THREE KILLED IN COLORADO STORM

DENVER, Colo., May 22.—A trail of debris, 75 miles long remained in eastern Colorado today as a reminder of the high wind storm which tore through a dozen villages late yesterday killing three persons, severely injuring three others and causing thousands of dollars damage to property.

At Boulder, Loren H. Bennett, a carpenter, was killed when a roof on which he was working was blown against a mass of rocks. Two others working on the roof escaped with injuries. A boy of five was drowned in a small lake at Berthoud when the wind overturned a boat in which he and a companion were playing. A seven year old girl was crushed to death at Platteville when an outbuilding was destroyed.

Most of the property loss was to small buildings and to telephone and telegraph lines. The gale lasted for nearly an hour in some places. At Fort Collins it assumed the force of a tornado, but no great damage was reported there.

Special Feature at Christian Church.
This coming Sunday will be observed as "Cradle Roll Day" in the Bible school of the First Christian church. All mothers and fathers of children whose names are on the Cradle Roll, are urged to come. A short program will be given by the primary department. The Bible school begins at 9:45 and will close at 10:45. All are urged to come on time.

HOOVER URGES A REORGANIZATION IN GOVERNMENT

WASHINGTON, May 22.—Discussions of agriculture and the merchant marine by Secretary Jardine and President Leigh C. Palmer of the emergency fleet corporation, and consideration of resolutions comprised the concluding business today of the convention of the Chamber of Commerce of the United States.

Another cabinet member, Secretary Hoover, told the delegates last night that reorganization of the administrative functions of the government is necessary for elimination of waste in overlapping agencies.

He advocated three primary reforms—grouping of all agencies of the same major purpose under one administrative supervision; separation of semi-judicial and semi-legislative and advisory functions from the administrative functions; putting the former under joint minds and the later under single responsibility and relieving the president of a vast amount of direct administrative labor.

The government, he declared, can have no definite and consistent policy for conservation and use of national resources so long as responsibility is spread among several departments. He cited the "recent occurrences in the oil leases" and "our deplorable lack of a definite and organized merchant marine," as examples of what may happen under divided responsibility. It is important, Mr. Hoover as-

serted, to bring kindred agencies together under one authority, "so that their overlapping edges can be clipped and their fights stopped."

Secretary Jardine, in urging careful study of the entire freight rate structure said that if American business is to make any "significant contributions to the solution of farm problems, it must get down to brass tacks, find out what these problems are and what they involve, and then offer its help to the farmer in solving them.

On Friday, May 8, over thirty scouts assembled at the local scout headquarters and under the supervision of Forester E. P. Brown set out for a week-end hike at Hutton Ranger Station.

Transportation was afforded by a half dozen cars and a truck. The scouts mentioned above were the boys that went on the treasure hunt which was held several weeks ago. Mr. Brown's hike was part of the treasure.

On Saturday Mr. Brown took the whole party on a twelve mile hike. He showed the scouts a great many new specimens of plant life.

Sunday was the big day. Several of the boys accompanied by Mr. Brown hiked to the Blue Ledge mine. Mr. Brown instructed them in the use of many instruments such as are used by the forest service. The scouts received valuable experience while in camp as they were required to do their own cooking, make their own bough beds, and as it rained Saturday night and Sunday the scouts had a task of camping under unfavorable conditions.

We hope the Medford troupe will be favored by such trips as these in the future. Accept our thanks, Mr. Brown.

KING AND QUEEN HOLD RECEPTION FOR SECOND LINE

LONDON, May 22.—(By Associated Press.) King George and Queen Mary are holding their second royal court of the season at Buckingham palace tonight.

Americans to be presented are: Miss Jane Hamilton Brady, Gladstone, N. J.; Miss Ursula Corning, Litchfield, Conn.; Mrs. Howell H. Howard, Dayton, Ohio; Miss Irene Jamieson, Spokane, Wash.; a student at Oxford; Mrs. Archibald H. Rowan, New York; Miss Laura Thompson, Lake Forest, Ill.; Mrs. Alexander Tuck, Maryland, and Mrs. Wallace Payne Moutz, Mexico City.

The fashion of shorter trains at the season's first court last night speeded up the pace at which the presenters were able to pass the court, so that the ceremony was concluded earlier than formerly.

This may lead to future courts having more debutantes.

Gold and silver were the prevailing colors in gowns last night. It was a glittering pageant that stepped out of the limousines at Buckingham. The palace was decorated with blue hydrangeas and pink roses.

The royal family entered the throne room to the strains of the national anthem. Presentations lasted an hour and a half. Afterward, supper was served in the state rooms of the palace.

From the palace the presenters went directly to studios to pose for the pictures.
