

NEW PRESIDENT ALBANY COLLEGE TO SPEAK HERE

Sunday will be Education Day at the Presbyterian church. Dr. Clarence W. Greene, the new president of the Presbyterian college of Oregon, Albany college, will speak at the morning service. Dr. Green is highly commended by the synod of Oregon. Received his education in the colleges and universities of the east and has taught in some of the large institutions. He came down a fine opportunity in the past to undertake the work which has been on his heart, that of trying to help worthy young people secure an education by helping to build up a self-help institution in the great west which could do a work similar to that of Park college, Parkville, Missouri, and Blackburn college, in Blackburn, Illinois. His message will be of great inspiration to the young people and those interested in Christian education. He will speak also at the Kiwanis club at their noon luncheon Monday, and at the high school assembly early Monday afternoon.

In the evening service, stereopticon pictures will be shown, depicting the conditions of various groups in our great land, such as the Alaskan children, those among the Indians, Mexicans, South mountain immigrants, workers in mines and lumber districts, also showing what the board of National Missions is doing to train these children for Christianity and to make of them worthy Americans. There will be special music at both services.

Special mention will be made at the morning service of the life and work of ex-President Wilson as an educator and Presbyterian elder.

MEMORIAL SERVICE FOR WOODROW WILSON AT BAPTIST CHURCH

Sunday evening at 7:30 p. m. a memorial service for Woodrow Wilson will be held at the First Baptist church. Extra music has been arranged for this occasion. The organ recital will feature the opening of the program, starting at 7:15 p. m. In connection with this service the church will use the new and beautiful stentor for the first time, when one hundred will be baptized. The order of services will be as follows:

Ten minute organ recital by S. M. Scott, organist-choir director.

Anthem, "God So Loved the World" by J. Stainer.

Hymn, "Some Day the Silver Cord Will Break," by Stebbins.

Scripture lesson.

Violin solo by Carlton Jones.

Prayer.

Tenor solo by George Maddox.

Announcements and organ offertory.

Hymn, "God of Our Fathers," by Tenby.

Memorial address, "A Character Study of Woodrow Wilson—the Prophet and Idealist," by Rev. F. R. Leach.

Anthem, "May Thine Angels Descend," by Shelly.

Ordinance of baptism.

Benediction.

VAN ESS Grows Hair in 90 Days

A minute a day is sufficient time to devote to this new method scalp treatment. VAN ESS Liquid Scalp Massage is applied with a patented rubber applicator attached directly to the bottle. The cooling treatment is fed directly to the hair roots through flexible rubber nipples. VAN ESS stops falling hair—grows new hair in 90 days. Ask us about our 90-day treatment plan. We give a money back guarantee. Get started now. VAN ESS will not disappoint you.

NAME COMMITTEE TO STUDY LOCAL FRUIT PROBLEMS

Extensive preparation for the horticultural section of the Jackson county economic conference is being made by a committee of pear and apple growers that met recently and outlined plans. This committee is composed of Harry Rosenberg, Medford, chairman; Bert Anderson, W. H. Crawford, William Brayton, D. R. Wood, Ned Williams, Colonel Gordon Voorhes, C. C. Cate, Vernon Waxter, Paul Scherer, J. C. Mann, R. J. Henry, R. E. Shinn and A. C. Allen, all of Medford; Captain Tuttle, Central Point; Chase Gardner, Talent; E. W. Carlton, Central Point; F. C. Reimer and R. E. Koozer, Talent.

The conference will open in Medford at one o'clock Monday afternoon February 18. Details of the program will be announced soon by the executive committee.

The status of the pear and apple industry will be thoroughly investigated by sub-committees and information gathered to assist the fruit section in arriving at a program for more profitable production and marketing. Committees were named on statistics, the canning industry, Bartlett and late pears, cultural methods, and apples.

"Some of these special committees are already at work," states Mr. Rosenberg, "and some of the information that has been dug up will be a revelation to the conference. It's time that all the facts in connection with our million dollar fruit industry were brought out and tabulated so that our growers can more intelligently plan for the future. I can say right now that no pear or apple man can afford to miss the coming conference."

WIMER WARBLINGS

While the farmers of Rogue River are building up dairy farms, the farmers in the Evans valley are building a beef strain, the Herford is chosen. The Williams brothers have purchased two registered Herford sires, William H. Williams and E. E. Richmond have also registered sires, it looks fair in the future that there will be thoroughbred stock both in dairy and beef cattle in this vicinity.

