

SCIENCE APPLIED IN FULL FORCE TO GET MISSOURI BANDITS

ST. JOSEPH, Mo., May 28.—Bank robbing doesn't pay with so many modern weapons at the command of the police and the tanks, two men who participated in the robbery of

the Cottage Grove State bank at Des Moines, learned late yesterday. After a flight of more than 150 miles in an automobile following the holdup, the men were captured near Avenue City, Mo., north of here. Two of their companions escaped. Frank Favris, 24, of Kansas City, shot in the arm and an unidentified man shot in the head are the ones in custody here. They were wounded when St. Joseph officers engaged them in a gun fight on the Jefferson highway, following information that they were headed toward St. Joseph. The robbers had their first surprise during the robbery when Mrs. T. H. Miner, wife of the president of the

bank, set off a burglar alarm siren. They were forced to flee with only \$1500 and were hotly pursued. Then radio, telegraph and telephone spread the news and an airplane and posse joined in the chase. Speeding down the highway near Avenue City, the quartet ran into an ambush laid by four St. Joseph policemen, but the fugitives sped past. Swung around a curve and turned over. Two of the men were caught and the others escaped into the woods. To give a fitting climax to the chase, an undertaker with his hearse, and a minister were in at the finish. The hearse, returning from a cemetery, had joined in the pursuit and

was ready to accommodate the wounded bank robbers. The loot was recovered. It was believed the missing men who hid two hours in the home of an elderly couple whom they forced to provide a change of clothing, later mingled with the crowd attracted to the vicinity and compelled some motorists to drive them away.

RAIN IS CONQUEROR ARIZONA FIRE

FORT HUACHUCA, Ariz., May 28.—(A. P.)—A little band of tired, intrepid volunteer fire fighters gave thanks today for rain which extinguished flames sweeping Miller peak in the Huachuca mountains near here after turning back the volunteers for seven days. Red-skinned Apaches battled the flames with their white faced brothers of the range, and finally were reinforced by troops from this military post. Little realizing their plight, it was said, volunteers had been hemmed into side canyons by the flames and faced possible death when the clouds unloosed their moisture. A steady rainfall soon brought the fire under control and created an avenue of escape for the fire fighters. The last flaming timbers were extinguished last night after 5000 acres had been burned over.

Medford Rotary Club News

The Medford Rotary club at its noon day luncheon this week held a very interesting meeting, and the entertainment feature was conceded by all to be one of the best to date. Jay Gore gave some very remarkable and very entertaining features in magic and his work certainly is of a very high class and exceptionally cleverly executed and brought forth very favorable comment. Bert Paul gave an interesting talk on the coming National Guard encampment to be held here in June, and his appeal for automobiles to take the soldiers to Crater Lake during their stay in the Rogue River valley met with hearty response and the Rotary club will use its best endeavors to furnish its share of the transportation to Crater Lake, as a total of about 600 cars will be required. Frank Newman gave a very instructive talk on the Rotary code of ethics. This was a very instructive talk. It was also the consensus of opinion by the majority of those present that a resolution directing the international officers to make World Peace the outstanding theme for Rotary for 1925-1926; and to inaugurate through the clubs of the United States a campaign of education, with that end in view, was a worthy effort that should have careful thought and study. Emil Mohr gave a talk regarding the good work of the D. O. K. K. band and the efforts that were being made regarding its eastern trip this year. The visitors were John H. Lewis of Lewiston, Idaho, and Paul C. Morton of Portland.

