## YANKEES REFUSE TO TAKE CHANCES ON LOSING LEAD

CHICAGO, May 16.—(By the Associated Press)—The New York Yankees start today on the last half of their western invasion. On to St. Louis they go today having taken three of four from Detroit and two, all they played, from Cleveland. They battered Detroit for the third time yesterday 9 to 5 in an uphill game in which Elmer Smith starred as a pinch hitter.

Cleveland made it three straight from Washington, 10 to 9, in a slam bang contest and kept within earshot of the Yanks and a respectful distance above Philadelphia, whose mottle they measure today. Both the Boston-St. Louis and Philadelphia-Chicago games were prevented by bad weather.

John McGraw utilized a day by casting off two pitchers, on one of whom, George Walberg, the lumber-jack southpaw, he saved \$15,000. McGraw had until yesterday to pay \$15,000 or return the pitcher to the Portland club of the Pacific Coast league. The other hurler, Fred Johnson, was sent back to the San Antonio club of the Texas league from which he came.

The re-instatement of "Rosey" Bill Ryan made the loss of one of the recruits an easy one and left the Giant manager with only one player above the limit.

In the only game not called off in the National because of inclement weather yesterday, St. Louis beat Boston, 10 to 5, gaining half a step on the Giants.

### Yesterday's Results, National.

St. Louis 10; Boston 5. Others postponed, rain.

### American.

New York 9; Detroit 5. Cleveland 10; Washington 9. Others postponed, wet grounds.

### Coast.

San Francisco 7; Salt Lake 6. Seattle 5; Los Angeles 6. Portland 1; Oakland 2. Vernon 11; Sacramento 4.

### College Baseball.

At Walla Walla: Whitman 4; Gonzaga 5. At Moscow: Idaho 5-3; Montana, 2-6. At Eugene: Oregon 4; Washington State 10.

### New Washington Shell.

SEATTLE, May 16.—A new shell, the most ambitious effort of George Poocek's life, will carry the University of Washington crew when it races with the oarsmen of the east in the national intercollegiate regatta at Poughkeepsie, June 28. The shell, Tyee, in which two Husky crews have won every race except that at Poughkeepsie last year, will fall to the freshmen for the Poughkeepsie contest.

The new shell has foot rests made of four-ply Philippine mahogany, designed to prevent the rower's foot from slipping and to resist breaking.

The outriggers will be copper coated for effect on the eye. Poocek, working in a loft over the university boat house, laid the keel of the shell March 19 and expects to have it in the water May 24.

### Big Bout in Chicago.

CHICAGO, May 16.—Mickey Walker, world's welterweight champion, will meet Cowboy Padgett of Dolores, Colo., in a ten-round boxing bout here tonight and in the same ring Gene Tunney, the American light-heavyweight champion, will face Jimmy Delaney, protégé of Gibbons, the St. Paul phantom, who is a manager.

# ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

Colds Headache  
Toothache Lumbago  
Earache Rheumatism  
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Drug-gists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer. Manufacture of Monoaceticacidester of Salicylicacid.

Anne Roselle, Prima Donna

The career of Anne Roselle, the young Hungarian prima donna who will appear here with the Minneapolis Symphony orchestra Monday, May 21, matinee and evening, has been a series of startling successes and triumphs both abroad and in America. At the age of fourteen while singing at a Music Festival in Budapest, she attracted the attention of Franz Lehár the composer. He personally brought her to the notice of Mme. Sily Raffosy, director of the Rakosy Academy of Art, and it was in this famous academy that Anne Roselle began her studies. After three years she was elected to sing all the big parts in operetta at the Royal theatre in Budapest, beginning there her operatic career.

Anne Roselle appeared in the Merry Widow. Her brilliant success in this popular opera brought the young girl prima donna into world-wide prominence. This was followed by a series of sensational successes and triumphs including "The Bat." She later took up grand opera and has been a wonderful success.

Miss Roselle is an artiste with a creative force underlying a perfect voice and operatic schooling. It is this unusual gift that makes her grand opera performances unique, infusing into roles old with tradition the pulse of a new life. It is this that makes her audiences thrill with strange emotions and sweeps them off their feet.

### Banner Musical Comedy

What promises to be the banner musical comedy of the season is the coming engagement of McIntyre and Heath at the Page theatre Tuesday night, May 22, in their new musical play called "Red Pepper." It might be of interest to know that "Red Pepper" is a race horse, in which the two fun-makers are interested. You will be surprised to learn just how much trouble a race horse can make for a couple of humorous Negroes who have traveled to Havana in search of a fortune. Naturally the "trouble" furnishes plenty of fun for the audience, but at the same time there is quite an exciting thrill when two thoroughbred horses race across the stage in full view of the stage, with "Red Pepper" winning by the tip of his tongue.

The race track scene is perhaps the most elaborate reproduction of the famous race course at Havana ever constructed.

### Wes Barry at Page

Wesley Barry, the thirteen-year-old boy actor, in "Rags to Riches," opens at the Page theatre today for a run of four days.

Wesley is the same freckled, fun-loving, mischievous lad who delighted thousands in "School Days"; the same youngster who runs the gauntlet of glorious scraps and shuffles out of them with a coolness which has been the envy of every youngster and grown-up seeing him on the silver screen.

The taking of certain parts of "Rags to Riches" is said to have been attended by great danger to both Wesley Barry, the producer, director and cameraman. In one instance Wesley, holding fast to the side of a trestle while a train roared past, found his strength give way, and dropped fifty feet into the whirlpool below.

### Famous Screen Horse, Rialto

One of the most unusual attractions is at the Rialto theatre this week, where "Just Tony" is opening today.

It is based upon Max Brand's novel, "Alcatraz." It is the story of a horse—a horse that is a leader of his desert band of mustangs. He is finally captured by man and placed in an inclosure. The man beats and punishes him and the animal in his hatred kills the man and escapes back to the plains and becomes the leader of a band of wild horses. He hates all mankind and from thenceforth does everything in his power to injure mankind. He lets loose their horses, and they in turn offer a reward for him dead or alive, and then comes the real man into the life of Tony. The acting of Tony, who is Tom Mix's famous horse, is almost human.

On the same offering is a super-comedy feature called "Dandy Dan."

## Greatest Resources of Jackson County

In the upper Rogue River Valley, half way between Medford and the Crater Lake, from the foot of Mt. McLaughlin to the summit of the Umpqua water shed, are located Oregon's greatest resources. They are timber, water power and play grounds.

The California Oregon Power Company, managed by Paul Bunyan McKee of Medford, is harnessing this great liquid hydro electric power as it tumbles from the summit of the Cascades to the sea. He tames this great giant and brings it as a servant to our homes.

This power is necessary for the development of the lumbering industry. The Brownlee Olds Lumber Company is the pioneer developer of the timber. It is now actively engaged in the manufacture of lumber. With forty-five miles of railroad, reaching from its mill at Medford to the foot of Mt. McLaughlin, it taps this virgin forest, consisting of five billion feet of merchantable timber.

Through the development of electric power and railroads there are now several tracts of timber available for immediate or future operation.

Supply and demand determine the rapidity of the development of these resources. Various industries will develop here as market conditions warrant.

Give your moral support—be a booster!