S. H. Beers, one of the oldest residents of Evans valley, and who has lived in Oregon 53 years, is seriously ill at his son's, G. E. Beers.

Jack Weide was in Grants Pass Friday, visiting his little son, who underwent a serious operation and is in the hospital at that place.

The friends of Jessie Neutnamer will be glad to learn he is improving. E. G. Dimmick and G. E. Beers were Medford callers Saturday.

A. A. Davis, principal of the Wimer school, was called to New York on business. His vacancy has been filled by J. Angell of Monmouth, Ore. J. Angell and Miss Wilkenson spent the week end visiting home folk.

The young people's Sunday school class postponed their Saturday night class meeting on account of sickness.

Miss Silva Greenleaf and Miss May Thompson were Sunday callers at the George Beers home.

We are sorry to learn that Fred Smith is ill.

We wonder why the Rogue River writer failed to mention the basketball game, played there between the Yreka high and Rogue River high, which was quoted as going to be the best game of the season, and "proved to be one of the best, which was a fast, and hard fought game from start to finish, but in the last minute and a half, gave the local boys victory. The score was 19 to 16 in favor of Rogue River."

Radio News

K. P. O.—Hale Bros. San Francisco, last night carried out a successful experiment in linking conversations over five thousand miles of long distance telephone and re-broadcasting same. Long distance lines, extending from Havana, Cuba, to San Francisco carried on conversations and musical numbers between these points and intermediate points, and listeners in over the radio heard the programs very distinctly and clearly. Hooked on for the experiment were the following points: Chicago, Garden City, Kas.; Denver, Rawlins, Wyo.; Salt Lake, Winnemucca, Nev.; Sacramento, Terre Haute, Ind.; Springfield, Mass.; Winnipeg, Canada; Palm Beach and Havana, Cuba.

Many radio fans in Medford tuned in on this experiment and all report good results, particularly in receiving the violin solos from Havana.

As the programs were picked up at San Francisco they were broadcasted over the radio from there and it was reported that the program from Havana was relayed back to Havana and plainly heard there.

Cut This Out—It Is Worth Money

Send this ad and ten cents to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a ten cent bottle of Foley's Honey and Tar Compound for coughs, colds and hoarseness, also free sample packages of Foley Pills, a diuretic stimulant for the kidneys, and Foley Cathartic Tablets for Constipation and Biliousness. These wonderful remedies have helped millions of people. Try them! Sold everywhere.

The public is cordially invited to attend the services and visit the Reading Room.

EAGLE POINT EAGLETS

By A. C. Howlett

Mrs. Walter Marshall, Mrs. W. S. Baker and Mr. and Mrs. Thomas Vostel of Reese Creek were patronizing F. J. McPherson last Saturday and William Marian of Derby, Jean Bellows, one of our progressive farmers and stockmen, living on his fine farm, a few miles above here on Rogue River, and Mrs. Carl von der Hellen of Wellen, were patronizing the Brown Brothers and the Nichols and Asphole stores the same day and Robert Merritt, Carl Birdsman and A. A. Betts were also doing business in our town Saturday.

Dr. Kirkcaldy, who is living on his farm near the Debenberg Gap, passed through our town Saturday afternoon on his way home.

One would think that the ground hog must have seen his shadow on ground hog day by the way it has rained most of the time since, but looking at it from the farmers and orchardists' view point, it has been just what was needed for it seemed to be a universal complaint that we were shy of moisture, but in southern Oregon, it always is just about at the right time and in the right quantity. And the nice warm rain and warm weather combined have started the grains to growing so that the grain and grass are looking fine and we feel safe in predicting a bountiful harvest of grain, hay and fruit this year.

Mrs. Susan Hart, who lives on her own farm a short distance north of our town, returned a few days ago from a visit to her youngest daughter, Mrs. E. W. Hawes, and spent Christmas day with her and a few Christmas friends and New Year's day they went to Pasadena to the annual float parade and her son-in-law took the prize. They also visited Long Beach and San Pedro and had a fine view of some of the big war vessels and saw more of our great big world than she had ever dreamed of. She reports of feasting on the good things in the eatable line, but feasted her eyes on some of the glories of that southern climate. I can't just imagine that she must have had the time of her life, for she was born and raised in the north where she now lives and think that this is the first time she ever has had the privilege of seeing so many wonderful things.

