

SIX MEMBERS FLORIDA GANG ARE CAPTURED

WEST PALM BEACH, Fla., Jan. 10.—(By the Associated Press.)—Six members of the Ashley-Mobley gang of outlaws have been captured by officers, including Albert Miller, who shot and killed Deputy Sheriff Fred Baker, at the outbreak of the fight between members of the band and the officers near here yesterday.

WEST PALM BEACH, Fla., Jan. 10.—(By the Associated Press.)—Officers and possemen followed three trails early today in pursuit of members of the notorious Ashley gang who escaped following a gun fight with officers yesterday in which one outlaw and Deputy Sheriff Fred Baker were killed, when the officers sought to enter the camp to arrest Joe Ashley on a charge of highway robbery.

Just before nightfall last night, deputy sheriffs encountered John Ashley, son of Joe Ashley, near Olympias and exchanged shots with him. He halted and was ordered to throw up his hands, but instead of obeying he whipped out his revolver and fired. He leaped into a depression in the ground as the officers opened fire and escaped. At the home of John Rogers, nearby, the officers learned that Albert Miller, alleged slayer of Deputy Fred Baker, had fled from the house when he heard the exchange of shots. Miller was reported as badly wounded.

Late yesterday afternoon officers and possemen brought to West Palm Beach men and women alleged to have been connected with the Ashley gang. Rain fell practically all night, rendering the bloodhounds useless as an aid in the search. Through sloughs waist deep, torn by briars and palmetto barbs men continued the search.

A NEW FORESTRY POLICY FOR U. S. A. IS REPORTED OUT

WASHINGTON, Jan. 10.—The immediate aim of the forestry policy of the United States should be to increase as rapidly as possible the rate at which timber is produced on land suited to this form of use, the senate reforestation committee said in its report submitted today to the senate.

The committee also advocated legislation to enable the president to incorporate in national forests, unreserved public lands and portions of military, naval and other reservations. To encourage private reforestation, the committee recommended co-operation with the states in fire protection on a 50-50 basis of costs and also an adjustment of the methods of taxing forest growing lands so as to avoid an undue burden of current taxation while forests are growing.

The committee held that the main lines of attack in accomplishing this purpose should be:

To extend public forest ownership in areas where special public interests or responsibilities are involved, like the protection of navigable rivers and also where the natural difficulties costs and hazards attending reforestation render it impracticable or remote as a private undertaking.

To remove the risk and handicaps from private timber growing as far as practicable, in order to give the greatest possible incentive to commercial reforestation.

Completion of the federal purchases of forest lands contemplated by the Weeks law for the protection of the watersheds of navigable streams, also was recommended together with legislation authorizing acceptance, under certain circumstances of grants or bequests of forest lands from private owners.

Dr. Uhl apparently was suffering from nervous shock when arrested, it was said.

CASE AGAINST GEO. W. NEILSON DISMISSED

Word was received in Medford today that the case against George W. Neilson, former local manager for the Pacific and Eastern, charged by the government with fraud in securing oil land leases in Southern Oregon has been dismissed on motion of the United States district attorney on the grounds that the government has no evidence against the former Medford man. This information will be received with considerable satisfaction by the many friends of Neilson in this city, who have all along maintained that he was innocent of any wrong doing. According to the report, the case against a Mr. Jensen was also dismissed, but the trials of the other men involved will be carried on. Mr. Neilson will probably be called as a witness for the government in these other cases.

Indigestion May Lead to Appendicitis

Repeated attacks of indigestion often lead to serious inflammation of the stomach and intestinal tract. This inflammation may finally extend to the appendix, which usually becomes infected through the presence of foul irritating matter in the bowels.

It doesn't pay to ignore even the most simple warnings of digestive trouble. Neglect is responsible for much misery. Uneasiness in the pit of the stomach, sour taste in the mouth, excessive gas, heartburn, nausea, vomiting, bitter risings, constipation, biliousness, dizzy spells and palpitation of the heart after eating are some of the most common symptoms of poor digestion.

If you are subject to any form of stomach distress, don't fail to try a bottle of Smith Bros.' M. A. C., the guaranteed stomach treatment. This wonderful medicine usually gives prompt relief from all discomfort. In fact, it is sold on a positive guarantee of money back if the first bottle fails to do so. A large bottle costs but \$1.25.

BANDITS REFUSE TO TAKE MONEY FROM A WOMAN

PENDELTON, Ore., Jan. 10.—Two alleged embryo holdup artists went down to a little neighborhood grocery store on Webb street shortly after six o'clock last night, apparently with every intention of robbing the till. In the store they found only a woman.

"Where is the man that runs this place?" asked bandit No. 1. "We want to ask him for his cash register,"

"I am the proprietor," answered Mrs. Lang, owner of the store, "and I run this store. Here's the cash register," and she opened the drawer, "but empty. However the money is here," and Mrs. Lang pulled a leather bag of money out of a pocket of her skirt. Bandit No. 1 eyed her askance and when bandit No. 2, who had edged near the door said, "aw leave her alone," they both left the store.
