### COUNTY ASSESSOR REFUSES TO GRANT CUT IN VALUATION

The board of equalization, composed of County Judge Gardner, County Assessor Coleman and County Clerk Flory last week recommended that a cut be made in tillable farm land valuations of 25 per cent, and 23.5 per cent cut on the valuation of stock cattle. An order to this effect was issued.

Now the county assessor refused to honor the order on the grounds that the motion bringing it before the board was not proper, and on other technical grounds, and unless some taxpayer makes legal action, to force the assessor to confirm to the order, the proposed cuts will die and languish and be of no avail.

According to county Judge Gardner, the cuts were made after investigations that showed that tillable farm land valuations were higher than the revenues warranted, while city property was keeping step with the times. The cut, in effect, would remove from the record rolls, not the tax rolls, approximately \$1,500,000.

The cut on stock cattle was made for the reason that the market was low, and the valuation high, the slash being from \$18 to \$12 per head, or \$5.
