### M'KENZIE PASS IS STILL SNOWBOUND

EUGENE, Ore., May 30.—Driving a six horse wagon W. J. Nell, of Redmond, Ore., is the first to negotiate the McKenzie Pass by vehicle this year. Nell arrived here today after making the trip across carrying a load of cargo. The trip took two and one-half days and a part of the trip on the summit was made by relaying cargo on sledges. The snow is about 15 feet deep in the upper reaches the team driver states and he voices the opinion that the plan of the American Legion posts to work Sunday on the summit to open the pass is not feasible. The Legion planned to cooperate in the snow clearing to open the highway for visitors to the annual state session at Prineville next month.

### CHINESE STRIKERS RIOT, DISTURBANCE FEARED TONIGHT

SHANGHAI, May 30.—(A. P.)—Sikh police, armed with carbine rifles fired into a mob of 3000 Chinese students attempting to storm the Louza police sub-station on the Nanjing road today, killing four and injuring six. The police station is in the center of Shanghai's business district. The demonstration was attempted as a protest against conviction of Chinese strikers who left their employment in Japanese cotton mills. The decision which precipitated the disturbance was handed down by a mixed court. The command to fire was given when the students began to rush the police which defended the station compound.

While the action of the police in firing on the students stemmed the disorder temporarily, an uprising is feared tonight. The Shanghai volunteer corps, light artillery and twelve armored cars were ordered out to aid in restoring order. Every shot fired by the police into the student mob took effect and a recheck tonight showed six students were killed, eight were probably fatally injured and eight others were seriously wounded. Tonight the congested department store area was being patrolled by mounted Sikh police and other officers, while a carbine-armed company of Chinese police was held in reserve within the station compound. Other police reserves held in readiness were composed mostly of business men. The Shanghai volunteer corps was mustering a force for duty throughout the night, anticipating outbreaks in other sections, particularly the Yangtze-Po and other western industrial districts where Japanese cotton mills have been in disorder during recent weeks.
