Indigestion May Lead to Appendicitis

Repeated attacks of indigestion lead to serious inflammation of the stomach and intestinal tract. This inflammation may finally extend to the appendix, which usually becomes infected through the presence of foul, irritating matter in the bowels.

It doesn't pay to ignore even the most simple warnings of digestive trouble. Neglect is responsible for much misery. Uneasiness at the pit of the stomach, sour taste in the mouth, excessive gas, heartburn, nausea, vomiting, bitter ridings, constipation, biliousness, dry spells and palpitation of the heart after eating are some of the most common symptoms of poor digestion.

If you are subject to any form of stomach distress, don't fail to try a bottle of Smith Bros' M. A. C., the guaranteed stomach treatment. This wonderful medicine usually gives prompt relief from all discomfort. In fact, it is sold on a positive guarantee of money back if the first bottle fails to do so. A large bottle costs but \$1.25.

Advice for Mothers

Read What This Mother Says

Salem, Oreg.—"I was advised to take Dr. Pierce's Favorite Prescription during my first expectant period. It was such a comfort and means of strength that I took it the second and the third time. All through the days of expectancy I was able to do my work right up to the last without any feeling of discomfort. It is only right for me to tell of the benefit I derived from the use of the 'Favorite Prescription' and I think it is the best remedy for expectant mothers that has been put within our reach. For the sake of suffering mothers I am willing to have my testimonial published."—Mrs. Myrtle Myers, 1567 Oak St.

Your health is your most valuable asset. So why not get this Prescription today from your druggist, or write Dr. Pierce, president of the Invalids' Hotel in Buffalo, N. Y., for free medical advice or send 10c for a trial pkg. of tablets. Adv.
