

## REAL ESTATE IS VERY ACTIVE NOW IN CENTRAL POINT

CENTRAL POINT, Nov. 23.—Among the important real estate deals the last week were the purchase by Mr. Cunningham of Indiana of the home of W. H. Norcross on Ash street. Mr. Axel Benson bought the house that formerly belonged to Doctor Davis and Mr. Russell Thornbrue purchased the house now tenanted by Mr. Jacob Myers. It also belonged to Dr. Davis. All the deals were made through George Fox, real estate agent of this city.

The work on the new gymnasium started last Monday, with Messrs. Clark and Southwell as contractors. The foundation has now been all laid.

so that the work of setting up the building will be next. The contractors have a crew of several men working, so that the building will be finished shortly.

Mr. Frank Rothrock held an auction sale at his home yesterday to sell all his household belongings. Mr. Rothrock will shortly leave for Florida and then back to Indiana to be with his son who lives there. He will be greatly missed by all the townfolk.

A group of Medford W. R. C. ladies visited the bi-monthly meeting of the Woman's Relief Corps of this city, Saturday.

Mr. Leon Love and Irel Caster departed from this city last Sunday morning for southern points, presumably they will join Mr. Sanford Richardson, who formerly lived here, at Concord, California, or they will go on to Los Angeles. They are making the trip by motorcycle.

Mr. F. Cummings has purchased the house he now lives in, and will move it on the lot back of its present location, to make room for the new service station.

Mr. and Mrs. Walter Schulz of Med-

ford were visitors Wednesday at the Rostel home.

The interior of W. C. Leever's hardware store is undergoing a redecoration.

The party given by the Epworth league in the brick church last week, was well attended by the younger folks, who enjoyed themselves by playing different games and partaking of the dainty refreshments, served them.

Mrs. Hazelwood recently purchased the house belonging to Mr. Frank Rothrock.

W. J. Herwig of Portland, Ore., presented an address and a two reel motion picture entitled "The Last Raid of Sheriff Kendall," based upon the slaying of Sheriff Kendall of Linn county a short time ago while attempting to raid a moonshine still. The Reverend Roy Healy, who accompanied him was also mortally wounded. He had come along to secure material for a book. The address which was entitled "Pernicious Nonsense" was very instructive and interesting. The film went on to show the various conditions under which illicit liquor is manufactured for the thirsty ones who crave such. It also showed the successful raiding of a still.

The Christian church where the film was shown, was packed to the doors. Those who attended are more eager to uphold the law in suppressing the illicit traffic now than ever. It was given under the auspices of the Anti-Saloon league. W. J. Herwig is the scenario writer and producer of the film.

The soccer football team of the local high school played the Talent aggregation last Friday afternoon at Talent. The game was more or less delayed due to the inability of some of the local players to arrive on time, but however, substitutes were assigned their different positions.

The honor of making the first score went to Roy H. Weaver, by placing a drop kick over the goal. Talent however soon after kicked a goal, which was the culmination of their efforts. Central Point then made ten more points by penalty kicks, kicking goals, and drop kicks, bringing the score to eleven to three in favor of the visitors.

The team will play Rogue River today and this will be the last game of the season. Then practice upon basketball will start with full force.

The monthly meeting of the Missionary society was held at the home of Mrs. R. H. Stearns, with Mrs. Stearns and Mrs. Rose Kindle as hostesses. A number of members were present to spend a business and pleasure hour together. Delicious refreshments were served to all present.

And again death has laid its cold hand upon one of the beloved residents of the city. Mrs. Mary A. French was called to rest, Saturday last, at her home, aged 50 years, 4 months and 26 days. The greater part of her life she spent at Corona, Mich., which was her native home. In the year 1893 she wedded Warren W. French, and to this happy union, were born three children, Morris and Clinton H., of Sacramento, and Iver S. French of this city. After 1910 they had lived in Washington and have resided here for the two years or more. Many townspeople were present at the funeral held in Medford, at the Perle funeral home Monday, November 19th, with Reverend Coan officiating. The body was interred in the Central Point cemetery. The entire community extend their sympathy to the bereaved.

A new service station will soon be built on Pine and Fourth streets by Mr. Kenneth Beebe and Merle Kindle. As soon as the house tenanted by Frank Cummings, now occupying the corner is moved, work will start upon the new enterprise. The corner is especially well located for a station, being right at an intersection. This will be the second station owned by these two enterprising business men, the other being on West Pine street.

The management of the F. and E. theatre was very fortunate to book for tonight a very good attraction. "Peck's Bad Boy," a stage version of the famous comedy. This is the same cast that has been making a record run in Los Angeles and points to the east. This is the first tour the company has had with all the star cast included. One of the members of the company, Arthur Van Slyke, appeared last in this section with the "Kolb and Dill" company at Medford last year. Following the show Herb Alford will furnish the music for the regular Friday night dance, held in the same hall.

### Close Installs New Lathe

P. F. Close of the Riverside garage has installed a new lathe, including practically every modern attachment, such as tapering, milling and grinding attachments, etc., for turning out the highest class of work in this line. Mr. Close's skill and speed as a lathe man are already well known to many of the people of the valley, and this machine makes it possible for him to do lathe work with maximum speed and efficiency. Mr. Close has had years of experience at lathe operation in factories and machine shops and says that he is now in a better position than ever to serve the trade in his special line of work. If it's a special lathe job, try Close. 211\*
