MEMBERS OF THE ASSOCIATED PRESS: The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or not otherwise credited in this paper, and also to the local news published herein.

All rights of republication of special dispatches herein are also reserved.

Ye Smudge Pot

By Arthur Perry

The "bobbed hair evil" can be stopped, if the husbands will engage in the culture of nose width moustaches, before the crime is committed.

In Douglas county, church services are still being raided by bands, capable of identification only by their feet.

The prohibition enforcement situation, has about reached the stage where it is going to be hard to catch a regular hustler in the pulpit Sunday morning, unless something is done to cause the dry agents to pay more attention to bootleggers, than Satan.

The farm conference is over. Many were exhausted by the exhaustive papers.

"The Republican party is solid," says the National Republican, and Messrs. Fall, Denby, and Daugherty prove it.

The war on Rome, in the residential districts has let up somewhat, owing to the activity of the neighbors' chickens.

The jr. seedender from Oregon is still alive, several receiving consignments of early June beans from him recently.

A traveling man was in town Tues. with an overcoat that could out-yell Tom Swen's, and not half try.

Another excuse to get away from home nights, is being hatched by confirmed community builders.

FREE AIR HELP YOURSELF—(Local garage sign). How can they afford to be so generous.

MME. GADSKI (Marshfield News) May Saubert has a good dose of measles. She was sick for several days before finding out what the disease was, so there is a good chance of a regular course of measles in this community.

It being generally agreed that suspenders are more beautiful than the belt, more comfortable and more efficient in the task which they are designed to perform, nearly everybody wears the belt—(Kansas City Star). The orneryness of human nature.

Dexter Rice planted some flowers around his home last night—(Roseburg News Review). The best time.

OREGON PICKED FIRST—(Hdline Portland Telegram) The old Webfoot state always plucks first honors, cooperating with the pickers.

GILKEY, Ore., Feb. 16.—While dressing last Friday morning Allen Gilkey suffered a misplaced vertebrae in his neck. He had to hold his head sideways until he went to Albany for treatment—(Albany Democrat). He probably tried to put on his sock standing up.

Two Gun Hopkins is running for sheriff up north, and swears he will get One-Bottle Jones.

Spring is here—afternoons only.

Though all around the world you roam your thoughts go flying back to home. When having read the City Sun To learn just how the world is run; You happen on the old home sheet, 'This published in the county seat; Way yonder in the Siskiyou It carries all Yreka news. Why all your life is wrapped about The old home paper—'bout a doubt. For when you reached this earthly ball, A bit of flesh wrapped round a squall, The Journal warmly welcomed you And told your name and birth-weight, too. So down until the day you're hearsed, 'Twill tell the best and not the worst. Here only is your sin forgot. Here you appear what you are not. Thus down until the very end The Journal is your loyal friend. (Siskiyou News.)

Cut This Out—It Is Worth Money Send this ad and ten cents to Foley & Co., 2335 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a ten cent bottle of Foley's Honey and Tar Compound for coughs, colds and hoarseness, also free sample packages of Foley Pills, a diuretic stimulant for the kidneys, and Foley Cathartic Tablets for Constipation and Biliousness. These wonderful remedies have helped millions of people. Try them! Sold everywhere. Adv.

DAUGHERTY SHOULD GO.

ATTORNEY GENERAL DAUGHERTY'S refusal to resign is characteristic of the man. He is a fighting Irishman of the old school. The stronger the opposition the harder he swings. No romantic flourishes for him. No fiddling with proprieties. He may go down, but he will never go down with his hat in his hand. When he goes down he will go down with the flag nailed to the mast and every gun firing.

That's the way Daugherty was built. He fought his way up in life, he will fight his way down. Right or wrong no one is going to tread on the tail of Harry Micajah Daugherty's coat and get away with it. He may be downed, but he will never quit.

One cannot but admire the fighting spirit of the man. And no one can deny that as far as the present oil investigation is concerned, they have proved nothing,—as yet. The charges now offered, are not oil charges. They have to do with other delinquencies in his department, similar to charges previously made and as far as we know, never substantiated.

Nevertheless Daugherty should go. Not because of his complicity in the oil scandal, but because he is not fitted by character for the position he occupies. His moral perceptions are too dull, his sense of public responsibility too low to engage the respect and confidence, which the people of the country should have in the head of the legal department of the United States.

If Attorney General Daugherty persists in his refusal to resign, he should be requested to do so. President Coolidge is entitled to have an attorney general of his own stamp and his own school.

QUILL POINTS

What reform movements need most of all is an occasional audit.

Let's not recognize Russia yet. She might expect us to suppress her rebels, also.

If you haven't time to bother with your boy, somebody of rather questionable character has.

The winter resorts have delightful golf courses for those who don't mind playing in mittens.

The ultra-conservatives in England are beginning to fear their worst hopes won't be realized.

Washing your dirty linen in public means that you are a laundress or an author.

Dear lady, it may be brutal to shoot little rabbits; but sealskin coats must be provided in some way.

The only thing that prevents the formation of a third party is the conviction that it would finish that way.

The most logical argument against tax-free securities is the fact that the other fellow has them.

History mentions very few people that became great as a result of worrying about the servant problem.

Correct this sentence: "It's a beautiful necklace," said she, "but I'd love you just as much if you never gave me anything."

