HEAT DEATH LIST GROWS OVER EAST

Torridity Today Breaks Record—250 Die From Sun and Storm—Hospitals Packed With Victims—No Signs of Early Relief in Forecasts.

NEW YORK, June 6.—The worst of six successive days of torrid heat has added 59 victims to the eastern states' heat death list, bringing the total to 140.

New York City, gasping for breath in a temperature of 96 degrees, recorded 15 deaths due to heat yesterday.

Hospitals were crowded. Ambulance staffs worked unceasingly throughout the night. Eight cases of prostration required medical attention. More than 15,000 persons slept in parks last night, many using sheets and pillows. Thirteen more persons died in Philadelphia when the mercury broke all high records for June with a temperature of 109.3. Numerous cities exceeded the 100 mark. The government observation station at Keedysville, Md., recorded 104 degrees. Four more died at Baltimore in a temperature of 101. Other high notes included Jersey City, 101; Middletown, N. Y., 102; Poughkeepsie, 100.

Toronto, Canada, registered 94, the hottest June 5 in 85 years.

Cool breezes brought relief to a few cities.

WASHINGTON, June 6.—(By the Associated Press.)—Scanning its reports on atmospheric conditions from all sections, the weather bureau today saw definite signs of a break in the heat wave, but not until next week.

Indications are that the relief will come to the north Atlantic states Monday and in the middle Atlantic states Monday or Tuesday.

CHICAGO, June 6.—(By the Associated Press.)—With 55 additional deaths reported today from the east and middle west, the total of deaths resulting from the present hot spell neared 300. The general weather bureau at Washington held out little prospects of a break next week in the heat wave that has blanketed most of the country east of the Rocky mountains for the last eight days. The death list, with 55 added, stood at 293 since the hot wave began.

The Chicago weather bureau offered no particular consolation to Chicago and vicinity, forecasting a continuance of the heat tonight and Sunday from Kansas and the lower Missouri valley eastward, with cool weather in the northwest advancing only slowly.

PHILADELPHIA, June 6.—(By Associated Press.) Twenty persons have died in Philadelphia in the last 24 hours due directly or indirectly to the heat, making a total of 35 for the week. The torrid wave which twice sent the mercury to 98 and once to 100 this week, continued today with prospects, the weather bureau said, of the temperature approaching the century mark of yesterday. It was 98 at 3 p. m.

DETROIT, June 6.—(By Associated Press.) Two additional deaths from heat here brought the number

EUGENE LAWYER, DISBARRED, GIVEN JAIL TERM AND A FINE ON LIQUOR CHARGE

EUGENE, Ore., June 6.—Leon R. Edmundson, former attorney of this city, was sentenced to serve six months in the Lane county jail and was assessed a fine of \$500 in circuit court here following his conviction by jury verdict on a liquor charge. Edmundson filed a motion for a new trial on the grounds of alleged irregularities in the trial and insufficient evidence.

Lad 5, Falls to Death, In Climbing Father's Tombstone

CHICAGO, June 6.—(A. P.)—The tombstone over his father's grave in Waltham cemetery from which he fell when he attempted to climb it, resulted in the death today of Lester Laclche, five years old.

His mother was placing flowers on the grave and sobbing, as the boy tried to climb the slender shaft three feet high. He toppled over, fracturing his skull.

TUNNEY VICTOR OVER GIBBONS IN SLOW BOUT

Tommy Knocked Out in 12th Round—Loser Shell of Former Self, Worries About Wife—Winner, War Veteran, Ready for Dempsey.

NEW YORK, June 6.—(A. P.)—The shadow of a heavyweight who climbed to pugilistic fame out of the trenches of the World war today strayed across the path of Jack Dempsey.

Gene Tunney has done what no other heavyweight, not even Dempsey himself, has been able to do—conquer Tom Gibbons by a knockout.

After eleven rounds of fighting without thrills at the Polo grounds last night the former A. E. F. lightweight champion sent the game veteran from St. Paul down for the count under a smashing right to the chin in the twelfth.

The crowd was stunned. In the round before it had booed the two men for failure to put up the hot fight which had been expected, but apparently Tunney alone was aware that his foe, a veteran of 36 years, was wiling under the gruelling fire at close quarters.

