

AID IS ASKED TO STOP SPREAD SCARLET FEVER

The scarlet fever situation has been engaging the attention of the school nurse, Mrs. Bertha Denton, actively for the past week. While it is practically confined to the Lincoln school as yet, there are a very few cases in one or two other schools.

To curb this contagion, it is necessary for the school authorities to be very strict about children who are ill, and about receiving pupils who return after a brief absence. Pupils out for only one day will be required to bring a physician's certificate and teachers will send home at once any child with the slightest suspicion of fever or other illness so long as this danger continues.

The physicians are also being asked to be very careful in issuing certificates and so make sure that there is no possibility of returning pupils carrying contagion into the schools.

Spreading of the disease seems to come largely from families where the child is not very sick and where they do not have a physician. If these people would report their case to the school authorities or to the health officer, Dr. E. B. Pickel, it would enable them to check further spread of the contagion.

"It is much better that those infected and suspected children be kept home for a few days under quarantine restriction than to have a general epidemic," says Superintendent Smith. "So far, the cases have been in a very light form, but it is possible at any time for a particular child to have a severe type of the disease."

The school authorities ask the hearty co-operation of parents, pupils and the physicians in order to prevent this threatened epidemic.

senator said: "The great war which began ten years ago is now generally admitted to have been an imperialistic war, borne of the greed of financiers, exploiters of foreign lands, imperialists who conquered defenseless peoples in order to protect their voracious loans and destructive concessions. They made war on foreign peoples as they profited and made war on the liberties of the people at home. They used diplomacy, the foreign office, battleships and the country's wealth to promote and to protect their imperialistic possessions and in time brought the whole world to the cataclysm which caused ten million of its youth to be slain on the field of battle and twenty million more to be invalidated by wounds and disease."

L. D. PORTER
Salem, Ore. — "Some years ago I was a farmer in Kansas. Thru exposure, serving as a soldier during the Civil War my health had become impaired. I was bothered with a chronic cough and catarrhal condition. I felt like an old man, although I was only forty. I heard of Dr. Pierce's Golden Medical Discovery. It helped me so much that I continued taking it (I think about six bottles in all) and felt new pure blood coursing thru my body. The "Golden Medical Discovery" drove out the catarrh and also the cause of my cough. There are some things we can forget, but when a person has received as much help as I did, it is impossible to forget it. I feel younger and more vigorous at 78 than I did at 40."—L. D. Porter, 451 South 16th St.
As soon as you commence to take this "Discovery" you begin to feel its bracing, appetizing effect. Buy it of your druggist, in tablets or liquid. Write Dr. Pierce, President "Invalids' Hotel in Buffalo, N. Y., if you desire free medical advice.
