# FAITH IN BIBLE AS WORD OF GOD THEME OF SPEAKER

An increased attendance greeted Evangelist Miller last night at the First Methodist church. His sermon theme "Landmarks of the Fathers" from which he will preach several times this week was a strong and siliring appeal for the faith and doctrines of the fathers. He utterly condemned the methods and shallow interpretations of modern destructive critics, and reaffirmed his faith and belief in the Bible as the Word of God, and delivered to men of old by the inspiration of the Holy Spirit.

The message of last night was considered by those who heard him, the strongest yet delivered. Dr. Miller dealt at length with the subject of "evolution," both from the standpoint of modern materialists and from the Christian stilling. He efficient the Christian attitude. He affirmed the Rible is a text book of religion and not of science, but quoted from the Old Testament to show that a number of facts discovered by scientists of modern centuries were so affirmed by writers of ancient times.

Several more addresses will be given this week covering various phases of the Christian faith and beliefs which

"While much is being said of the decline of the influence of the church," says the board of temperance, "these figures bring out strikingly the fact that the little churches on Main street, the meeting house in the wildwood, and the big city churches are still furnishing the intelligence and character which direct the destinies of the nation.

"America was founded by men who were, in the main devoted believers in the Christian faith and the nation will not go far astray so long as it is directed according to the principles of the Fatherhood of God and the brotherhood of man, as laid down by the Christian church."

# "Fire-Fire!"

As those harrowing words are heard echoing through the air, or as the clanging fire engines rushing through the street command everyone's attention, you unconsciously give thanks that it is not YOUR HOME or place of business that is burning.

But one can never tell where fire will strike next. No enemy of man is so destructive as that terrible demon "Fire." One moment all is peaceful and serene. It seems impossible that anything could disturb your equanimity. Suddenly a fire breaks out. You try to check it and fail. It gains headway.

The fire department is called. Precious minutes—each one of which seems like a life-time—are lost. The blaze gets bigger and bigger. Comes the realization that you can do nothing. The preservation of life is the first thought. The safety of property and valuables comes next. The flames roar as they destroy property and crackle as they grow larger and larger.

The firemen arrive. Stream after stream of water is poured on the fire. First it is placed under control, and then eventually it is put out. What damage has not been done by the fire has been caused by the water.

## Fire Extinguished Instantly

A moment after the first discovery of the flames they could have been put out, INSTANTLY--without danger or damage. This will be proved to you.

Realizing the tremendous havoc caused by fire throughout the country PRESIDENT COOLIDGE, in official proclamation, has set aside a day each year to be observed throughout the entire nation as FIRE PREVENTION DAY

As announced in previous advertisement THIS is FIRE PRE-VENTION WEEK in this city—a week that will be devoted to educating every citizen on the way to prevent fire by DE-STROYING it the moment it is discovered. No speeches, no conversation, but ACTUAL PROOF—evidence presented right before your eyes.

You will be surprised, amazed and over-joyed at the sight of flames which shoot thirty feet in the air being instantly put out. This will be the most valuable educational demonstration that has ever been held in this city.
