

PEAR SHOW AT FAIR AMAZING IN SIZE AND VARIETY

Many visitors at the fair attending the pear show, gather round the great table, designed and loaded with pears by the State Experiment Farm at Talent under the direction of Prof. F. C. Reimer. Nearly three hundred varieties are shown from the growing 500 members at this station.

Every individual member of the family is present, from 100 to the pound, up to a single specimen weighing over a pound.

In the middle of the table is a giant Bartlett, while at one corner are the tiny Chinese and Japanese marbled specimens. Prof. Reimer is an authority on pears, and is interested in the Oriental blight resistant varieties. He made two trips across the Pacific to inspect and study these distant trees, bringing home samples for research work.

The table with its gold-bearing fruit was decorated by Harry Morris. He used a bed of green sawdust, and green dyed paper plates for the amazing display. The exhibit is not only of interest to the commercial grower, but to everyone, as it shows what can be done locally in raising the world's finest pears.

Good Prizes Offered.
Lots of fair visitors who are not familiar with the pear exhibits do not know what the grower gets when he wins first prize. For one thing he has supreme satisfaction for his remarkable example of extraordinary fruit.

For only two plates of five years each—ten in all—he receives \$5.00 cash and a cup valued at \$12. He may enter any variety and as many as he chooses. These are the best prizes at any fair, which may account for the magnitude of the exposition, as well as the fame of Medford pears.

Largest Pear Orchard.
Many local people do not realize that Medford has the largest pear orchard in the world, located in the Table Rock district. This is a fact worth knowing and being proud of, for nowhere else on the globe there is such a vast single planting of pear trees for commercial purposes.

This big orchard is owned by the Potter Palmer Investment Company, Chicago, people of wealth who have faith and knowledge enough to put capital in such an extensive investment.

Growers are cleaning up this year on the pear crop, some getting over three dollars a box net at the packing house.

EX-CALIFORNIA RESIDENTS HOLD REUNION PARTY

Some thirty-five or forty resident couples of the valley who formerly lived in California, met at a get-together party at Jackson Hot Springs on Sept. 9th, the date of California's admission to the Union, generally celebrated in California as Admission day.

The swimming pool and pavilion were turned over to the party for the evening. Festivities started at 5 p. m. by a plunge into the pool, followed by supper served in the pavilion, an orchestra furnishing music. Later there was singing of California songs, stories of former California days, and dancing until a late hour, after which another plunge into the pool was enjoyed.

There were some California tourists in the valley who were present as guests of the Oregonians. J. H. Mulchay, assistant freight traffic manager of the Southern Pacific and for a time a Californian, was among the outsiders enjoying the party. Several parties drove from Klamath Falls to be present at the festivities. All sections of southern Oregon were represented.

The names of former Californians now living in the valley were obtained and these reunions will be held several times a year. All former residents of California are requested to send their names to C. A. Swigart, at the California-Oregon Power Co., office in Medford, Mrs. Victor Mills of Ashland or Mrs. Neil Allen of Grants Pass.

Among those attending the get-together party were the following:

Medford—Mr. and Mrs. L. B. Humphry, Mr. and Mrs. W. M. Shepard, Mr. and Mrs. W. Gaston Domergue, Mr. and Mrs. C. S. Butterfield, Mr. and Mrs. Geo. Bohnert, Mr. and Mrs. John E. Partridge, Mr. and Mrs. P. O. Crawford, Mr. and Mrs. Paul D. McKee, Mr. and Mrs. C. A. Swigart, Mr. and Mrs. O. C. Failing, Mr. and Mrs. Harry Pellett, Mr. and Mrs. R. T. Sapulding, Mr. and Mrs. T. E. Daniels, Mr. and Mrs. M. D. Cole, Mr. and Mrs. C. C. Cate, Mrs. A. L. Loomis, Miss Adele Loomis, Mrs. Alberta Murray, Miss Parker, Miss Annette Hooper, A. S. Rosenbaum, L. F. Ivanhoe.

Grants Pass—Mr. and Mrs. H. D. Norton, Mr. and Mrs. Neil R. Allen, Mrs. Anna M. Kullak.

Ashland—Mr. and Mrs. Victor Mills, Mr. and Mrs. M. V. Tavenner, Mr. and Mrs. Henry G. Ender, Jr., D. H. Jackson, A. J. McCallen.

Central Point—Mr. and Mrs. F. E. Stephenson, Mrs. Casebun, A. R. Ross.

Portland—J. H. Mulchay, Frank S. Torrey.

Crescent City, Calif.—Mr. and Mrs. J. O. Hiller, Mr. and Mrs. M. M. McVay, Miss Maude E. Keller, Miss Sue McNamara, Floyd Peeter.

In place of the striped pole, bakers are using a queer looking clock, to remind customers it is time to get a shave.

ORIGIN OF LIFE SHOWN IN FREE FILM AT FAIR

One of the latest films in public health service work is that shown in the automotive tent by J. E. Waggoner, field secretary of the Oregon Social Hygiene society. Mr. Waggoner came down from Portland with a daylight projector and a film "How Life Begins." Designed to enlighten the younger generation upon this important subject, the film is attracting no little attention. Many a growing stand through the entire show, so absorbing is the topic. The origin of the life organism is traced from the start of a single cell, up to the highest organism with its millions of micro-organisms working together for the preservation, nourishment and improvement of the whole being.

The pictures are produced with the microscopic camera, which science has given humanity for probing into the almost unfathomable depths of natural mysteries. The views of single cell organisms are startling in their newness, for never has man beheld such tiny bits of life in motion.

until the recording eye of the camera was trained upon them through the powerful lenses.

The women of Madrid, Spain, still follow the primitive custom of doing the family washing on the banks of the river.

PILES

You May Be Afflicted
PILES may exist for years before they manifest any appreciable symptoms. Yet, if present, they dissipate the nerve force and undermine the health.

The old theory that Piles necessitate a surgical operation has been completely disproved by my non-surgical treatment that I GUARANTEE to cure any case of Piles or refund the patient's fee.

Write today for my FREE book on Piles and other Rectal and Colon diseases.

Her Great TEMPTATION

He told her that marriage was simply a form—that in the eyes of God they were man and wife as surely as though a dozen ceremonies had been spoken over them. And like thousands of other girls who listen with their hearts instead of their minds—she believed him.

Had she known the truth about life, what bitter anguish of soul she would have escaped! "His Great Temptation," which was also "her great temptation," is a powerful, heart-gripping narrative you won't soon forget. It is only one of the many remarkable features in October True Story, now on sale at all news-stands.

So We Called it the Universal Cracker

There were milk crackers, butter crackers, household crackers, crackers for the kiddies and crackers to serve at teas.

Some were large and clumsy—others small and costly.

All the while—for 16 years—Tru-Blu master bakers have been engaged in perfecting a cracker worthy of the name

TRU-BAKE

Early this year they perfected the formula, the baking and the new shape.

Here, at last, is a cracker that fills every cracker need in the home. So we named it Tru-Bake and christened it "the universal cracker."
