

Local and Personal

It will be a week yet before anywhere's near an accurate forecast of the fruit crop of the Rogue River valley can be made. At present the annual dropping of fruit blossoms due to natural causes is on, and when this dropping ends in about a week the forecasts can be made based on conditions at that time and barring frosts, blight or other unexpected happenings. At the present time it appears that there will be the largest pear crop ever known, and a very large crop of apples.

The gasoline tax of one cent a gallon voted by the recent legislature of Oregon will go into effect the morning of May 25 it is announced. The gasoline companies collect the extra cent on their sales to the service stations which are then to get the money from the consumer. By getting the tax at the source the state government is cutting down materially on administrative expense for the total amount collected is shown by the reports of the companies. The tax is to help in the construction and maintenance of the highway system of the state.

EXPECT TO REACH CRATER LAKE RIM BY 20TH OF JUNE

Charles G. Thomson, superintendent of Crater National Park, and Jack Hemstreet who has taken care of the lodge all winter, assisted by Pete Ord, forest ranger, arrived in Medford last night from Klamath Falls. Mr. Thomson went in to the lake last week from the Klamath entrance and spent several days with Hemstreet and Ord becoming acquainted with the lake in that portion of its winter regalia, which is still left.

Yesterday at 4 a. m. all three of the men left Anna Springs camp and walked over the frozen crust of the snow to the Klamath entrance. Ord remained in Klamath Falls and is returning to the lake today. Thomson and Hemstreet drove to Medford by auto and in a few days the superintendent will drive Hemstreet to the Medford entrance from which place Hemstreet will make the ski trip in to the government camp at Anna Springs, making a survey of road conditions, fallen trees, etc.

Snow at the rim is less than nine feet deep and at Anna Springs is less than four feet. In thirty hours, starting Friday of last week, Mr. Thomson reports that a rain reduced the snow depth 16 inches.

The lodge and government buildings suffered much less than the usual winter damage and the expense of repair this year will be very slight on all of the buildings.

Mr. Thomson expects cars to be driving to the rim by June 20th if not earlier.

Says Dangerous Varicose Veins Can Be Reduced at Home

Rub Gently and Upward Toward the Heart as Blood in Veins Flows That Way.

If you or any relative or friend is worried because of varicose veins, of lumps, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask your druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. So penetrating and powerful is Emerald Oil that it dissolves goitre and wens and causes them to disappear. It can be secured at Heath's Drug Store, West Side Pharmacy.