Personal Health Service By WILLIAM BRADY, M. D. Noted Physician and Author

Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped address envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received, only a few can be answered here. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, in care of this newspaper.

Our Imperious Hids Physiology is still the most unpopular of all branches of knowledge that pertain to human welfare. Our school authorities, seeing how the wind blows, make a huge success of the teaching of physiology, so that when we leave school, if there is any one thing we are quite certain about, it is precisely how many bones there are in the human body, that is, counting the skull as one solid bone.

In a recent talk about minor skin trouble I took occasion to sneak in a dash of physiology, by asserting bluntly that no medicine, food, nutrient, substance or chemical is absorbed by the unbroken skin. That is to say, nothing of the kind penetrates the skin when applied or rubbed upon the skin and therefore, no systematic effect can be obtained in that way.

This elicited a vigorous reaction. Numerous impertinent questions were submitted in that confident way of the superficially educated individual who knows so many things which ain't so. Various "well known" or "not scientifically accredited" authorities were quoted or cited to confound me. One of the most indignant monitors cited even an "eminent authority" who is now serving a sentence in prison for fraud. I cannot give serious attention to impertinent questions for that would just lose us in the woods. But here is a pertinent question asked in a courteous way by one correspondent:

Why do physicians so frequently prescribe injections with mercury ointment in the treatment of constitutional syphilis if no constitutional effect can be obtained by absorption thru the skin?

That did nearly drive me thru the ropes, but I have kept in training for years for just such wallows, and I bounced right back with the disappointing physiological truth. The systematic effect unquestionably produced by mercurial injections or rubbing in of a mercury ointment is due to the volatilization of the mercury by the heat of the body and the inhalation of sufficient to produce the systematic effect. This is the well proved physiological truth about injection.

Painters and others exposed by occupation to lead, likewise absorb the lead from volatilized fumes or dust in the air which they inhale, minute particles of lead being swallowed. Not from their hands, except as the hands carry lead to their mouths.

Thirst cannot be assuaged by immersing the body in water, for no water is absorbed through the skin.

Neither is alcohol or any alcoholic solution absorbed thru the skin, though there is grave danger of poisoning by inhalation when wood alcohol is applied to the skin.

QUESTIONS AND ANSWERS Well Known Physician. Numerous correspondents who brush aside the rules and ask for advice about individual cases become confidential along about the third page and tell me that they have consulted a well known physician who thought, said or did so and so.

Answer—A well known physician by the name of Cook was sentenced to a long term in prison recently. But probably he is not the one all these correspondents refer to.

Grapefruit. Is grapefruit healthy? If so, in what way? Is it true that it makes one thin?—L. B.

Answer—Yes, if you like the flavor. The citric acid of grapefruit, lemons, oranges, limes and tangerines is oxidized in the body into carbonates, which render the blood and tissues more alkaline and the urine less acid. These citrus fruits are an excellent source of vitamins. They help to digest other foods. They favor the function of the eliminating organs. Grapefruit is healthful if you like the flavor and keep it from splashing in your eye.

Dandruff and Poor Hair Growth. What is the condition that causes dandruff and makes the hair scrawny and poor in growth? I keep my scalp clean by washing it once a month. My daughter, aged 12, also has dandruff.—Mrs. M. O. M.

Answer—For many persons once a month is often enough to bathe any part of the body, I think, but when there is considerable dandruff, it is generally advisable to have a shampoo about once a week, or when the condition is oily or greasy, two or three times a week for a while. Send a stamped self-addressed envelope for general instructions on the care of the scalp and treatment of dandruff. I believe the trouble is of bacterial origin and that it is spread by infection, through ordinary contact with persons who have it and through the common use of hair brushes and combs.

Keeping the Old Tub in Constant Use. In our school we have a health pledge which requires five baths a week. Another holds that this is too many and that they injure health.—A. R.

Answer—I instinctively agree with mother, where grownups are concerned, but maybe it is a very good plan for young persons attending school. If they are warm baths, perhaps two or three a week would be sufficient. If cold baths, one every morning is fine discipline and training for young folk.

MR. EDWARD Bok HAVE HAD some part

CARE OF Mr. Root IN WEAVING its structure

WASHINGTON, D. C., AND I must admit

MY DEAR ED. ITS A long way from good

WAS GLAD to hear BUT I know its the best

THAT MY plan THAT MUD, blood and billions

FOR WORLD peace COULD POSSIBLY make it

HAD BEEN adopted AND IF you decide

BY YOUR committee THAT MY plan is best

AND I trust by now I'D APPRECIATE any effort

THE FIRST payment YOU'D BE called to make

OF THE \$100,000 TO GET that 50,000

IS ON its way HERE IN Medford

OF COURSE I know BEFORE THE fifteenth

YOU DIDN'T publish AS I'VE several bills

MY NAME as winner I'VE PROMISED to pay

BUT I am sure AS SOON as I received

YOU HAVE in mind THAT PEACE prize money

THE PLAN I suggested AND I'VE figured it out

BECAUSE IT reads I'LL HAVE enough left

JUST LIKE mine TO BUY the folks

WHICH I copied A "MA Jones Set"

FROM THE covenant FROM BOB Boyle.

OF THE League of Nations

AND I want you to know

IT IS