After one minute and 26 seconds of the twelfth round Tunney put out one of the most formidable heavyweight contenders in the country.

A right which felled Gibbons in a neutral corner so dazed him that he was unable to get his bearings as he arose. Tunney landed another wallop to the chin and this time Gibbons was finished. The winner, whom Dempsey has promised a meet, fought well throughout, but Gibbons appeared only a shell of the great boxer who stood off the champion at Shelby. Only in the eighth did the St. Paul man treat his audience to fireworks.

While Gibbons fought, his wife lay ill in a St. Paul hospital. The fighter's friends said that worry over her condition undoubtedly had something to do with his defeat.

Post fight statements follow:

Tunney—"If I think I should fight Harry Williams first, I am ready to take him on at any time this summer. I really think the knockout over Gibbons is enough to earn a match with the champion."

Gibbons—"I don't remember what round the bout ended in. I fought the best I could, but the best I had was not good enough; that's all."

Mrs. Gibbons today insisted on knowing the outcome of the fight, but attending physicians feared it would further endanger her condition to tell her the truth and she was told the contest ended in a draw.

She received this information calmly.

ITALY RENIGS ON FERVENT DESIRE TO SETTLE DEBTS

WASHINGTON, June 6.—(A. P.)—Surprise is manifested in some circles here over the statement of Finance Minister DeStefani yesterday to the Italian senate that Italy is not now in position to fund its war debts.

The minister declared further that no systematization of interallied war debts can be accepted unless subordinated to the possibility of payment and such possibility can only be offered by the financial situation of a state and by the budget of international payments.

This budget, he said today, cannot support any further burdens.

The announcement surprised officials here who had taken an optimistic view of the situation because of the Italian ambassador's recent conversation with Secretary Mellon it had been supposed by some that important progress was being made toward preliminary negotiations for a settlement, but the prospect now appears to be for a considerable delay.

Ambassador De Martino is said to have sought to avoid giving the impression that Italy was going to act at once, although the treasury conferences were regarded as designed to give him a definite idea as to the minimum basis of settlement which would be acceptable to the debt commission.

LOEB RAVES NEAR DEATH IN PRISON

Jazz Killer Faces Life of Insanity—Following Measles Relapse—Calls for Girl Pal in Delirium—Leopold Also in Hospital.

JOLIET, Ill., June 6.—(By Associated Press.) Richard Loeb, the master mind who plotted with Nathan Leopold, the murder of Bobby Franks last year has suffered a mental breakdown and is in a state, that, according to his doctors, will improve or terminate fatally within 48 hours.

"Dickie" suffering from an acute attack of measles that weakened him mentally and physically, has tossed for two days and nights on his cot in the old prison hospital here. Since Tuesday when he became violent and hurled objects at his guards, he has raved and sobbed.

"Buddy! I want Buddy!" he cried repeatedly, also calling for his mother.

"Buddy" was taken to mean "Patches" Reinhart, Leopold and Loeb's girl companion, in the days before they killed young Franks and were sentenced to prison for life.

If Loeb does recover from the measles attack he may face a life of insanity, it was indicated by Dr. Herman Adler, state criminologist, who reported that the youth is in a "post-infectious delirium."

Dr. Adler is convinced that Dick is not feigning his illness.

Leopold does not know of his accomplice's collapse. He is recovering after an operation for appendicitis and it was feared the news of Loeb's illness would harm him.

Loeb was strapped to his bed today, without any noticeable change in his condition. Prison officials said his mental indications were of a pronounced character.

OUTLINE PLANS OF HUNT FOR POLAR FLYERS

MacMillan to Reconnoiter in Greenland for Amundsen—Relief Ship With Planes to Sail Today—Fog Infectious Arctic Wastes.

HORTEN, Christianiafjord, Norway, June 6.—(By Associated Press.) The Norwegian government's expedition will try to locate Captain Roald Amundsen and his fellow polar flyers by keeping an airplane watch along the edge of the ice field left the navy sail here today in fine weather for King's bay, Spitzbergen.

NO DECISION IN COLLEGE DISPUTE

PORTLAND, Ore., June 5.—The state board of higher curricula which yesterday met to consider briefs and arguments in the case presented by the University of Oregon which alleged duplication of courses by the Oregon Agricultural college, adjourned until July 11 without reaching a decision. Dr. C. J. Smith, chairman, said that the board expects to reach a definite decision at its next meeting.

