

Local and Personal

So far as could be learned up to early this afternoon but little damage was done to the blossoms and buds of the early fruit trees by the hard hail storm of yesterday afternoon. County Agent Cate and Floyd Young, the frost expert, were making a tour of the valley today investigating into this feature. Nineteen hundredths of an inch of rain during the 24 hours ending this morning at 8 o'clock, to be added to the .18 of an inch that had fallen Saturday and Sunday. Probable rain is the prediction for Wednesday.

Medford fishermen are much interested in the report that John McIntyre, foreman-carpenter of the Portland water bureau, had good fortune Sunday in catching a 56-pound Chinook salmon in the Willamette river near Oswego. It is said to have been the largest salmon caught on the Willamette river this season. It took McIntyre a little more than an hour to land the fish and the gaff hook was straightened out when the fish was first caught.

'THE GYPSY ROVER' AT PAGE WED.

"The Gypsy Rover," an operetta in three acts with a cast of more than sixty high school students will be presented tomorrow evening at the Page theatre under the direction of Miss Frances Sherwood, director of music in the Medford public schools.

Dazzling costumes and elaborate scenery in addition to an excellent cast of leading characters and well-drilled choruses will combine to make "The Gypsy Rover," one of the best musical performances ever presented by amateurs in Medford.

The scenery is being made by high school students themselves under the direction of Tom Swem and there is not the usual lack of co-operation in the matter. At least thirty students of the high school have spent several hours today in completing the scenery.
