

Farmers and Fruit Growers of Jackson County

The Agricultural Economic Conference

which will be held at Medford next *Monday, Tuesday* and *Wednesday* is for the purpose of constructing an agricultural program for Jackson County.

To Build a Sound Foundation

for this structure it will be necessary to have a free and thorough discussion of all of the problems affecting FARMING, FRUITGROWING, LIVESTOCK, POULTRY and DAIRYING.

This is a Conference for the Benefit of the Farmers and Fruit Growers

of Jackson County and they must dominate in the discussions and formulate the programs of action to be put into effect.

Taxes Can Be Reduced

by the creation of new wealth; settlers are needed to help create this new wealth and they must be given reliable information to obtain immediate results. No land settlement plan will be a success until those now on the farms receive a just reward for their labors.

The Success of This Conference Depends Upon Every Farmer and Fruitgrower Participating

JACKSON COUNTY AGRICULTURAL ECONOMIC
CONFERENCE EXECUTIVE COMMITTEE

Masonic Hall, Monday, 1:15 P.M.
