it would be more economical if they could rent their farms from other owners, and let someone besides themselves pay the taxes. Many say it is a hard matter to break even after the year's expenses are paid.

Letters from a distance are often received by your correspondent, asking about the oil and shale oil propositions, which we hope will prove to be real live enterprises. Most persons think these new propositions are only schemes to sell stock with. If there was less waste of time on some of the prospect work, the real truth of the situation would soon be solved.

Work was suspended a few days again last week at the Trigonon well because a piece of machinery which had lately been gotten not being of the proper dimensions for the casing which was being straightened after it had dropped down in the well, the cause being the support of the casing being broke. Work was again resumed this morning.

Mrs. T. T. Simpson of Medford spent Monday night with her daughter, Mrs. Noah Chandler of North Talent, this week.

Mr. and Mrs. G. G. Robinson of Gold Hill were at the Carey Plant Farm Sunday afternoon to engage twenty-five Light Brahma eggs for hatching. Mr. and Mrs. E. R. Oatman of Medford were in North Talent Sunday making a short call. Mr. Oatman is busy just now making his rounds as fruit inspector among the many fruit men.

We are sorry to announce that T. H. Fish is under the weather this week. Mrs. Hayman has been employed to care for Mrs. Fish while Mr. Fish is ill.

Mrs. Louis Brown of Talent spent Tuesday in Medford visiting with her parents, her mother being in poor health.

Mrs. Elizabeth Wilcox and her sister, Miss Anna Lane of Orchard Home district, west of Medford, were at Mrs. Jack Allen's last Tuesday spending the day. They drove out in their buggy and enjoyed the ride, the day being an ideal one for the trip. Miss Lane used to live at the Allen home during the illness of the late Mrs. James Allen.

Mr. Cooser of the Bagley Canning company of Talent, was out last Monday interviewing the gardeners in regard to the raising of products for canning this season. Mr. Cooser said he would contract for several acres of beans and tomatoes and like garden truck. They expect to have another big run this year as they had the best of work and plenty of fine fruit last season and are preparing for a bigger run this year.

Mr. and Mrs. F. X. Beck of Woodburn, Oregon, were in Fern valley last week looking after their orchard interests in that part of the valley. They also manifested quite an interest in the outlook for the Trigonon oil well, as it lays almost adjoining their property. They felt very much encouraged over the prospects after seeing the showing at the well.

Tuesday evening at the pleasant home of Miss Dorothy McClain of Phoenix was the scene of a most enjoyable birthday dinner, when twelve of her most intimate friends, six young ladies and six young gentlemen gathered at her home to help celebrate her eighteenth birthday. The colors used were pink and white, which was prettily carried out in every way, a huge birthday cake being of the colors, as were the place cards and floral decorations. The evening was spent in games and music until a late hour when the guests departed wishing Miss Dorothy many happy returns of the day.

ROGUE RIVER ENDS CLEAN-UP DAY WITH BIG FEED

Mrs. A. T. McIlvain, who has been visiting in and around San Francisco for the past three months, returned to her home in this city Thursday of last week.

Last week being clean-up week for this city, a half holiday was declared by the mayor for Thursday afternoon, when the school and business houses were closed and old and young united their efforts in ridding the city of all garbage and trash. The effect was marvelous, and the laborers were rewarded by meeting about 6 p. m. at the Community hall where the ladies of the town had prepared for them a sumptuous repast. It is estimated about three hundred persons were present at the supper.

Rollin Baer of Evans creek has joined the working forces of the Ancient River Milling and Mining company and is making his headquarters in this city.

Mrs. Ben Howe, who has been a resident of Rogue River for the past year and a half, is moving to Grants Pass to make her home there.

The fourth and last session of the millinery class, under the direction of Miss Grace Teich, county home demonstrator, was held last Monday at the Community hall. The ladies of the community are very grateful to Miss Teich for the instructions received and feel more than repair for their efforts to attend the all-day sessions.

