

ANDREWS PLAN TO BUILD NEW MUSIC STUDIO

Medford is to have a new musical conservatory in a special building remodeled and fitted up for that purpose, including a small theater with a seating capacity of 200 or 400 people. If the plans of Ed and George Andrews to purchase the old First Methodist church edifice on South Bartlett street are carried out.

The Andrews brothers and church trustees have reached a purchase agreement, it is understood, and all that stands in the way of the deal going through is the consent of the city council to permit the frame building to be remodeled and occupied for that purpose. The council has left the matter in the hands of its building and fire committee with sole power to act. This committee consists of J. H. Butler, B. W. Paul and E. H. Janney. The only matter that may possibly prevent permission being given is that of the theater part of the structure. The question has been under consideration for several days but up to this afternoon no decision had been reached.

According to the Andrews brothers' plans no change would be made in the exterior of the building, but the interior would be completely altered so as to provide the theater for recitals, etc., and sound-proof rooms in which vocal and instrumental instruction and practice could be carried on. The building would be a general rendezvous for the music instructors of the city and their pupils.

S. P. INSTALLING BLOCK SIGNALS

ROSEBURG, Ore., March 6.—A crew of 25 Southern Pacific signalmen arrived here today to start the installation of eighteen semaphore type block signals from Winchester south. In addition to installing these safety devices along the main line, it is proposed to put in approximately 100 switch control boxes in the Roseburg yards to protect the main line during switching operations. The cost of the improvement will be around \$75,000. During the coming year the company plans to complete the installation of block signals between Eugene and Ashland and link up the entire Portland division.

INJUNCTION SUIT ON RADIO THREATENED

NEW YORK, March 6.—A legal fight for control of radio broadcasting is forecast as a result of the suit by the American Telephone and Telegraph company for a permanent injunction restraining station WJBN operated here by Marcus Loe and George Schabel from broadcasting. The request for an injunction is based on the contention that most broadcasting stations operating in the United States are using apparatus that infringes on patent rights of the A. T. and T., which operates station WJBN.

Should the suit be successful similar actions probably will be started against other broadcasting stations, except about forty which have made arrangements with the A. T. and T.

Y. M. C. A. Workers Constantinople Feed Women of Harem

CONSTANTINOPLE, Mar. 6.—Members of the calliph's household left behind on his departure for Switzerland are penniless and in acute distress, no provision having been made for the eunuchs and members of the harem. A number of Y. M. C. A. secretaries visited the palace yesterday and took food to the harem women.

BABY BURNED TO DEATH IN BARN

LA GRANDE, Ore., March 6.—Eva Ricks, aged 2 years, was burned to death in a fire which destroyed the barn on the L. N. Conley ranch, four miles from Cove, Ore., early last evening, and her brother, Lewis Martin Ricks, aged 4, was seriously burned about the arms and neck.

The children were playing in the barn when the fire started. The boy managed to rush out, covered with flames, which his mother extinguished. The fire in the barn was too far advanced to permit rescue of the girl, and her remains were found after the barn had burned to the ground. The boy was brought here this morning to the home of his grandparents for medical treatment. The funeral of the girl will be held at La Grande Friday.

TELEGRAMS DRAGGED IN

White House files after issuance by the president of his statement disclosed, however, that the McLean message related to the Denby matter. A number of congratulatory messages were received in connection with both the statements on the Robinson resolution and the New York speech.

WASHINGTON, Mar. 6.—A telegram from President Coolidge to E. B. McLean in Florida was read into the committee records today. The message sent on January 12, said: "Prescott is away. Advise Slomp with whom I shall confer. (Signed) 'Calvin Coolidge.'"

Slomp was then in Palm Beach. Members of the committee said they did not know who "Prescott" was. A short time before the committee had heard read a telegram from Chief Doorkeeper McKenna at the White House, advising McLean on December 22 that Slomp was leaving that night for the south.

Then an exchange of messages was read showing that on January 10, Albert B. Fall at Palm Beach wired Chairman Lenroot of the oil committee, asking if "Wash has authority to subpoena me to testify," and got a response saying he had not.

Fall telegraphed from Palm Beach on January 11 that facts would be developed, but names not given in testimony before Senator Walsh at Palm Beach. Senator Walsh, chief prosecutor of the oil inquiry had gone to Florida to question McLean, but committee records show that he was empowered to summon such witnesses as he might desire.

On January 27 McLean wired Francis T. Homer, a Baltimore lawyer, asking if the oil committee could compel him to testify where he had \$100,000 on deposit.

"Think over certain prominent people at that time," the telegram said, "and you will realize why large cash funds were kept on hand at that time."

Gaston B. Means, a widely known investigator once employed by the department of justice, wired to McLean's secretary early in January that he was on the way to Palm Beach.

