

Kidney and Bladder Troubles Have to Go

Clogged up Kidney Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous Prescription No. 117 (known for years as Marsh-root) is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bleeding irritability with loss of flesh or any other tendency to Bright's Disease, Diabetes or Gravel, for kidney disease in its worst form may be stealing upon you.

Don't wait until tomorrow to begin the use of this wonderful prescription now obtainable in both liquid and tablet form if you have any of the above symptoms. Kidney and Bladder troubles don't wait away. They will grow upon you slowly, stealthily and with unfeeling certainty. If you even suspect that you are subject to Kidney Disease, don't lose a single day for every good druggist has been authorized to return the purchase money on the first big bottle to all who state they have received no benefit.

There will be a meeting of the Y. M. C. A. Athletic league this evening at the library at 7:30. All fellows interested in the athletic program of the association should attend.

Jackson county Y. M. C. A. committee convened at Ashland yesterday. The county was fairly well represented for a fine Sunday afternoon. Among other things, the clothing box for Russian students was discussed. Reports showed the county work generally to be in a progressive condition.

Ashland Y. M. C. A. local committee members were elected at a luncheon last Thursday. A strong committee will head the local work there the coming season. Medford election will be called in the near future.

With good weather, the county secretary will visit various schools in the rural sections to demonstrate the game of volleyball. Several schools in the county are now playing as a result of such missionary work last spring. The game fills a long-felt want in the small county schools.

"Doc" Rutherford, traveling lecturer, will be the next speaker to be offered the public. Doc will be in the county Monday and Tuesday of next week.