The home of Mrs. Reed Carter was opened to the members of the Civic Improvement Club of Rogue River last

Friday afternoon, at which time the annual election of officers took place. Mr. Carter's home is located some distance out of town, and the thirty-eight ladies attending were conveyed by auto. The following officers were elected for the ensuing year: A unanimous vote was taken for the re-election for president of Mrs. Arthur Earhart, under whose administration of the past year the club has rapidly moved forward; Mrs. Ed Fairchild elected vice president; Mrs. Anna Clark re-elected recording secretary; Mrs. A. T. McIlvain re-elected treasurer; Mrs. Oscar Shepherd elected financial secretary and Mrs. Harter pianist. The secretary's report showed the club to be in a good, healthy working condition and that many things had been accomplished during the year. Since the club is vitally interested in the public library at Rogue River, Miss Woolsey, the county librarian, was present and gave a report in regard to the splendid condition of the library. This we attribute to the excellent management of the librarian, Mrs. Benj. Marquis and her assistant, Mrs. Ethel Conway, and also to the wonderful growth in the community of book-loving people. After the business was transacted, a pleasant social time was enjoyed by all, during which the hostess served dainty refreshments.

Joe Burkhardt has entered the employ of Fred O'Kelly, our well-known and prosperous mechanic.

The Rogue River basket ball team, accompanied by Prof. E. C. Browne, their coach, were guests of the Grants Pass chamber of commerce one evening of last week. The boys deeply appreciate the friendly feeling shown them by Rogue River's neighboring towns during the past year, and it has stimulated them in their efforts to "make good" as a team.

Charles Horton, who has been a faithful janitor of the school in this city for many years and who is at present very ill, was removed from

his home to the Good Samaritan hospital at Grants Pass on Friday of last week.

The epidemic of "flu" that is sweeping over the community at present has temporarily thinned out the high school ranks considerably, as well as the grades, and two of the teachers, Misses Irene Anderson and Evelyn Carstens, have been compelled to remain at home for the past week. However, we are glad to report they are improving.

The annual congregational dinner of the Hope Community church will be held at the Community hall on Friday evening, March 30th, at 6:30 o'clock.

The churches of the city are busy preparing appropriate Easter programs for Easter Sunday, and a warm welcome is extended to all to be present.

The gold output of Canada in 1922 amounted to more than 1,200,000 ounces, an increase of 31 per cent over 1921.

"Gets-It" Tames the Wildest Corn
You Can Peel Them Right Off
No matter how long you've had your corn, how hard they may be, whether hard or soft, or what you have tried, believe this—"Gets-It" will end corn pains at once, and quickly you can lift the corn right off the cob or foot, with the fingers. It ends callouses, the same simple way. Millions use it. Money back guarantee. Costs but a trifle—everywhere. E. Lawrence & Co., Inc., Chicago. Sold in this city by STRANG'S DRUG STORE

Easter... a day for sentiment

A DAY for the exchange of graceful compliments—the cementing of friendships—the giving of gifts to those we delight to honor.

Picture to yourself the Easter of olden times. The sun is bright, the air is warm with the promise of springtime. On the avenues are fashionable folk, displaying the latest ideas of the Paris shops, the most bewitching of bonnets.

And not the least delightful feature of the day is a well-selected gift of choice bonbons, expressing to each dainty maid or matron the fact that she stands high in the regard of "someone".

Thomson's De Luxe package of fine candy, is a fitting gift for your sweetheart or wife—for the girl who calls you "friend", or for the mother who is still your "best girl".

It is quality through and through. An attractive full pound of hand-rolled, hand-dipped chocolates, extra thick coatings, both dark and light, with centers of the "creamiest of creams" and assorted fruit flavors. It is the biggest candy value for one dollar to be found anywhere. Look for the Thomson's De Luxe package at your favorite store which sells fine box candies.

Thomson's CHOCOLATES

Thomson's Chocolates are made and guaranteed by the PACIFIC COAST BISCUIT COMPANY

A pound of hand-dipped, hand-rolled chocolate creams, \$1.00

Man's Conquest of Time

The progress of mankind, from the earliest recorded ages, has been marked, by a ceaseless struggle against the limitations of time and space. Civilization is mutual interchange of thought and the product of thought. This interchange demands transportation, hence the development of civilization has paralleled the improvements in transportation. A useful lifetime should not be measured in hours lived, but in deeds done. Doubling man's productive capacity offers the same net result as doubling his period of usefulness or doubling the number of producers.

More than any other single factor of civilization, the automobile has multiplied the producing power of man, by decimating time and distance, and by providing a broad and flexible means for the transportation of men and their products.

The amazing growth of the automobile industry could not have been, had not the automobile more than justified itself as an economizer of manpower, a stimulator of production and a creator of wealth.

for Economical Transportation

CHEVROLET

epitomizes the progress of the industry to date along the line of maximum economy consistent with modern requirements as to engineering efficiency and satisfactory quality. The wonderful increase in our sales proves that Chevrolet is leading in the evolution of individual transportation which measures and records the progress of civilization.
