

BRINGING UP FATHER

By George McManus

WAR TIME BREAD
SEVERE HANDICAP
TO WHEAT MARKET

WASHINGTON, Nov. 26.—Needless continuation of bread-saying habits formed in war time, department of agriculture officials declared in a statement issued today, is limiting American wheat consumption, to the disadvantage of both producer and consumer.

A return to pre-war food habits in the use of wheat by the public and the feeding of low grade wheat to livestock, department experts assert, would help greatly toward solving the wheat problem.

The wide disparity between the cost of bread to the consumer and the price received by the producer for the wheat from which it is made is cited by the department as an illustration of the disproportionate relationship which exists between the price of farm products and the price of things that have gone thru a manufacturing process.

"The price of bread in cities has not fallen with the price of wheat and flour," says the statement. "A pound loaf of bread which in Minneapolis in 1913-14 cost 5.3 cents now costs approximately 9 cents, while flour, which in 1913-14 cost \$4.43 a barrel, now costs \$6.89. Allowing 280 loaves to the barrel the margin between the flour price and the bread price has increased 10.40 to \$13.40.

"It is obvious that such conditions, however caused, work to the disadvantage of the producers and consumers. Producers are injured by the restriction which is caused by demand and consumers by an uneconomic limitation of distribution."

PRECISION
LIVESTOCK

PORTLAND, Ore., Nov. 26.—(United States Department of Agriculture)—Steers, she stock, calves and hogs declined shortly after noon today after holding barely steady throughout the morning session.
