

NEW PHONE LINE IS ESTABLISHED IN ASHLAND DIST

ASHLAND, April 6.—Three Portland youths, Delbert Lee Phillips 16, Arno Ritter, 18; Frank J. A. Carhoni, 16, charged with the theft of a Studebaker, belonging to Mike Turner of Ashland, were arrested Friday night at Gold Hill and brought to this city. They were turned over to the county authorities Saturday. The lads confess to two stolen cars in Portland, in one of which they drove to Ashland, deciding, upon arrival, to return home. Ditching the Packard, at the covered bridge, the boys returned to Ashland on foot, stole the Studebaker and started northward. At Gold Hill they were arrested by Traffic Officer Talant who notified Chief McNabb and Officer McMahon who went after the thieves. It had not been decided, Saturday, whether to turn them over to the Portland authorities or to prosecute them for the theft of the Ashland car.

A new phone line is to be established. It will serve the territory between the home of D. H. Jackson, north of Ashland, and the grocery store at Climax. This line absorbs 16-P and 6-F. Fourteen are included in the incorporators.

HAVE LONG LEGGED MEN MOST BRAINS?

CHICAGO, April 7.—Dr. William H. Sheldon, University of Chicago psychologist will undertake to answer the question whether a man with long legs and red hair has more brains than a short legged blonde man. Professor Macarati of Columbia university, advanced the theory that as a rule long legged men had the greatest brain capacity and scientific trends tend to support the theory, Dr. Sheldon said today. He will measure four hundred men at the University of Chicago as anthropological indexes who also will be graded for mental capacity and the physical and mental indices compared.

LATE SENATOR CLARK LEAVES \$10,000,000, MAINLY TO WIFE

BUTTE, Mont., April 7.—The will of the late William Andrews Clark, millionaire mining man and former United States senator, was admitted to probate today upon application of the executors, Charles W. Clark, W. A. Clark Jr., Mary C. DeBrabant, Katherine L. Morris and Annie E. Clark, who were named to serve without bonds.

Attorneys said it was not yet possible to determine the exact value of the estate, but that it was "in excess of \$10,000,000."

The widow, Anna A. Clark, is bequeathed \$2,500,000 in addition to the New York home on Fifth avenue and sum of \$600,000, as well as all stock in the W. A. Clark Realty company, with certain provisions for his minor daughter, Hugette Clark.

Art treasures in the New York home are to be designated as the W. A. Clark collection. If the New York art museum fails to accept, the Corcoran art gallery of Washington, D. C., will receive the collection. A sum of \$100,000 is set aside for the Catherine Clark kindergarten school No. 18, New York City.

BOTH PARTIES ARE CONDEMNED FOR CHILD LABOR ACTS

CHICAGO, Ill., April 7.—The republican and democratic parties were blamed alike in bitter terms for the failure of the recently proposed child labor amendment to become adopted, by Bishop Edwin H. Hughes of the Chicago area of the Methodist Episcopal church, who spoke yesterday at the dedicatory services of the new Methodist Episcopal church at Lake Forest, Ill.

"The platform of the republican party in the last national election," Bishop Hughes said, proclaimed that the purpose of the party was to serve the people. Yet it broke one of its most sacred planks when it failed to protect the childhood of the nation from exploitation.

"But the democratic party cannot boast," the bishop continued, "it, in a cowardly manner straddled the child labor question in its platform because it did not want to lose the support of the south. The democratic party never has had the courage to repudiate Tammany Hall."

SEEKS ANOTHER BIG WAR IN FUTURE

NEW YORK, April 7.—This generation will experience another great war which will threaten the permanence of modern civilization, Raymond B. Fosdick, trustee of the Rockefeller foundation, predicted today before the New York Rotary club.

"There is no such thing as a permanent civilization," he said. "The same pall bearers who carried out the coffin of Chief Tutankh-Amen are waiting outside our door for the remains of our civilization."

A permanent court of international justice provides the only preventive for the dangers that threaten, he said, in a plea for American entry into the existing court. Modern world conditions make victory in warfare impossible for any nation, he said.

PRESIDENT URGED BY COMMITTEE TO CALL CONFERENCE

WASHINGTON, April 7.—Joining of an effort for international agreement on the outlawry of war with that of future armament reduction in any new arms conference called by President Coolidge was proposed in a memorial brought to Washington for presentation to the chief executive today by a committee of its signers, who included many prominent in church, educational fields and state governors.

The memorial said "the cause of outlawry of war would seem lost unless a conference called by you results in the uniting of the nations in a practical plan that will outlaw any nation guilty of aggressive war."

The fact that in that movement, the memorial added, the representatives of forty-eight governments "adopted by unanimous vote and detailed a plan for the outlawry of aggressive war reform or a treaty for submission to their government shows that the movement is favored extensively."

"As to Great Britain's ultimate rejection of the league plan, the memorial said, it had been made plain that this was 'mainly because she will not accept the obligation to support economic sanctions against the possible opposition of the United States and also because the United States is not expected to join in the treaty,' adding, 'there can be little hope for the outlawry of war without our full co-operation.'"