The Screen

George Behan Coming. George Behan is to appear tomorrow and Saturday at the Rialto theater in what is described as his finest motion picture production, which is an announcement of unusual interest to those who recall his remarkable characterization in "The Sign of the Cross." The title of the new production is "The Greatest Love of All" and Mr. Behan spent many months in the development of a romantic, thrilling story, full of heart interest and pathos, with a liberal sprinkling of comedy situations such as Mr. Behan knows so well how to handle. "Forty Winks" Closes. The Paramount picture, "Forty Winks," directed by Paul Iribe and Frank Urson from Bertram Millhauser's adaptation of the mystery-farce, "Lord Chumley," by David Belasco at the Rialto theater will close its run there tonight. Viola Dana, Theodore Roberts and Raymond Geiffith are featured in the cast of the production which includes, among other big names, Cyril Chadwick, Anna May Wong and William Boyd. Gripping Drama at Craterian. A gripping love drama that affords Milton Sills and Doris Kenyon ideal material for displaying their histrionic talents is contained in "I Want My Man," today's film feature at Hunt's Craterian theater. "I Want My Man" is from the novel, "The Interpreter's House," by Struthers Burt, and principally concerns a woman who gives up her husband to his first love, only to want him back, and applies herself to the task of getting him, in the most interesting manner. While, as usual, the adaptationist has taken what the lover of literature might deem unwarrantable liberties with the Burt novel, he (or she) has succeeded in producing an amazingly interesting and dramatic screen tale, featured by splendid acting on the part of the star performers, some corking photography against arresting backgrounds and some "jazzy" pagantry that is well worth while.

SECURED RELIEF THROUGH FOLEY PILLS John R. Gordon, Danville, Ill., writes: "I have suffered with kidney trouble five years; could not sleep at night and was almost always tired. I was not strong and hard work made my back ache. I got some FOLEY PILLS and after a few treatments I felt better and could work with more ease, became stronger and could sleep better." FOLEY PILLS are a diuretic stimulant for the kidneys—make them more active. Get a bottle today. Sold everywhere.

Wesson Oil and an egg make MAYONNAISE

Few things are easier to make than good mayonnaise.

Wesson Oil and a fresh egg—beaten together and seasoned to taste—and you have a mayonnaise you'll be proud of!

Quickest results are obtained if the oil and egg are not too cold. The ordinary temperature of your kitchen is just right.

Break an egg in a bowl—Add about a tablespoonful of Wesson Oil. Beat vigorously with an egg beater or a fork—until the oil and egg are thoroughly mixed. How long will that take? Perhaps while you count fifty—not as fast as you can count but as fast as you can beat.

Add another tablespoonful of oil and beat again—vigorously. Two tablespoonfuls and beat again. Two or three more and beat again. Your mayonnaise will begin to thicken a little.

Then add Wesson Oil four or five tablespoonfuls at a time, beating well after each addition—until your mayonnaise is as thick and stiff as you want it. The more oil you beat into it the thicker your mayonnaise will be—about two cupfuls is the usual amount. [Never add more than a quarter cupful of oil at any one time].

After your mayonnaise is made, add seasoning. Mix a half teaspoonful of salt, a teaspoonful each of sugar and mustard, a generous pinch each of paprika and red pepper—add a tablespoonful of lemon juice or vinegar and stir until the salt and sugar are dissolved—then pour into the mayonnaise and beat well.

With Wesson Oil Mayonnaise as a base you can make many delicious fancy salad dressings in a very few minutes—for instance—

RUSSIAN DRESSING

To make Russian Dressing you add to three-quarters of a cupful of Wesson Oil Mayonnaise one-half of a hard boiled egg that is chopped very fine, one tablespoonful of chopped green pepper, one tablespoonful of chopped pimientos, one tablespoonful of chopped chives and one-third of a cupful of Chili Sauce. Stir in the juice of a quarter lemon.

Better by Miles

Ten Gallons Will Tell!

You will find economy in the first ten gallons of Union Gasoline. But your real gain will be at the end of 10,000 miles. Then your motor will testify.

The difference between Union and most gasolines is one of quality. There's no mystery about it.

Union Gasoline is not made to sell at a price. Yet it is the most economical motor fuel on the market today. Its chief economy is in saving upkeep costs.

Union Gasoline is non-detonating. This means that its power-impulses are not sledge-hammer like. Its explosions pro-

gress—with a resulting power that is smooth.

With Union, your motor starts quickly—accelerates with a swift, vibrationless pick-up—and easily attains an even, gliding speed.

If a better gasoline were possible, it would be made by the Union Oil Company. And sold wherever you see the sign "Union Gasoline." At Union Oil service stations and independent dealers of the first class everywhere.
