Page, Tonight and Sunday
 Elinor Glyn's "Six Days," which ran in serial form throughout the country and was finally made into a picture, is the feature attraction beginning tomorrow at the Page.
 If one goes to see this picture expecting something salacious, he will be sorely disappointed, for, despite Elinor Glyn's reputation for weaving daring novels, "Six Days" has little in it of sex. Corinne Griffith is the slim and lovely heroine and Frank Mayo is the young lover.

"Potash and Perlmutter" closes at the Page tonight. Smiles, tears, quarrels and reconciliations; love, loyalty and insults are all mixed up inextricably, and as amusingly as ever they were when the speeches were heard instead of seen in the captions.

At the Rialto
 J. Warren Kerrigan, hero of many and varied screen encounters, and Lois Wilson, will be seen in "A Man's Man," at the Rialto theatre, commencing tomorrow at 12:30. The story is by Peter H. Kyne and introduces Kerrigan as a brave young American whose search for thrilling adventure takes him to South America.

The picture provides many of the Canadian northwest and Montreal featuring Dorothy Phillips, supported by a strong cast, closes at the Rialto tonight. It's a story of adventure, romance and love.

Over \$100,000,000 to Be Spent Hollywood On Pictures in 1924

LOS ANGELES, Dec. 29.—Upwards of \$100,000,000 will be spent in the making of motion pictures in southern California during the coming year according to film company officials here.
 Warner Brothers' Hollywood studio which recently suspended operations today announced that production would be resumed January 7, in pursuance of a 1924 program calling for expenditures of more than \$6,000,000 and other producing organizations made public their plans for what they predicted would be a year of record activity.

Glacier Park Melting at a Rapid Rate in Scientist's Opinion

CINCINNATI, Dec. 29.—(By the Associated Press)—The hot day sons of the past few years have caused rapid disintegration of glaciers in Glacier National park, Montana, professor W. G. Waterman of Northwestern university declared in an address today before the Geological section of the American Association for the Advancement of Science.
 Sperry Glacier, studied by Professor Waterman, has lost one-quarter, or perhaps one-third of its ice in the past 18 years, he said. If this rapid retreat should continue, the professor added, the glacier would almost disappear in another 25 years, but he expressed the opinion that the long dry seasons of the past few years is over with probabilities of a lessening in the retreat.

Foley Pills Bring Relief
 "Foley Pills are the best I have tried. My kidneys work a lot better since I received your generous offer," writes John W. Brogan, Adams, Mass. Foley Pills are a diuretic stimulant for the kidneys and while being taken close attention should be paid to the diet. Avoid sweets, pastry, starchy foods, alcoholic drinks, tea and coffee. Drink plenty of good fresh water and keep the body warmly clothed. Refuse substitutes. Sold everywhere. Adv.
