## KIWANIS CLUB IS GIVEN ADDRESS ON BANK BUSINESS

At the Kiwanis luncheon Monday, W. E. Walker, formerly with the First National Bank but now of the Commercial Discount Corporation, was the principal speaker, his subject being "Banking and Business." Having had twenty years experience in the banking business and direct association with business men, Mr. Walker was in a position to show the direct and important connection of the two and said when one was successful the other was too.

Mr. Walker said there are about 16,000 accounts in the Medford banks, divided as follows: Checking, 6500; savings, \$3500. He checked the average total deposits in all these banks is between four and five million dollars, divided a little over two and a half millions in checking deposits.

He gave some interesting figures regarding deposits and depositors in Medford as follows:

Average Balance	No. of Accts.	% of Amt.	% of Dptd.
\$ 1 to \$ 50	3500	54	\$50,000
50 to 100	780	12	75,000
100 to 250	975	15	200,000
250 to 500	585	9	300,000
500 to 1000	325	5	325,000
1000 to 5000	260	4	875,000
5000 up	33 1/2	675,000	27

He closed by saying the small depositors are expensive to the banks as it requires constant watching to see that over-checking is not done and that it costs about \$1 per month per account or \$3500 per month to handle these.

Dr. Hayes stated that the Jackson County Medical Association would entertain the state association in Medford for three days in May with about 250 delegates.

Glen Fabricer reported the two conferences with representatives of other clubs and societies regarding the proposed bond issue for a new high school and said most of those present oppose the same as it now stands because of the location not being in the proper place and inadequate for the present needs of a new building, without taking into consideration the future demands of Medford. He said he believed the proposition would be defeated. A discussion followed showing most of the sentiment opposed to the location.

Tim Burke of Portland, F. D. Dillard of Ashland were guests of the club.

J. D. Ashland of the Medford Grocery company received the attendance prize given by Modern Plumbing & Sheet Metal Co.

C. C. Lunnon was selected to represent the club at the district meeting in Tacoma this week.

LOCAL MINISTERS  
FAVOR FEDERAL  
CHILD LABOR ACT

At the regular session of the Medford Ministerial Association, the proposed Child Labor amendment to the federal constitution was endorsed and the following letter was directed to southern Oregon representatives of the state legislature calling upon them to give their support to the ratification of the resolution already before them:

Reports of the first day's session of the legislature have reached us and we are not ungrateful for the prominence and recognition which has already been accorded yourself and Mr. Cowgill. We feel that you will serve this county and the state of Oregon creditably, and we shall watch the progress of the session with much interest.

The Medford Ministerial Association in their session yesterday directed this communication to you relative to the joint resolution already before one of your bodies, which if adopted ratifies the proposed Child Labor amendment submitted to the states by congress.

We believe that we represent the moral sentiment, not only of our several churches, but of the community in endorsing that resolution and in urging you to give it your support.

Because certain states refuse to protect and conserve their own child life upon their own prerogative, those children, more than a million of them without proper development physically and educationally, in later years scatter thru the nation as they so often do, create a problem which is one of the most serious in our life. This alone we believe is a sufficient basis to warrant the amendment's adoption. But upon the grounds of the humanitarian principle involved and the conservation of America's child life we urge you to give this resolution your earnest support.

Thanking you for your interest in this and other vital matters which shall come before you, we beg to remain, sincerely and respectfully yours

J. B. COAN,  
President, Medford Ministerial Association.

### The Screen

#### Coming to Hunt's Craterian

If you want to enjoy a hearty laugh go to Hunt's Craterian tomorrow to see Buster Keaton in "The Navigator."

The picture shows Buster at sea on an ocean liner with no crew, presents his adventures at the bottom of the ocean in a submarine and in a diving suit, and shows him amid the cannibals of the South Sea Islands.

#### At the Rialto

Welcome Stranger, with Florence Vidor, Dore Davidson, Virginia Broome Fairo, Noah Beery, Lloyd Hughes, Robert Edison, Wm. V. Mong and Otis Harlan, is the new feature attraction at the Rialto theatre where it opens a three days engagements today.

Isidore Solomon breezed into Valley Falls one New Year's night and found the inhabitants colder than the atmosphere outside. "We don't allow Jews in this village," the four leading citizens of the town told him.

"Sure, that's why it's still a village," said Mr. Solomon, who resolved to make it a city. The story tells how with good humor and humility, he fought the town's narrow-mindedness and racial prejudice and won. See how he did it. It's truly a funny, most human picture.

A comedy, International News and "Barney" Barnard at the organ completes the bill.

#### Mystery Offering Hunt's Craterian

Hunt's Craterian has another fine program tonight. Two young women on the stage, violinist and pianist, play any number asked by persons in the audience, the names being whispered to George Lovett as he goes through the aisles, and the performers instantly playing what is wanted. Georgia Templeton, the "girl with the X-ray mind," answers questions written and handed to Lovett.

The Ratodells and Deyo have a splendidly produced dance turn, the principal numbers being "The Bridal Path of Love," "La Polle" and "Ballet Polka, Jazz."

Dick Hardett and Ethel Frankland do a patter and song act called "Rolling Their Own."

Harry Van Fossen, old-time minstrel, has evolved a new type of black-face monologue, and Ramsey's canaries show the tiny songsters are quite capable of being trained to perform pretty-tricks.