Miss Allen Anderson, one of the school teachers of Ruch was here on Monday visiting our school and took dinner at the Sunnyside, and so did Mr. and Mrs. George Holmes, Mrs. Holmes being the principal of our school, so I did not have an opportunity to talk with her as to how she was impressed, but no doubt she was favorably impressed, for we have one of the best schools in the county, outside of the cities, and so far as advancement is concerned are right up with them.

Thursday was quite a business day in our little town, judging by the number of people who were on the streets and at the Sunnyside for dinner that day. Among them were C. H. Natwick, one of the contractors on the Eagle Point-Butte Falls canal, Fred Pettigrew the president of canal company, Ralph Cowgill, the chief engineer of the company, W. E. Harn, the secretary of the company, who were all here for dinner, and later in the day Lewis Robinson was among the business callers and at night Lois Martin and Raymond Shimmerhorn came in from a logging camp and spent the night, on their way to move a sidetrack on the logging road up Jackson creek, to be used on the P. & E. railroad on the extension of that road for a sidetrack.

A. H. Daugherty, the agent for Raleigh's products, spent the night with us and Roy Stanley and family came in for supper from the hatchery school district where Mrs. Stanley is engaged teaching.

Joe Maxfield and wife were among the visitors Wednesday, and I learned that day that he had bought the farm formerly owned by Carl Stanley on the headwaters of Salt Creek and expected to move onto it in a short time.

E. D. Scheider came in from Lake Creek Wednesday and spent the night. Loren Farlow, who has been taking a lay-off for a few days, returned Thursday to the sunnyside and went to work again on the laterals for the Eagle Point canal company.

H. Hurs of Fort Klamath, who is living this winter in Talent, came in and spent Thursday night.

J. W. Hovey, the superintendent of the Alivista orchard was a business caller also Thursday.

Friday morning Mrs. Nancy E. Watkins called on me and gave me her subscription for The Daily Mail Tribune, and M. S. Wood also called and requested me to express, through

the Eaglelets, his thanks to their friends and neighbors for their kindness and sympathy, and beautiful floral offering during the last sickness and burial of his wife.

There was a slide on the P. & E. railroad just this side of Derby, so as to stop the train going up to the logging camp so that the train had to back down to Eagle Point and leave the cars and take the locomotive to Medford, but the track was cleared so that the train went on up again this Friday morning.

COLEMAN CREEK

"What's in a name? The meanest have their day.
The brightest can but blaze and pass away."
Nevertheless little drops of "moonshine," little grains of Sand (ifer), makes a mighty stream of taxes hard on all the land.
Coleman Creek is still on the map tho some people may have forgotten the fact. All summer and fall her people have been coming and going, marrying, burning and dying unchronicled. Why? "Deponent sayeth not."
"Ah, fill the cup;—What boots it to repeat
How time is slipping underneath our feet:
Unborn tomorrow and dead yesterday.
Why fret about them if today be sweet!"

Mr. and Mrs. J. A. Gammill spent the fall and early winter in California, journeying as far west as Phoenix, Arizona. Mr. Gammill is now on the jury at Jacksonville, and Mrs. Gammill is reading the tax lists in the sheriff's office. Miss Anderson who works in the same office, procured the position for her.

Miss Anderson is boarding in Jacksonville this winter rather than drive home over the uncertain roads these short days.

Ralph Wilcox has purchased the Thompson place joining his mother's ranch. There is a very good house on this place and they will move in soon. This place was bought from George Hoover in the spring of 1911. It was all in pears but had no buildings on it at that time, and cost Mr. Thompson \$1000 an acre. He built the house but was no farmer and the hard times caused him to grow discouraged and left the place, suing Mr. Hoover for misrepresentation, he lost the suit. But it is a good place and we are glad to see Mr. and Mrs. Wilcox get such a lovely home. Mr. Wilcox has had charge of it for several years and knows what it will produce.

Mrs. Wilcox, Ralph's mother, will occupy the house vacated by the Ralph Wilcox's, with her grandchildren, Mr. and Mrs. Frazier and their two children. We are glad to welcome them to our neighborhood. We remember when Mrs. Wilcox lived here before and we found her a very pleasant neighbor.

