OIL MEETING AT LIBRARY OPENED. **CLOSED BY PRAYER**

The meeting conducted Tuesday night by Rev. David Rugene Olsen, the Oregon oil promoter and development operator, held in the library in the interests of the Trigonia oil well was well attended by Trigonia atockhoiders and others interested. The meeting opened with prayer by Rev. Olsen and the singing of America.

Dr. Olsen made an earnest address in which he dilated on what he termed the rosy chances of striking oil in the Trigonia well, and spoke optimistically of the oil development outlook all through Western Origon. The speaker closed by asking all present to go home and pray over the matter of contributing to the financing of the Trigonia to a finish. Dr. Olsen recently became financially interested in this well, and his mea are at present conducting the work of cleaning out the hole, preparatory to resuming drilling in about three weeks.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which help to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any plarmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts made from the acid of grapes and and stimulate them to their normal activity.

A few hours after Director Butler had charged 100 city detectives with But I see that I am making my let-ter too long so will reserve several told them he know of the existence of a "bootleg king" with a fabulous stock. police raided an old warehuose in the lowntown section and placed its store of liquor under guard.

The storehouse, police said, was rented by Jacob Carton, formerly a Philadelphia broker but at present a resident of Atlantic City. Carton declared that the entire stock was in his ossession before the passage of the prohibition amendment and that his possession of it was legal. He said he vould come to Philadelphia today to protest the action of the police.

Police declared that they were sure the place had been in operation as a distributing center for bootleg liquor, as neighbors said trucks had been seen coming and going continuously before the Butler regime. Search of the place, the police said, revealed a bot-tling plant in perfect running order, thousands of labels for many brands of liquor, 500 barrels of beer, eighty cases of whiskey, 55 gallon jars of brandy, 65 cases of gin, 23 barrels of assorted liquors and large stores of

The Secret of Good Baked Beans

KITCHEN BOUQUET does for baked beans what it does for gravies -greatly adds to their flavor and improves their color.

In Boston, where the preparation of all kinds of beans has reached a perfection that is the despair of all other sections, KITCHEN BOU-QUET is most liberally used.

Preparing for the oven, add a tablespoonful to a quart of beans. Prepare your beans the Boston way.

'Carbon' Free Motors

How to enjoy them for many extra months

HOUGH all motor oils deposit a carbonaceous residue, there is a vital difference in the kind and quantity which various oils leave in the motor.

That from many oils becomes hard and flinty. It accumulates rapidly and must be removed every 2000 to 4000 miles. This may require a motor "lay-up" every two or three months.

In addition, the presence of this hard "carbon" even in small quantities is a constant cause of trouble. It becomes incandescent, pre-igniting the gas and thus causes

It lodges under valves and prevents tight seating which dissi-

pates the power. It attaches to spark plugs, short circuits the spark and causes

And its flint-like character makes it an abrasive which constantly threatens to score cylinders.

But these "carbon" troubles can be eliminated by a careful selection of your motor oil. For Aristo Motor Oil deposits an entirely different kind of

It is soft and fluffy, most of it blowing out with the exhaust. It accumulates not more than a quarter as fast as the flinty

Being softer than the metals in your motor it can not scratch them. Because it does not lodge under valves, it does not cause power

leaks. It rarely fouls spark plugs. Thus you see why you can have a "carbon"-free motor

for thousands of extra miles by merely selecting the right lubricating oil. Drain your crank case, fill with Aristo, and use it unmixed with any other kind of oil.

You save the cost of "carbon" removal, you enjoy the more constant use of your car and you prevent the danger to your motor which always accompanies the hard, flinty, abrasive kind of "carbon."

Try this plan now. And enjoy the freedom from "carbon" troubles which thousands of motorists attest.

For sale at all first-class garages and service stations.
