## Does your Appetite wake up when you do?

Few grown ups are fortunate enough to retain childhood breakfastappetites. And few children are satisfied with a "canary bird breakfast." The 13 hour interval between supper and breakfast affects us differently.

To satisfy everybody and simplify your breakfast problem, serve the dish that appeals to all appetites-Olympic Wheat Hearts. Cook according to directions and ithas a happy, nutty flavor that makes the whole family like breakfast better. Start with Olympic Wheat Hearts tomorrow. Your grocer can supply you.
