Good Advice for Women

Portland, Ore.—"All my life I have known of Dr. Pierce's medicine. My mother was a physician and she taught so well of Dr. Pierce's medicine that she quite frequently recommended them to her patients, especially the 'Favorite Prescription' for women. For about two years after the birth of my fourth child I suffered with feminine trouble of a very serious nature. I had all the aches and pains a woman could have. I was nervous and weak—just able to get around. I was in distress all the time, when I began taking Dr. Pierce's medicine that she quite frequently recommended to her patients, but was completely relieved of all my ailments and restored to perfect health. "When my daughter was growing into womanhood she was backward and had such poor health that she was compelled to quit school. I gave her the 'Favorite Prescription' and it completely restored her to health and she came into womanhood in a very natural way."—Mrs. Jennie Butterfield, 821 Mich. Ave.

Indigestion

May Lead to

Appendicitis

Repeated attacks of indigestion often lead to serious inflammation of the stomach and intestinal tract. This inflammation may finally extend to the appendix, which usually becomes infected through the presence of foul, irritating matter in the bowels.

It doesn't pay to ignore even the most simple warnings of digestive trouble. Neglect is responsible for much misery. Uneasiness at the pit of the stomach, sour taste in the mouth, excessive gas, heartburn, nausea, vomiting, bitter risings, constipation, biliousness, dizzy spells and palpitation of the heart after eating are some of the most common symptoms of poor digestion.

If you are subject to any form of stomach distress don't fail to try a bottle of Smith Bros' M. A. C., the guaranteed stomach treatment. This wonderful medicine usually gives prompt relief from all discomfort. In fact, it is sold on a positive guarantee of money back if the first bottle fails to do so in any case of stomach trouble. A large bottle costs but \$1.25.
