ATTENTION ATTRACTED BY LINCOLN SEDAN

Much attention is being attracted in Medford by the new Lincoln four passenger sedan which was received last Saturday by the C. E. Gates Auto company. This car is the very last word in automobile construction, and its beauty and performance is becoming the "talk of the town." In the Lincoln, Henry Ford's engineers have built every feature that is desired and will appeal to exacting motorists who prefer to drive a truly "fine car."

The Lincoln body is of the very latest design, its interior luxuriously finished, deep, comfortable seats and in-laid side paneling. The sedan model now being shown at the Gates Auto company is admirably fitted for touring having a spacious rear trunk for suitcases or luggage. One of the very finest features of the new Lincoln, however, lies under the hood. The powerful motor is a veritable masterpiece of gasoline motor construction and gives the Lincoln driver a range of speed from three to eighty miles an hour in high. Its even power in high gear at a low speed and smooth acceleration is surprising.

One really should see the new Lincoln, ride in it, to fully appreciate its beauty and performance. George Gates of the C. E. Gates Auto company has issued a cordial invitation to southern Oregon people to see the new four passenger enclosed model at their show rooms at the corner of Sixth street and the Pacific highway.

88 KRAKAUER PIANOS

Now in New York Schools
In 1922—

the Music Committee of the Board of Education of New York, composed of men recognized throughout the world for their ability and appreciation of

Tone Quality—Durability—Artistic Merit

Chose forty-four Krakauer Pianos for use in the schools

In 1923—

in spite of extreme competition the first instruments had proved so satisfactory that they again chose

Forty-four Krakauer pianos for additional schools

Instruments of such a character—that not only please the critical purchaser at first but through the satisfaction they give, bring further commendation in the form of repeat orders, are business builders for the dealer
