

## WEEKS IS BETTER DOCTORS REPORT

BOSTON, June 5—Further definite improvement in the condition of Secretary of War John W. Weeks, who was operated upon at the Massachusetts General hospital last week for

gall stones, was reported today. A bulletin issued at 8:30 o'clock this morning by physicians attending Mr. Weeks said there had been continued improvement in his condition the past 24 hours.

The bulletin, signed by Doctors Daniel Fisk Jones and F. Gorham Brigham said:

"Secretary Weeks has made a definite improvement in the last twelve hours. He is taking liquid nourishment more freely and his general condition is better. Temperature normal. Pulse 88."

## MODIFICATION DRY LAWS POSTPONED

COLORADO SPRINGS, Colo., June 5.—(By Associated Press.) The advisability of seeking modification of the Volstead act will not be discussed at the annual convention of the

American Hotel association in session here according to John P. Shea, executive secretary.

A report on an investigation of efforts of the prohibition enforcement being carried on by a special committee was to be made at this year's convention. Sufficient time has not been had to conduct a thorough examination, Mr. Shea announced. He said the association probably will receive the committee's report and take action next year.

The idle of the rich are the idols of the poor.

## SHOWERY WEATHER FINE FOR GARDENS

PORTLAND, Ore., June 4—Fruit and vegetable growers are pleased with the prevailing cloudy, showery weather which if continued within reasonable limits will promote heavier yields

and higher quality of soil products. The effect of yesterday's showers was seen this morning in the berry market. Strawberries, which yesterday had advanced perceptibly in price this morning were weaker prices ranging from \$2.00 to \$2.60 a crate, depending on size and quality. Not much change is expected during the remainder of this week.

Demand for berries for canning purposes has not been so heavy as was believed a few days ago. It would be the fifth car of strawberries to be shipped from Portland during the past week has gone forward to Montana

markets. This movement has had an influence on what otherwise would have been large local surplus stocks. First offerings of Oregon raspberries are on the local market at \$4.00 to \$4.50 a crate.
