GOLD HILL TO PURCHASE LIGHT AND POWER PLANT

GOLD HILL, Nov. 28.—(Special).—The city council of Gold Hill have approved the resolution empowering the mayor to consummate the deal with the Gold Hill Electric company for the purchase of its power plant at Gold Hill for the city. The property consists of 120 acres of land, joining the city on the north and a river frontage of over half a mile on the north side of the river, the diverting dam and works, canals, pipe and power lines and a 500-h.p. electrical power plant equipment. The deal will be consummated in a few days and the city will take over possession of the property. The city has been operating the plant under lease for the past two years for pumping purposes only. The deal was made through the special efforts of Mayor M. S. Johnson, who is retiring January 1st after serving the past four years as Gold Hill's executive head. After the deal was announced the citizens were unanimous in supporting the mayor and confirming his action. The electors of the city voted \$25,000 bonds last year to improve their power site and canal on the south side of the river which has been diverting the purchase of the old site on the north side of the river. The city owns jointly with the Gold Hill Irrigation District the dam, diverting works, and control works on the south side of the river which covers the city's old diverting works and a portion of the old canal site. No plans have been announced by Wm. H. Miller, who succeeds Mayor Johnson, but there is a movement on foot for the city to sell its 55-100 interest in the jointly owned diverting and control works to the irrigation district.

Sports MULTNOMAH CLUB O. A. C. PREPARE THANKSGIVING TILT

PORTLAND, Ore., Nov. 27.—Multnomah club football players are practicing every night for the coming game with Oregon Agricultural college to be played here Thanksgiving day. From Corvallis, comes the word that the Aggies, flushed with their victory last Saturday over University of Oregon, are coming to Portland expectant of a victory over the clubmen, who have hardly recovered yet from the effects of their defeat at the hands of St. Mary's college of Oakland, Cal.

DES MOINES—John Rickelman of Mount Ham, Iowa, won what is said to be the first inter-state corn husking contest ever held in the United States when he defeated H. D. Paul of Ipaava, Ill.

LONDON—Johnny Brown of London won the Lonsdale belt and the bantamweight championship of Europe by defeating "Bugler" Lake on points in a twenty-round contest.

BOSTON—Young Stribling, lightweight of Macon, Ga., was awarded the decision over Joe Egan of Dorchester, after a dull ten round bout.

ST. LOUIS—Joe Lynch of New York, bantamweight champion, was matched to box Eddie Koloun of New Orleans, southern bantamweight, a twelve round no-decision bout next Monday night at Newark, N. J., Eddie Meade, Lynch's manager, announced.

NAVY TO WORK HARD FOR GAME IN CALIFORNIA

ANNAPOLIS, Md., Nov. 27.—The naval academy expects to go west for the game at Pasadena on New Year's day with a team in much better physical condition, stronger and more proficient in every way than that which played the game against the West Point eleven in New York last Saturday.

The players will take a full week of rest and keep as far away from football as possible. Then will begin special preparation for the Pasadena contest.

Most of the regulars were on the road to recovery prior to the army game.

It is likely that a representative will make a trip to Pasadena at an early date and confer with the authorities of the Tournament of Roses, under whose auspices the game will take place.

Rex Beach Story Here

"The Spoilers," the famous Rex Beach story of the Nome gold rush, generally considered the finest novel of that period ever written, is the special Thanksgiving attraction which opens a five days engagement at the Page today.

The story is an out-of-doors tale of the finest type, characteristic of the best days in the Nome region. The fight scenes which were a vivid part of the book have been depicted in a manner to marvel at.

"The Spoilers" features so many characters of importance that a large cast of unusual excellence had to be engaged.

Milton Sills is cast as Glennister; Noah Beery enacts the villainous role of McNamee; Barbara Bedford is the heroine, Helen Chester; Anna Q. Nilsson has the colorful role of Cherry Malotte; Robert Edson is Dextery, the friend; Wallace MacDonald is the flippant Broncho Kid; Mitchell Lewis as Marshal Voorhees; Robert McKim is the cruel Struve; Sam de Grasse as Judge Stillman and Albert Roscoe as Mexico Mullins.

"Divorce," Rialto

"Divorce," an appealing picture starring Jane Novak, is the feature attraction at the Rialto theatre today and tomorrow.

The fact that worldly success frequently transplants love is the more or less pointed moral in "Divorce." The tale centers about an apparently devoted young couple who have found happiness in the simplicity of an unpretentious home. Only when sudden prosperity overtakes them do they find themselves practically on the rocks. It is then that divorce stalks them, the "other woman," a sly adventuress, having already entered the picture. The cleverness of the beautiful young wife saves the situation after the husband has come to his senses when he learned that he was not one of those who could "stand success."

FARMERS FAVOR CO-ORDINATION OF R. R., STEAMERS

CINCINNATI, Nov. 27.—Proper co-ordination of rail and ocean transportation is to be one of the outstanding subjects for discussion at the third farmers-manufacturers conference at Omaha, December 17 and 18, the call for which was issued today by United States Senator Frank B. Willis of Ohio, chairman of the midwest committee.

In the official call Chairman Willis said: "American railways and American steamships by co-ordination can be brought into such working harmony that they will be real trade developers for American products in foreign lands. . . . By co-operation in an active and positive manner the middle west can thus attain economic freedom and find an outlet for its immense surplus of manufactured and raw products and material."

One measure suggested to bring about this co-ordination, it is understood is to authorize through act of congress the creation of a joint thru export tariff board of railroad and steamship officials to publish joint tariffs under the supervision of the inter-state commerce commission.

Delegates from twenty-one states are expected to attend the conference.
