Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jaid Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jaid Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

A SKILFUL PHYSICIAN

When a Greek ruler (way back in remote times) asked Hippocrates the "Father of Medicine" what to take to be strong, he answered, "Take Nature's remedies—herbs!" Dr. Pierce's Golden Medical Discovery would have pleased the great physician, for it is composed of herbs skillfully blended by competent chemists, and is one of the best tonics and blood purifiers. Keep the Blood Pure and Health is Sure to Follow!

New Location!

I am now located in the Medynski Building on South Central.

I have been in the real estate business in Jackson County for the past fourteen years, averaging about 1500 miles per month over the valley. I believe that Jackson County affords unmatched opportunity for the man looking for small acreage.

I believe that soon canneries, evaporating and pickling plants will locate here to take care of vegetables, berries and other fruits. There is no place on the Pacific Coast better for poultry than Jackson County. Then along with this assured living a man can develop a few acres of peaches that will bring independence in a few years.

No business or professional man can serve Jackson County better than by developing a two or five-acre tract in some desirable subdivision under one of our irrigation projects. Develop it and pass it along if you don't want to keep it. The settler coming here will take it from you at a fair profit.

Anyone with \$100.00 capital and an inclination to "dig in" can make it in Jackson County. Talk it over with us.
