

FROHBACH SAYS HORSE RACES WILL BE FAIR FEATURE

Harness races will be the big entertainment feature at the Jackson county fair according to H. O. Frohbach who has just returned from a meeting of the North Pacific Fair and Racing Association held at Seattle. The fair at New Westminster, Canada, will be the only fair held on the same dates of the Jackson County Fair and as they do not have races at New Westminster, the horsemen will be at Medford, otherwise they will have to lay up that week.

No changes were made in the racing rules. Instead of the horsemen paying ten per cent entry fees which was added to the purse, the new plan is to charge three per cent entry fee which will be retained by the fair associations.

The Bernards Exposition Shows with seven rides and ten side shows will be at the fair this year. It is a twelve car outfit and clean in every particular. No girl shows will be permitted by any of the fairs this year and each fair reserves the right to close any show on the grounds that it is distasteful to the management. A bond will be furnished assuring appearance and another bond against accidents will be given by the Bernards Shows company.

The dates for the Jackson County Fair are September 10, 11, 12 and 13.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenchu, to others who took it, with what might be called marvelous success. After years of everywhere know about his discovery urging he decided to let sufferers through the newspapers. He had therefore instructed Heath's Drug Store and West Side Pharmacy to dispense Allenchu with this understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. RAINFALL IS FIVE INCHES SHORT, FOR THIS TIME OF YEAR

The freaky spring like weather which has prevailed for days with its several periods of brisk winds, which are unusual for this section, alternate sunshine and cloudiness and always threatening rain, with but little of the much needed wetness falling, continues and rain is again the prediction for Saturday. Just a trace of rain fell several times today.

Such weather as has been prevailing has shattered the predicting apparatus of the old timers of this section and other amateur weather prophets. They simply cannot understand why a down pour of rain has not followed shortly after these wind outbursts, as nearly always in the past.

Now the old timers with their reputations shattered as weather oracles, but still game and full of hope, say that they look for a big storm of some kind to come when this freak weather spell breaks.

Meantime unless there is a steady downpour of rain in the valley, and much more snow in the mountains within the next few months, the present year will go down in the records as one of the driest ever known. For the past 10 years the rainfall hereabouts has been about 16 inches, and up to date the rainfall since last September is now five or six inches short. Only about a half inch fell during this last month, whereas the average January rainfall of recent years has been about one and one half inches.

Not only that but there has been a shortage of snowfall in the hills and mountains, which if it continues, bodes ill to irrigation in the valley next summer.

In the Dead Indian section, according to reports which reached here yesterday, there are at present only eight inches of snow at the divide, in comparison with three or more feet of snow in recent years.

This snow shortage is also plainly evident in the Butte Falls district where homesteaders are now able to walk out to their homesteads, even within four miles of Mt. Pitt, whereas in previous years at this time these homesteads could not be reached because of the great depth of snow.

OIL PRODUCTION IN 1923 BREAKS RECORD

WASHINGTON, Jan. 31.—Production of petroleum in the United States broke all records in 1923, incomplete figures indicating an output of 735,000,000 barrels, according to government survey statistics made public today. This is an increase of 30 per cent over 1922 and nearly 40,000,000 barrels more than the total world production in 1920. In addition to the large domestic yield imports reached \$2,000,000 barrels.

HAIR STAYS COMBED, GLOSSY

Millions Use It—Few Cents
Buys Jar at Drugstore

Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions. "Hair-Groom" is greaseless; also helps grow thick, heavy, lustrous hair. Beware of greasy, harmful imitations.

CONTRACTOR LOST MONEY WHEN HE BUILT C'T HOUSE

Here are a few little known historical facts about the county courthouse, and the city of Jacksonville.

The courthouse cost \$42,500 and when the contractor got through he was suffering from acute pains in the pocketbook. The contractor who built the foundation, sufficiently stout to hold up the rock of Gibraltar, had finished the job, he was in such financial shape, that residents of Jacksonville and the county, gave him a benefit dance. It was quite a party, say the pioneers who participated.

According to County Judge Gardner, the buildings in Jacksonville are a source of delight to architects, and every house holds some bit of workmanship, long out of style. More architecture of the period before the Civil War, is still intact in Jacksonville, than in any other town in the land, is the claim.

The fancy painting noticeable on the door panels, window sills, and tables of the courthouse, was all the rage when the courthouse was built. It is of a wavy nature, the waves being produced with a fine tooth comb pulled through the paint, while it was wet. The grain in the wood was produced by rubbing a peeled potato, after the wood had been painted with linseed oil, and turpentine. The artisans of the old days had a few tricks.

