For years it has been known that coal existed on most of the land in East Eden. The Sam Furry donation land claim has some of the best coal bearing land in this county, and an old abandoned shaft is on this property, that was run into the hill about 200 feet, and then was caved in by the promoters, for some reason. I myself, was in the shaft and saw the coal, a six feet vein of good grade coal. Some day this mine will be a producer.
