ARGENTINE WORLD GIRDLER GIVES UP, ACCOUNT OF ICE

TOKIO, Nov. —By the Associated Press.—Major Petro Zanni, the Argentine aviator who announced today that he had abandoned his proposed attempt to fly over the trans-Pacific air lane from Japan in the approaching winter season, reached his decision when word was received here that the ports of Petropavlovsk and Paramushiru were icebound. The condition ended the possibility of obtaining ships to lay in supplies along the coast. Major Zanni has three plans of action for the future. Subject to the approval of a committee of three in Buenos Aires to which he has cabled the Argentine aviators would remain in Japan until spring and continue the flight as outlined, or he will proceed to Europe making a flight across the Atlantic to Buenos Aires or he will make a flight from New York to Buenos Aires. The Argentine aviator said he had exhausted every resource in an effort to continue the flight along the original route across the Pacific, but he was regrettably compelled to admit the impossibility of making a successful attempt at this season. Major Zanni was hopeful that the Buenos Aires committee would agree to his plans concerning other routes.

Bible Thought for Today
I SHALL NOT WANT.—The Lord is my shepherd; I shall not want. Surely goodness and mercy shall follow me all the days of my life; and I will dwell in the house of the Lord forever.—Ps. 23:1, 6.

~ WOULD we stand for a law that kept 3000 families out of Oregon?

Of course we wouldn't! So it's up to us to vote the antagonistic Income Tax Law out of existence! For it has already lost for Oregon payrolls amounting to more than six million dollars (\$6,000,000) a year! And six million dollars means at least 3000 families who are lost to Oregon's population in just one year under this dangerous law.

59 Industries lost to Oregon in a single year—others threatened
These figures show the appalling effect of this unwise tax law which antagonizes industries on which a large part of our growth and prosperity depend.

Recorded Damage Due to State Income Tax	
8 Timber purchases cancelled or suspended	\$18,000,000
11 Construction of lumber mills, towns, logging camps and logging railways abandoned or suspended	7,875,000
32 Other industrial investments cancelled or suspended	4,578,000
One year's operating payroll on foregoing items	5,600,000
8 Disincorporations, \$4,000,000 capital. Damage listed 1/10 only	460,500
10 Actual removals from the state, including loss of only one year's payroll	2,440,250
22 Threatened removals, including loss of only one year's payroll	2,218,500
Total Recorded Damages	\$41,252,350

These figures certified conservative and correct by: FRANK E. ANDREWS, CHARLES H. STEWART, BEN SELLING, CHRIS A. BELL, J. K. GILL.

Oregon needs Jobs and Markets The Income Tax kills both! Vote 312X YES and kill the Income Tax!

If there are two things Oregon needs above all others it is (1) jobs for her workers, and (2) markets for her products. Every new enterprise or industry brought into Oregon means more jobs. Jobs support population. Every increase in population means a better market for farm and factory products.

Yet the income tax law antagonizes industries and enterprises. Many authentic cases are on file where industries MOVED OUT OF OREGON OR DECIDED NOT TO COME TO OREGON because of the income tax law. Counting loss of capital invested, purchases and payroll, this loss is already conservatively estimated at more than \$40,000,000. The payroll loss alone is already over \$6,000,000 a year!

The customer who quits and says nothing—
The insidious thing about this law is that industries do not complain—they simply pack up and move to another state! They are like the customer who quits and says nothing—you never know he is dissatisfied nor why—hence have no chance to make matters right with him. Many large concerns who left or stayed out of Oregon on account of the income tax refused to allow us to use their names because they did not want to be made to appear as tax dodgers—and yet they could not afford to carry a tax burden in Oregon which they did not need to pay in California or Washington! There is an old adage which says, "Business is sensitive. It goes only where it is invited and stays only where it is well treated." We cannot afford to ANTAGONIZE enterprises which other states are INVITING!

This insidious law must go— It is hurting Oregon!