PRIZE ON HEAD OF MORO CHIEFTAN

MANILA, June 6.—Governor General Wood today authorized Governor Johnson of Lanao province to offer a prize of \$250 for the capture of Sultan Rava, Moro outlaw leader, who has been hiding in the mountains since he escaped from his fortress while it was under fire from the Lanao constabulary. The governor general hopes to avoid further bloodshed by offering a prize for the capture of the Moro leader.

HILL LINES IN KLAMATH BALK ESPEE EFFORTS

KLAMATH FALLS, Ore., June 6.—Acquisition by the Hill lines of approximately 150 acres here for terminal sites became known today when deeds were filed with the county clerk. The property was purchased from Charles Wood Eberlein, Klamath Falls capitalist. Revenue stamps attached to the deeds indicated a purchase price of approximately \$140,000.

The land purchased by the Hill lines lies directly west of the present Southern Pacific terminal, and makes available to the projected railroad newcomer the plants of several of the larger mill operators now here, as well as the proposed sites of the Weyerhaeuser Timber company and the Shevlin-Hixon company.

The Southern Pacific for the past several weeks has been negotiating with Mr. Eberlein for the purchase of about 15 acres of this land but they were unable to reach an agreement as to the price. During the past week it was reported here that the deed was planned and the deed was signed Thursday. It was sent here by special delivery and filed with the county clerk immediately upon its arrival in the city this morning.

By acquiring this land the Hill lines now have the Southern Pacific hemmed in on both sides and make it impossible for the latter railroad to expand in any direction in the industrial section of the city, according to agents for Mr. Eberlein.

Mr. Eberlein has reserved additional land to permit the Oregon Trunk to expand to any of the projected industrial plant sites near the proposed terminal.

SHARES STIMULATED BY CRUDE OIL RISE

NEW YORK, June 6.—Announcement of higher prices for Pennsylvania crude oil provided fresh stimulus for the buying of oil shares which led another upturn in today's brief session of the stock market. Large blocks of petroleum issues changed hands at advancing prices, with gains running from one to two and a half points. Lee Valley attained a new peak price for the year at 83. Substantial gains were recorded by Lackawanna, Atlantic Coast Line, Canadian Pacific and Northern Pacific. The closing was firm. Total sales approximated \$650,000 shares.

ROOSEVELT BOYS DEPART

LEH, KASHMIR, June 6.—(A. P.)—Colonel Theodore and Kermit Roosevelt, heading the James Simpson Field museum of Chicago expedition to central Asia, left here today for Yarkand, Chinese Turkestan.

PASSAGES FROM PROVERBS FOUND IN WRITINGS OF EGYPTIAN PHILOSOPHER

CHICAGO, June 6.—(By Associated Press.) Evidence from an Egyptian tomb in western Thebes shows that several important passages in the Book of Proverbs apparently were derived from the writings of an Egyptian named Amenemhet, according to Marion S. Dunsmore of the department of Biblical literature at the University of Chicago.

In an article written for the Journal of Religion, Mr. Dunsmore compared Proverbs 22:17, 18 with chapter one of Amenemhet's admonitions. The passage from proverbs reads: "Incline thine ears and hear the words of the wise and apply thy breast to my knowledge. For it is pleasant if thou keep them in thy breast; if they are ready, all of them on thy tongue."

The Egyptian who, records show, lived hundreds of years before this passage was written, observes the following: "Incline thine ears and hear my words, and apply thy heart thereto to understand them. Good is it if thou dost set them in thy heart, but woe to him who transgresses them. Let them rest in thy heart, that they may be a key to thy heart. So may they be the key to thy tongue."

Science Finds Dog Upon Which Fleas Refuse to Linger

WASHINGTON, June 6.—(A. P.)—A dog on which fleas will not remain has been found by the department of agriculture. Experts of the department, which uses dogs to fatten fleas to test germicides, found a bull pup on which no kind of fleas would live. As fast as the insects were placed on the dog they would hop right off and now the scientists are trying to find out the secret of his defensive armament.

ASHLAND LEADS STATE TOURISTS REGISTRATIONS

Medford Second With 1097 for May, Granite City, 1766—Increase in State of 15,853 for Five Months This Year Over 1924.

