SUCH A FEELING

(Etna Mills News) The influenza epidemic appears to be spreading, Jack Cooksey being one of the late victims, and he is reported as being quite sick.

The cute little pockets the Galshevskis have in the front of their checked skirts, are easier to get into than the old fashioned ones the so-called fairer sex used to have in the back of their heavily ruffled and pleated garments. In the latter instance, nobody, including the wearer, was able to find the pocket in less than 27 trials. This was in a time when a lady was not properly dressed unless she had on six white skirts, all starched stiffer than a crowbar.

One of the clubs, of which the community has only about half enough, will endeavor to get out this sheet on All Fooled Day.

THAT'S TELLING 'EM

(New York World) The only sound from Whiskey came when, just before he was angrily dismissed from the stand, he blew his nose in defiance. Whiskey is beyond fear of contempt of court.

PROMINENT CITIZEN MARKED AT HIGH NOON

(Hidline Marshfield News.) The beautiful frying pan service was used.

This is Prune Week. It is a poor hearty chef, who cannot take a prune, and cook it, and make it as easily assimilated as a souvenir bullet of the Revolutionary War. Who has not been called a poverty-stricken prune?

RECALL OF PIERCE BREWING

(Hidline Portland Oregonian.) Keep still, it's a wet-dry fight.

The Sabbath was a pleasant day, and many motored up the food supply for the coming week.

Unless the Pole piano player due March 18th, plays Rhapsody in D-Minor, (Opus 48) he will have a slim house.

BUTTER FINGERS

(Coo's Bay Times) BOYS FROM EASTSIDE who stole boat pump and other articles from Bennett's Landing at 12:15 Feb. 22 are known and have been reported. If articles are returned, same will be dropped. Mrs. Frank Barber, Bx 997, Millington.

THE PAINFULLY PROPER

"Listen, Carley," he said earnestly. "About this love-making stuff. Please don't misunderstand me. I love you. I'm starved for your kisses. But—is it right to ask them?"

"Right! Aren't we engaged? And don't I want to give them?"

"If I were only sure we'd be married!" he said, in a low, tense voice, as if speaking more to himself.

(From "The Call of the Canyon", By Zane Grey.)

"How many men," gibly inquires the Bend Bulletin, "could stand to have \$100,000 waved under their nose?" All could stand it, but they would never be the same.

MR. McADOO'S campaign manager declares the issue in the coming campaign will be between clean government and corrupt government.

Coming from such a source, it is safe to assume that Mr. McAdoo will represent clean government, and President Coolidge, whose nomination is generally conceded, will represent corrupt government.

Very nice! We also learn from the same source, that Mr. McAdoo will champion the cause of the common people, while his opponent will champion the cause of the privileged rich.

Also very nice, and very simple. With all the virtue on one side and all the evil on the other, a McAdoo victory should be as easy, as reading the Sermon on the Mount.

Just why President Coolidge should be cast for the role of the Evil One, and just why Mr. McAdoo should be selected as the standard bearer of the poor and oppressed, Mr. Roosevelt does not make so clear. As far as most people have been able to determine, President Coolidge's only connection with the Teapot Dome scandal has been to call for criminal prosecutions. He has never been private counsel for Mr. Doheny, never has received \$50,000 nor been promised a fee of \$1,000,000. As for the privileged rich, President Coolidge is undoubtedly the poorest man to enter the White House since Abraham Lincoln, and nothing in his record past or present, indicates even a speaking acquaintance with the class, whose cause he is now accused of championing.

Mr. Cochran should be more explicit. If the coming campaign is to be merely a Morality play, between a Democratic St. George and a Republican dragon, the people would like to know it. It would save a great deal of needless worry and investigation between now and our next July 4th celebration.

QUILL POINTS

Establishing a bolshevik paradise is much like operating a radio set. It's all a matter of tuning out those you don't want.

Correct this sentence: "Aw, give me a clean towel to dry my hands on," wailed little Willie. "This one's been used."

EARLY WINTER was delicious, balmy was the gentle wind; seldom does the climate dish us novelties of finer kind. In our gardens there were roses till the Christmas time was past, and the people's ears and noses suffered in no arctic blast. We had soaked our heavy raiment, soaked the fur and furbelows, and we wondered what the jay meant who predicted lots of snow. But the weather man grew rattled as the New Year made its bow, and the elements embattled raised a most unholy row. All the standard goods were chosen from the Arctic's stock of storms, and our lambskins were frozen, and we clamored for reforms. For we'd soaked our winter clothing in the time of balmy airs, and we viewed with bitter loathing weather fit for polar bears. Oh, the winter is a hummer, and we gurgle as we go, in our rags designed for summer, through the tempest and the snow. From forbidding polar reaches comes the tempest grim and stark and our duds were made for beaches, and for picnics in the park. So we roast, for goodly reasons, such an elemental crime; better far to have our seasons come along on schedule time. Such a mixed up stunt discloses only trouble, only woe; we're opposed to winter roses, we are down on summer snow.

Personal Health Service By WILLIAM BRADY, M. D. Noted Physician and Author

Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received, only a few can be answered here. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, in care of this newspaper.

The Price of Doubt There are still a few people who profess to believe that it is unwise for a layman to study health, that his gropings will have a morbid or depressing effect upon his health. There is an atom of truth in that, combined with several atoms of something else.

The truth is that the layman had better "lay off" the study of diseases and symptoms and remedies. But I have yet to meet the layman who has been harmed by a study of the ways of health. The trouble with the folk who imagine it is bad for the layman to read health stuff is that they do not understand what health is—they confuse it with liver complaint and the like.

I defy anybody to read the magazine called Hygeia and get anything but clean, wholesome and cheering entertainment and instruction out of it.

A man may keep at work and jolly himself along for a considerable time after a trace of albumin and a few casts have appeared, but it would be a great deal better for his efficiency and longevity if his doctor knew the man had nephritis or was headed that way. Just how much it might be worth to the man, to let his doctor know accordingly, is problematic, but in view of the fact that chronic nephritis has a way of developing insidiously and not alarming the victim seriously about his health at first, I think it would be worth three dollars a year to any man or woman past 20 to know that no albumin or casts were present. Urinalysis is an essential part of the periodic health examination of anybody past the age of 30 years, but it is a matter of individual judgment for the physician to decide what tests are necessary under this head. As a rule a microscopic test is necessary only when albumin is present, unless other abnormal findings in the examination indicate the need of a microscopic test.

Recalling what I said in the last talk about health assurance—that I have not tried the medicine myself—I would formulate the rule that after 20 everybody whose health is not the very best it has ever been certainly needs at least an annual physical examination. And from 30 to 50 a man or woman should not only be well, but should enjoy health plus. In other words, if your health might conceivably be better than it is, you should know it.

I want to thank you for your good advice given me five years ago. I was then 44 years old and much worried up over the so-called change of life as I heard older women discuss it. Now I am 49 and have passed thru the fancied ordeal without a moment of anxiety or any disturbance of health, all due to your common sense instruction and explanation of it all, which set my mind at rest. (E. H.)

Answer—But a great many of your sex prefer to imagine there is a "change" of life and that it really is a "crisis" and that all sorts of ill health may be attributed to it.

Answer—No; the X-ray would scarcely show cancer.

The Sick Friend I would like to ask your advice about locating cancer with an X-ray. A friend of mine in the forties had a soreness in one breast for about ten years. She went to her doctor and he examined her (I was along at the time) and he told her there was nothing wrong, but she still feels the soreness at times and she wonders if an X-ray would show plumper. (L. T.)

Answer—No; the X-ray would scarcely show cancer.