SILK EXPOSITION AT MANN'S STORE

A most interesting silk exposition is being featured this week at Mann's big department store. Through the courtesy of Marshall Field & Company, the manufacturers and distributors of "Silks Beau Monde," a number of specimens brought from Japan have been secured which show the process of silk making. This display will be most educational insofar as it will show the process used in converting the fibre of the silk worms' cocoon into a delicate and beautiful fabric.

This silk exposition will hold forth at Mann's store until Saturday night and the public is cordially invited to see it.

EX-PRESIDENT WILSON ILL, DOCTOR CALLED

WASHINGTON, Jan. 31.—Woodrow Wilson has been indisposed for two days, it became known last night, but Dr. Sterling Hufkin, who was summoned in the absence from the city of Dr. Cary T. Grayson, declared he "did not consider the former president's illness serious."

"The illness for which I was called in," Dr. Hufkin added, "had nothing to do with the former grave illness of Mr. Wilson."

Dr. Grayson, who has attended Mr. Wilson during and since his administration is on a hunting trip in North Carolina and was not expected to return to Washington until today.

DENBY MADE OIL TRANSFERS

(Continued From Page One)

ination was resumed, asserted that he never had passed on the legality of the Doherty or Sinclair leases, altho he had informed Mr. Denby that he could legally arrange with private interests for construction of tankage for the storage of naval oil, as has been done as a result of the Doherty contract at Pearl Harbor.

"Do you think the lease should be revoked?" asked Mr. Vinson.

"I think the matter should be referred to the courts," replied the admiral.

WASHINGTON, Jan. 31.—A sixty-bed trachoma hospital equipped with special fittings to enable patients to feel their way by foot and having walls, lights and windows of a color not injurious to the eyes, will be constructed by the veterans' bureau at Pikeville, Ky.

Plans for the hospital—the first of its kind in the United States—are nearing completion and bids will be invited about February 8.

A. J. CROSE, Secretary.

Notice
W. O. W. dance at I. O. O. F. on Thursday night, January 31. Members and invited friends. Admission fifty-five cents.—Committee.

EVANGELIST AT SOUTH METHODIST SECURES CONVERTS

A burning message from the words "Ye must be born again," delivered by Evangelist Hughes last night resulted in several conversions at the altar of the church. The attendance has increased with each service thru the week and more seating for the crowds is being provided by the church. The same liberal use of scripture was used in the address last night as has marked all of the deliverances of the preacher.

"There are two births," stated the evangelist. "The one is physical, the other spiritual. Of the first we have no knowledge or control. The other is altogether of our choosing. Jesus Christ is definite, direct and clear in his announcement of the way of entrance into the redeemed life."

At another time the speaker said, "Many preachers of our church are spending more time trying to explain away the teaching of the Bible than they are to preaching its mighty saving truth."

A church that ceases to lead men

Good For Weak Eyes
The quick action of simple camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash, astound people. One small bottle helps any case weak, sore or strained eyes. Aluminum eye cup free. Leon B. Harkins. Sold in Central Point by Mary A. Mee, druggist. Adv.

END RHEUMATISM WITH RED PEPPER

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package. Adv.

Across From Nat

from the silk worms of Japan to SILKS BEAU MONDE

is a romance intensely interesting. It reveals the secrets of Silk Culture which were for twenty centuries jealously guarded by ancient China, and the modern improvements that make possible the extensive use of silk fabrics today.

Do you know that one silk worm spins about three-quarters of a mile of fibre in making its cocoon? It requires the work of at least 1,500 silk worms to make a simple dress. This is only one of the interesting things told by the Silk Beau Monde Exposition.

see OUR SILK EXPOSITION

now exhibited in our store by courtesy of Marshall Field & Company, the manufacturer and distributor of Silks Beau Monde.

This exposition, through many specimens brought from Japan, will explain to you the educational facts about silk culture.

It shows the scrutinizing care with which silk workers attend the silk worm from egg to cocoon; it illustrates the processes used in converting the fibre of the cocoon into a delicate and beautiful fabric.

When one realizes that the United States consumes more silk than any other country in the world—spending approximately \$300,000,000 every year—the romance of silk as told by this exposition is of no small importance.

Be sure to see the exhibit; in our store until Saturday night.
