The first part consisted of a May day cantata, in which sunbeams, snowflakes, raindrops, flowers, caterpillars, birds and butterflies were featured. A specialty, "Twenty Frogs" was sung after the first part of the program when real live green frogs hopped about the stage. The second part consisted of a negro folk sketch, "Sambo's Party," by boys and girls of the 7th and 8th grades. The children did fine, and much credit is due to those in charge, for the most excellent program rendered.

Engines Speak Well of It!

WHEN an engine starts quickly and easily; when it picks up smartly and surges with power; when it reels off extra miles per gallon—then you know it is speaking well of the gasoline you are feeding it.

Many months ago, when GENERAL Gasoline was introduced to motorists for the first time, we asked motorists to give it a fair trial. We said, "Fill Up Your Tank and Let Your Engine Decide!" And they did! Gasoline history has been made since then. The engines of thousands of motorists said "Yes!" emphatically. More thousands tried it and got the same answer.

Engines "speak well" of GENERAL because it gives them, for the first time, a fuel planned and made expressly for their requirements. GENERAL Gasoline is properly balanced, high-grade gasoline, refined for the purpose for which it is sold. It guarantees you quick, easy starting; clean combustion; maximum power and full mileage. Its high quality never varies.
