

CRATERS TO PLACE SUITABLE ARCHES AT GATES OF CITY

The north and south entrances to Medford on the Pacific Highway will soon be designated by suitable arches according to the plans of the Crater club, which decided at a meeting last evening to go ahead with the work at once. The matter of design and location will be placed in the hands of a committee of the club members, the committee also being empowered to decide as to the best method of financing the project.

Last night's meeting of the booster organization was a busy one, considerable business being handled in addition to listening to several speakers. Dr. L. J. Miller of Nashville, Tenn., who is conducting revival meetings here, spoke entertainingly in the fore part of the evening and was followed by Melvin G. Winstock of Portland, who provoked roars of laughter with his clever stories.

Seley W. Hall gave the Crater members some facts and figures regarding the anticipated tourist movement this coming season which he obtained while on a recent trip into California. According to Mr. Hall the tourists are already flocking into California from the east and middle-west, due to the extensive advertising campaign being sponsored by the Californians and this movement is expected to start north soon and continue in ever increasing volume throughout the summer. Mr. Hall has made a very extensive study of his subject and is probably better versed in matters pertaining to volume, destination and other features of tourist traffic in northern California and southern Oregon than any other man in this part of the state.

In line with the extensive billboard advertising which is being used this year to catch the eyes of tourists and direct their thoughts toward Medford, it is believed that erection of suitable arches to mark the actual entry into the city will prove effective in inducing vacationists to stop in the city.

Vernon Yawter called attention to the theatrical production by the Ashland Lithians and a large number of Craters indicated their intention to attend the performance tonight.

The Crater club pledged their body to assist in every way possible the local military officials in arranging for the state encampment to be held here this spring. According to A. J. Crosse the Guard personnel is looking forward to a trip to Crater lake for the men and the club will actively assist in this work.

Following adjournment of the meeting the Craters went to the home of W. J. Warner, an officer of the organization, who has been confined to his home through illness for some time, and serenaded the popular postmaster with several songs.

Lively Scrap and Happy Ending Mark Taming of Shrew at Craterian

Two things all the world enjoys—a good lively scrap and a happy ending. Both are to be found in Shakespeare's "Taming of the Shrew," to be presented by the Moroni Olsen players at the Craterian theater on Wednesday evening, February the 18th. When two high spirited natures clash, the sparks are bound to fly before one is vanquished. Katherine's vehemence finds more than its match in Petruchio's, but before the fiery maid is tamed into a loving and dutiful wife, there are frequent scenes of temper

and violence. To be wedded to a man in a tump's parb, to be forcibly dragged from one's own wedding supper, to be refused food when it is set before one are not lightly to be endured, and Katherine struggles as much as possible against the man who aims to tame her.

The character of Bianca, the sister whose marriage is perforce delayed until the elder sister is disposed of, is an excellent foil to Katherine's, as is that of her lover, Lucentio, to the violence of Petruchio.

REPORT GOOD FIRE DUST SALES HERE

The demonstrations recently conducted by the representatives of the Newbegin Fire Dust Sales company have succeeded in making this product very popular with Southern Oregon people and Walter L. Johnson, general manager of this firm reports gratifying sales in this territory. Guy Banta, Gene Boyle and George Sprout are in this city this week assisting

Mr. Johnson in the campaign for Fire Dust sales.

A generous turn-out of Southern Oregon people were on hand Saturday evening and saw a single man, armed with a container of Fire Dust successfully extinguish a fire racting in a high structure made of oil and tar soaked boards. This demonstration was repeated Monday afternoon before a group of local business men with equal success. "It is these demonstrations that are convincing people throughout the west of the true merit of Fire Dust," says Mr. Johnson. "We have been conducting them in the principal cities most of the western states with the same success that we have had in Medford."

HOPE FOR MEXICO LIES IN CHURCH AND EDUCATION

An interesting stereopticon lecture was given by Rev. F. R. Leach Sunday evening at the First Baptist church on "Mexico: Breaking Its Fetters." The bandit in Mexico, said the lecturer, is the product of centuries of misrule by Spain, who ruled with an iron hand, and kept the people in ignorance and poverty. There was no incentive for the people to work, as it only meant more revenue for their masters. Spanish rulers were shown to be responsible for the bandits, who have caused so much trouble. Education and religion were pointed out to be the only remedy for the conditions now prevailing. If the money spent by our government in sending soldiers to Mexico had been put into school houses and churches there would be a heaven at work for better days. Mexico is not hopeless, but a brighter day is dawning for this nation, which has suffered and been kept under superstitious and practical slavery for a prolonged period of time. The church, school house and hospital are helping make the Mexicans do some real thinking and showing them a better way of living. Not till the missionary and school teacher shall dispel the ignorance and superstition now prevailing can the world hope for Mexico to develop her great and unexplored resources.

At the close of the lecture the ordinance of baptism was administered to some new members.

Cod Liver Oil in Sugar Coated Tablets For Puny Kids

Forget the nasty tasting, stomach upsetting cod liver oil and give the thin, puny, underdeveloped children McCoy's Cod Liver Oil Compound Tablets if you want to give them a good appetite and put pounds of good, healthy flesh on their bones.

Doctors know all about them and so does Health's Drug Store, West Side Pharmacy, Medford Pharmacy and all good pharmacists all over America, for they are in great demand, because they are not laggards but show results in a few days.

They are not expensive either—60 tablets—60 cents and children take them like candy.

A very sickly child, age 5, gained 12 pounds in seven months and is strong and healthy.

One skinny woman gained 9 pounds in 24 days.

"Be sure to get McCoy's, the original and genuine Cod Liver Oil Compound Tablet." Adv.

Always A Successful Dessert Because it Jells Well

SCORES of tempting dishes—every one a delight—are made with Jell-well. Six delicious fruit flavors for your choice.

And Red-Box Jell-well is always successful, because it always jells well. No failures, never a doubt about this dessert.

We use only the purest gelatine it is possible to obtain. Note its flavor fragrance when the hot water is added.

Try Jell-well and see.

You'll serve it often then. Pure, certified colors make this dessert as good to look at as it is to eat. And it's dainty and healthful after a hearty meal.

Make any of the six flavors plain at first. See how delicious and clear Jell-well is. Then add fruits for variety. You can serve many combinations that will make Jell-well for dessert a favorite in your home.

Your grocer has Red-Box Jell-well. Choose any of the six flavors—to see how good we make this dessert.

My Special Offer

If you will recommend this delicious dessert to five of your friends, fill in the coupon, and attach the Company name cut from four Jell-well boxes, (with 6¢ stamps for postage and packing), I will send you a set of four attractive aluminum molds. Your friends, I am sure, will thank you for telling them about Jell-well.

A. H. Joffler, President.

A. H. JOFFLER, President, Jell-well Dessert Company, (Formerly The Jell, Food Products Co.) 549 East Second Street, Los Angeles, Calif. 55-47

I enclose the Company name from four Jell-well packages and 6¢ in stamps. Please send me the four aluminum Jell-well molds. (Only one set to a home.) I like Jell-well and will gladly recommend it to five of my friends.