Mrs. Frank Denzer has been quite ill for the past week or two. Mrs. Ray Yost and family came over to see her on Thursday. Mrs. Yost is her daughter, Mr. and Mrs. George Drake came over on horseback to see her Sunday. Mrs. Drake is another daughter.

Mr. and Mrs. Harry Young entertained Mr. and Mrs. Frame, Dr. and Mrs. Webster, and Dr. and Mrs. Morgan at their cozy home, for dinner on Sunday.

Mr. and Mrs. A. N. Wright entertained Mr. and Mrs. Aiming at the "Cozy Nook" on Sunday.

All the land formerly owned by Mr. Engel of Phoenix, has been sold in small tracts and is being built upon by the purchasers. This with the lots sold off the Fish place will make quite an increase in population in that neighborhood. Mr. Barnes has handled the deal. The Phoenix school owes him a debt of gratitude. We hear one family has eleven children.

The Coleman creek club met at Mrs. Littlefield's on Tuesday and completed their dressmaking patterns and lessons. They felt those lessons to be worth many dollars to them. This club certainly have benefited from the leadership of our demonstration agent, Miss Teich. The next all day meeting of the club will be at Mrs. Raststrom's. Mrs. Morgan and Mrs. Webster served an excellent chicken dinner at Mrs. Littlefield's. Mrs. Young furnishing cream, sugar and coffee and acting as hostess.

The business meeting of the club will be at Mrs. Morgan's on the afternoon of Feb. 14. Each member to describe some household convenience. There will be a Valentine box.

The Country Arts and Crafts club met Feb. 1st at Mrs. Canfield's pleasant home. Reed basketry was the order of the day. The next meeting will be at Mrs. Childers.

One of our "speeders" ran over and killed a pet pup of a little boy. The little fellow manfully held on to the string to which the pup was tied. But what is a little boy's pet pup to the joy of forty miles an hour?

The farmers of this vicinity are further along with their work than usual, this being a fine winter for outside work.

On the 27th of January I found three different kinds of wild flowers in full bloom.

It was a poor court in olden times that did not have a court jester or fool, and wise indeed were some of those same fools.

"Through the ages one increasing purpose runs.
And the thoughts of men are widened with the process of the suns."
But oh, ye gods are you filled with laughter,
When looking down centuries after
You find the court jester evolved to a grafter?

Don't worry, Mr. Editor, the 7500 majority are sitting up rubbing their eyes, they are waking up. The court can make and unmake the court. Their idea of March will be in November. You are right in your stand on the matter and the majority are with you. From now on we vote against every increase in indebtedness until there is a decrease in taxes. Some worthy things may get the ax but better lop off a few limbs than kill the tree, by letting the tax worm eat out the heart.

Rains Predicted.
WASHINGTON, Feb. 9.—The weather outlook for the Pacific coast for the week beginning next Monday is for rains with temperature normal.

COMMUNITY HOSPITAL
843 E. Main Street Medford, Oregon
Combining full surgical facilities with quiet homelike environments.
ROBERT W. STEARNS, M. D., Prop. R. E. GREEN, M. D.

**GET READY for TOMORROW
~Everyone**

Within the next ten years, we see more industries, better development of the resources of this region, better business for everyone; and now is the time to get ready.

Our New Industries Department is with you—new capital and new people are needed to make the most of your wealth of natural resources.

The New Industries Department is disclosing to investing capital the great raw material wealth of our Agriculture, Timber and Minerals. It is working for the legitimate expansion of every industrial possibility for the region, and supplying a consolidated, supplementary Chamber of Commerce type of service for the five Oregon counties and the one California county within our territory.

We have every confidence in what the future holds in store, and hydro-electric power's participation in it. At present the Industries of this region are counting more on electricity than ever before; and we are proud to be able to say that the communities we serve have advanced further in the use of labor-saving household equipment than many of the largest cities on this coast or anywhere else. If you are ready to have your household work done electrically—a member of this company will be glad to tell you how little it costs.

Good Business Says, "Diversify"

No man-made law can give the one-crop farmer the same security and dependable income that diversified farming assures.

Good cows and chickens, feed crops, garden truck and fruit, and a variety of marketable products give you more pay-days a year, improve your credit, and prevent complete ruin in case of failure of an important crop.

The First National Bank considers it a privilege to help farmers around Medford put their operations on a sounder, more businesslike basis.

The FIRST NATIONAL BANK
MEDFORD OREGON
