Another public feature of the grand lodge season will be a big parade of Odd Fellows of southern Oregon and northern California in Ashland on the forenoon of May 20.

Another outdoor event will take place on the morning of May 21, when the grand lodge delegation and others will be taken to the summit of the Siskiyou for breakfast. This meal will consist of barbecued Virginia ham, southern style, with fried doughnuts, coffee, etc.

The Odd Fellows of Medford are taking an active interest in making the coming session of the grand lodge an event that will leave a favorable and lasting impression.

It is a fact not generally known that one of the most influential factors in turning the tide of public opinion which set in against Medford following the collapse of the boom of a few years ago to a favorable channel was the session of the grand lodge of Odd Fellows held in this city, about a dozen years ago.

Already rumblings of comment had reached the ears of the state that Medford was headed for the graveyard. A large number of members were held and attended by hundreds of representative men and women from all over the state.

It will appear strongly that all Odd Fellows of this part of the state and to others of this city, to have a similar delegation of visitors here again and note what strides the city has made since that time, and no doubt the citizens of Medford will gladly co-operate with the lodges, in making the coming meeting a memorable one.

BULGARIA WILL WARN WORLD OF RED REVOLUTION

BEIGRADE, Jugo Slavia, May 7.—(By Associated Press.) The Bulgarian foreign minister, Colonel Kaloff, has arrived here on his way to Paris, London and Rome to explain the difficulties in his country's situation to the powers.

In a statement given out after an interview with Foreign Minister Ninkich, Colonel Kaloff said: "My voyage is in connection with the communist offensive in Bulgaria, which shows clearly that the communist danger is a reality which must be reckoned with. The situation is general and does not menace Bulgaria alone."

SOPIA, May 7.—(By Associated Press.) More arrests have been made in consequence of revelations at the trial of those charged with complicity in the Sveti Kral cathedral bombing tragedy. There are now about 3000 persons in prison throughout Bulgaria and the authorities state that the communist organization which is blamed for the plot is more far-reaching than was supposed.

Nearly all members of the middle class who were involved in the movement have been apprehended, but several gangs of young idealistic communists are still undiscovered. Few peasants were imbued with the communist doctrines, the authorities say, and the majority of these belong in towns where poverty and discontent offers a favorable field for the red propagandists.

The militia continues its close watch on all entering or leaving Sofia and several bombs are reported of persons leaving homes or explosives in the public gardens, fearing to be caught with them in their possession.

A remarkable feature of the recent events is the amount of army ammunition in the hands of the civilian population and the authorities expect further isolated acts of violence are bound to occur until the disarmament is general.

Apple Wraps and Science

THE same science that gave the stock serums and vaccines that protect him against the loss of his stock through disease, gives to the fruit grower the chemically treated fruit wrapper that protects fruit against the most prevalent fruit diseases.

Science Says: 1—The construction of the wrapper is the first step in the control of fruit disease. 2—The chemical treatment is the second step in the prevention of disease contraction. (Scald is only one disease that many kinds of fruit suffer from.)

The construction and chemical treatment of "CARO" Fibre Fruit Wrappers is such that they successfully fulfill the requirements of protection against fruit disease.
