Be Happy

Make every day a joy. A sparkle in your morning drink will do that.

Don't lose a day by dullness or unfit-ness. Don't suffer blue days when they can be sunny.

All the difference lies in the way you start them. This is what to do.

Drink a glass of water upon rising, hot or cold. That washes out the stomach—prepares the way for breakfast.

Add to that water a little Jad Salts. That makes a delightful, effervescent drink. Jad Salts are made from acids of lemon and grape, combined with lithia.

In one hour comes elimination of the poisons which depress. Of that clogging which makes you unfit.

The experience is delightful. It is bringing millions of joyous days to people who employ it.

Just a fine drink before breakfast means a day at your best.

Go try it. All druggists have Jad Salts. And you will never forget the day you first enjoy them.

Many letters have been received the past two months asking for information. I have been told to let the public know that they have no intention of giving up the work here, it has been only because they could not get the services of a com-