*** we had planned to establish our Northwest headquarters in Portland. We changed our plans, and are locating in Seattle because of the adverse Oregon Tax Law.
THE BOYLE-DAYTON CO., Los Angeles.
Had we known the Oregon Income Tax Law would have passed, we certainly would have bought timber in Washington or British Columbia, rather than in Oregon.
CENTRAL COAL & COKE CO., Kansas City, Owners of Venronia, Ore., development.
We had planned on erecting a sawmill at a cost of approximately \$100,000 and four miles of logging railroad. This would increase our logging facilities which would amount to an expenditure of about \$130,000 additional.
THE GLENDALE LUMBER CO., Glendale, Oregon.
On receipt of a draft of the state income tax law at our New York headquarters, instructions were sent to close the Pacific Coast branch at Portland, February 1, 1924.
LEWIS-MEARS CO., New York.
We would not consider any further expansion as long as there is a state income tax in Oregon.
BARNES-LINDSLEY MFG. CO., Portland, Ore.
We had completed plans and specifications for a building to be used as a warehouse and offices for a large corporation with headquarters in California, but these plans fell through when they learned of the state income tax measure. Will do nothing further in this matter until the income tax measure is settled.
HOLMAN TRANSFER CO., Portland, Oregon.
Will reduce our operations in Oregon and possibly go to Vancouver, Washington.
COAST CULVERT & PLUME CO., Portland, Ore.

Read these extracts from letters. The originals and hundreds more like them are on file. Then go to the polls November 4th and rid Oregon of this objectionable law which is keeping millions of dollars and thousands of people away from our state.
When the State of Oregon passed the state income tax law, then we believed it best to re-incorporate the company in California, which was done.
BENSON LUMBER CO., San Diego, Cal.
*** we cannot permit ourselves to be burdened with any taxes that our competitors, the majority of whom are in Washington, do not have to pay. For that reason we figure that if the income tax is to be permanent, we, in self preservation, must withdraw our headquarters to another state.
M & M WOODWORKING CO., Portland, Oregon.
Coming from Wisconsin, where we have had a state income tax for several years, we are familiar with that deterrent to business development, and we, ourselves, as well as many others whom we know, left Wisconsin for the same reason for which we hesitate to go into business in Oregon.
WM. M. BRAY, Secy., Treas., Oshkosh Land & Timber Co., Oshkosh, Wis., Pres., Klamath Logging Co., Klamath Falls, Ore., Pres., Sprague River Co., Chiloquin, Ore.; Third largest owners in Klamath County.

Our company will not expand in Portland so long as there is a State Income Tax Law. The principal reason our head office was not located in Portland was on this account.
BUNGE WESTERN GRAIN CORPORATION, Portland, Oregon.
*** had we not already opened our office there, and established ourselves, we certainly would not do it now, and furthermore, we have been considering the advisability of discontinuing our branch there.
THE B. F. STURTEVANT CO., San Francisco.
Mr. Herbert Armstrong, Western Manager for the Menasha Woodware company, stated that they were figuring on moving the Western Woodware Company from Tacoma to Coos Bay, and had already purchased site on our waterfront. Later stated they would not do anything at all toward a change until they had seen the effect of the Oregon State Income Tax Law.
H. G. KERN, President, First National Bank, North Bend, Oregon.
Our original plans of operations in Oregon called for an annual production of 200 million feet of lumber, whereas our present plans call for only 20% of that amount. Furthermore, we had planned on constructing and operating a large Door and Sash Factory in connection with our lumbering plant, but with this threatening legislation there is no encouragement for us to invest the necessary capital for carrying out our original plans.
We hope that the majority of the people in Oregon will ultimately change their present attitude towards capital and industry, to the end that it will be a welcome visitor to every section of the state.
MOUNT EMILY TIMBER CO., La Grande, Ore.
*** we contemplated putting in an electric steel furnace, but will not do this until the law has been changed.
BEND IRON WORKS.
Will limit expansion to most absolute necessities to complete present functions, a reduction of 65% in program. On account of the severity and injustice of the Oregon income tax law we have decided to cut down our proposed building and equipment project from \$3,000 to \$12,500, and had we realized that this tax would become effective, we would not have budgeted any additional improvement at Oregon.
WESTERN LUMBER MFG. CO., San Francisco.
Unless the law is repealed we are seriously considering incorporating our Seattle house separately and diverting also to them all Oregon business that it is possible for them to handle.
CLYDE EQUIPMENT CO., Portland, Oregon.

This tax law has already lost for Oregon more than 40 million dollars just for the purpose of soaking our enterprises 2 or 3 millions a year. Is that good business or good sense? The situation is critical. It must be met by intelligent voting. If we want Oregon to grow we must vote to