Second Coolidge Message
President Coolidge telegraphed McLean at Palm Beach again on February 12, according to the committee's telegrams.

"Thank you for your message." The second Coolidge telegram read. "You have always been most considerate. Mrs. Coolidge joins me in sending kindest regards to Mrs. McLean."

"Please see Senator Jim and find out if there is disposition to make mutual friend make long journey," said a message from Palm Beach, January 25 by W. F. Wiley to Ira E. Bennett.

The first Coolidge telegram was sent after McLean had testified that the \$100,000 loan he previously had said was made to Fall on a note was in reality in the form of checks which were returned to him un cashed.

The second was dated two days before McLean was summoned here by the committee to explain.

Wiley is manager of the Cincinnati Enquirer and Bennett is an editorial writer on the Washington Post, both McLean publications.

LAWYER DENIED CONNECTION WITH ANY OIL CONCERN

WASHINGTON, March 6.—Samuel L. Knight, whose nomination as special counsel in the Standard Oil Company of California lease case has aroused opposition on the ground that he was counsel for a bank in which the Rockefellers were interested, informed government officials before accepting that he had never represented oil interests.

This was disclosed today in an exchange of the telegrams leading to his appointment, made public at the White House.

Rush L. Holland, assistant attorney general, sent this telegram to Knight on March 2: "Do you now or have you at any time in recent years represented an oil company? Are you in a position to accept without embarrassment employment to represent the government in litigation which will involve the state of California and the Standard Oil company as to sections 16 and 36 in naval oil reserve No. 12? If so, about what compensation would you expect and if you undertake it at once could you come here for conference on notice? Please reply collect and treat this telegram confidential."

Mr. Knight's reply sent March 3 was: "Have not at any time represented an oil company or oil interests and am in a position to accept without embarrassment employment to represent the government in the litigation referred to in your wire of March 2.

"Difficult to determine in advance what compensation I might reasonably expect and am willing to have it determined by department or authority having matter in charge. If selected I can arrange to undertake matter at once and come to Washington for conference whenever requested."

The telegrams were made public because of the statement of Senator Walsh, democrat, Montana, and other senators, that information had been received by them indicating that Mr. Knight had done some work for the Equitable Trust company of New York, which they said was a Rockefeller bank.

MOSIER ORCHARDISTS UP IN ARMS OVER STOCK DEPREDATION

HOOD RIVER, Ore., Mar. 6.—Declarative that an emergency exists, a committee of Mosier orchardists, composed of Mark A. Mayer, George Chamberlain and A. T. Bennett was here yesterday seeking the co-operation of local men in plans for a valid herd law for the Wasco county and the Hood river orchard districts. According to the committee there is a possibility of great damage from the invasion of herds of eastern Wasco cattle, sent to the western ranges this summer. A proposal has been made for Governor Pierce to call a special session of the legislature to cure the present legal defects.

Several years ago the Mosier fruit district and local residents adopted herd laws thru initiative petition. The supreme court in a decision last year declared the initiative law void because of a legislative enactment that limited such direct vote of the people to counties having 50,000 or more residents.

The Mosier men, who will present the matter of a herd law to the members of the Apple Growers association at their annual primary meeting next Saturday, said that the eastern Oregon stockmen formerly refrained from use of the ranges between here and Mosier because Hood River county had the reputation of having an excellent herd law. With this barrier removed, they declared, the orchardists on the border of the valley will be at the mercy of invading herds unless fences are built. The fencing of the Mosier orchards, it is declared, would cost \$50,000.

New Treatment for Varicose Veins and Ulcers

Swollen veins are dangerous and often burst. Sufferers are advised to get a two-ounce, original bottle of Emerald Oil (full strength) at Heath's Drug Store and West Side Pharmacy and start to reduce the veins and lumps at once. Physicians recommend Emerald Oil, it is used in hospital practice and a small bottle will last a long time, because it is very concentrated and a little goes a long way. Apply night and morning with a soft brush as directed until the swelling is reduced to normal.

So marvelously powerful is Emerald Oil that swollen glands and even goitre disappear when used steadily.

ASSAULT AT SEA CASE STARTS IN GEORGIA COURT

DECATUR, Ga., March 6.—Trial of the suit against Walter T. Candler, son of Asa G. Candler, Sr., Atlanta millionaire soft drink manufacturer, for \$100,000 damages brought by Mrs. Sarah Byfield, also of Atlanta, was called in the DeKalb county superior court.

Mrs. Byfield's suit grows out of a European trip, according to her petition, taken by a party which included Mrs. Byfield, her husband, Clyde K. Byfield; the defendant, Mr. Candler, and his two children. The plaintiff charges in the petition that while on board the steamship Berengaria en route to Europe July 17, 1922, she was attacked by the defendant in her stateroom. Her screams, the petition sets out, brought her husband to her aid. The two men engaged, the petition stated, in a fist fight.