SALEM, Ore., June 6.—During the month of May automobile tourists visited Oregon from every state except Delaware, Georgia, New Hampshire and Tennessee, from the territories of Alaska and Hawaii and from Canada, says a statement by Secretary of State Koser. The total registration of non-resident motorists for the month was 6167. For the first five months of the present year the total was 14,933. Most were from California, with Washington second and Idaho third.

The Ashland registration station shows the highest record of registrations, with 1766 for May and 3893 for the first five months. Medford was second with 1097 in May and 2540 the first five months of the year. In eastern Oregon the Ontario station was first in May with 261 and none the previous four months. Pendleton was first in eastern Oregon for the five months with 372.

SALEM, Ore., June 6.—The registration of passenger automobiles in Oregon for the first five months of the year was 163,037, according to Secretary of State Koser, an increase of 15,853 for the corresponding period of 1924. The registration of trucks and dealers gained in proportion, while the registration of motorcycles, chauffeurs and operators showed a slight decrease. The total in registration fee collected for the five months was \$4,737,205.64 against \$4,251,304.52 in the same period last year.

Passenger vehicle registrations for May were 6811, an increase of 220 over May of last year. All fees received in May were \$226,101, against \$211,907.59 for May of last year.

GERMAN BOILER MAY BLOW UP, SAYS REICHSBANK HEAD—PRESS CONDEMNS SPIRIT OF ALLIED DEMANDS—CALLED POLITICAL HECKLING.

BERLIN, June 6.—(By Associated Press.) All Berlin newspapers except the Rote Fahne, communist organ, denounced the demands of the allied disarmament note. They agree in declaring that the length of time required to write the note shows on what weak foundations it rests. The Rote Fahne merely observes: "The Von Hinderburg government will not lag behind the previous governments in submissiveness to the allies."

The Deutsche Tages Zeitung says: "The final proof now is furnished that the allies will treat us as people who have lost their sovereignty."

The Boersen Zeitung characterizes the note as "an affront to German honor," and says "the mountain has labored and brought forth a ridiculous mouse."

The Deutsche Allgemeine Zeitung finds the allies' charges "so laughable that the most naive military ignoramus can see their absurdity. For the American citizen, who, with loans, pays for the armaments of France, Poland and other satellites of America, this note speaks an eloquent language."

BERLIN, June 6.—President Schaecht of the Reichsbank, commenting upon the allied disarmament note, today said: "Our nerves have just about reached the cracking point and unless the allied and associated powers listen to reason and abandon their policy of political heckling the German boiler may blow up."

"What is needed is not more reason in Germany but downright common sense among the allies and associated powers, for the nation which fails to understand the economic needs of Germany is politically an economically immature," Herr Schaecht said.

His statement was made to newspaper men in a frank discussion of the effects of the disarmament note upon the German economic situation. "Germany will still be a great economic and producing power," he said, "but our organization cannot function if it is constantly exposed to political pressure."

Herr Schaecht added that he believed the only danger threatening the Dawes plan was politics and that he feared politics might in the end kill it.

GERMANY'S GOOD WILL IN MEETING HER OBLIGATIONS BUT THAT IT WILL PROVIDE THE NATIONALISTS WITH MATERIAL FOR THE REACTIONARY AGGRAVATION.

NEW YORK, June 6.—(By Associated Press.) While the French newspapers view the allied note to Germany on the disarmament subject as extremely courteous and perhaps affording too much opportunity for quibbling, Berlin dispatches reflect a feeling of disgust, mingled with ridicule and gloom in German official quarters.

These circles declare that the note is not only an indictment of Germany's good will in meeting her treaty obligations but that it will provide the nationalists with fresh material for the reactionary agitation.

An official spokesman is quoted, saying that the allied demands are too humiliating for any nation to accept and that the government will certainly reject them.

The Luther ministry, however, must consult with the reichstag foreign relations committee and the premiers of the federated states before framing its reply.

The Germans deny that they are guilty of building up armaments for aggressive purposes, an official saying the allies first objected to our having an army for offensive purposes and now are opposed to letting us have one wholly devoted to the nation's defense.

The United States has admitted 2,000,000 immigrants in the last four years.
