

### 'SPRING MAID' TO BE PAGEANT PLAY FOR THIS SEASON

"There is every indication," said George Andrews today, "that we will be able to give a successful pageant this year. Various matters in doubt have been cleared up entirely and I cannot now foresee anything that will interfere."

"So far as it concerns Mr. Stevens, Mr. Hazelrigg and myself, whom the fair board has so kindly complimented, we are prepared to move forward at once, and are ready to give our best and continuous efforts to the undertaking and stay with it to a finish."

"We have considered several operas and have selected 'Spring Maid,' a modern opera, containing much tuneful music, plenty of comedy and a story appropriate to the outdoor setting of the pageant."

A number of business men have expressed the view that the pageant should be perpetuated. Acting on this suggestion, it has been decided to form a pageant association, in which the annual membership dues will be \$5, each paid membership card being good for that amount in admission tickets at a reduced rate. For example, the card of a member would be good at the box office for four seats or six \$1 seats, for any performance. Thus the member will receive six dollars' worth of seats for the five dollars he pays in membership dues.

"I can see no other way in which the pageant can be made a financial success that would justify its continued existence," said Mr. Andrews. "On a similar basis the San Francisco Grand Opera association has succeeded. It is a simple and equitable method of financing, by giving a little more than full value for every dollar the member pays. This third annual pageant will be given on a scale equally as pretentious as those preceding it. Every possible attention will be devoted to elaborate stage settings by our justly celebrated artist, Tom Swen, whose work in previous pageants is too well known to require any comment from me. It will have the Helen Rodolf ballet and the large, well trained chorus background that our people have heretofore so generously given. It is now definitely known that Ed Andrews, who has scored a comedy success in their opera throughout the coast and in Canada during the past winter, will return home to Medford in time to play the comedy role in the pageant."

### OWEN-OREGON BEAT JACKSONVILLE 9-5

Owen Oregon beat Jacksonville, 9 to 5 yesterday. After five defeats the O. O. team have come to life, beating Jacksonville in a very interesting game. The pitching of Foley and the fielding of Dunn were the features of the game played by the O. O. boys. The shortstop was the star of the Jacksonville team. The O. O. team was composed of the following players: Childers, C. Foley, p.; Louder, 1b; Hart, 2b; Nutting, p.; Robinson, 3b; Antle, cf; Dunn, if; Snooks, rfp; Schmidt, p. utility. Schmidt relieved Foley in the box the last two innings and showed up well. One of the largest crowds of recent years saw the game. It was estimated that about 600 were present.

### STEALS MOTOR CAR, RUNS INTO SIGN

When J. C. Malone parked his Flint touring car in front of the Johnson Produce company on North Fir last evening, he forgot to take the keys with him. Some unknown person, seeing the opportunity to help himself to an automobile but no time in driving it away, but ere he had reached Main street, trouble befell the man. He struck one or two other passing cars, which so bewildered him that he ran squarely into the sign post, a large wooden watch, standing before Lawrence's Jewelry store, snapping it off. The driver promptly got out of the machine and disappeared, leaving the owner to wonder to whom he is indebted for the damage done.

### HOLD O. W. MURPHY HEARING TOMORROW

The preliminary hearing of Omar W. Murphy, held on a charge of manslaughter, growing out of the alleged beating of his wife, April 1st, last, will be held before Justice of the Peace Glenn O. Taylor tomorrow. Murphy is at liberty on \$3000 bonds. The coroner's jury called to investigate the death of Mrs. Murphy is still held subject to call, owing to the analysis of the stomach sent to Portland not being received. A partial report has been received and a complete report is expected in a few days when the coroner's jury will probably be re-convened.

### GEN'L WHITE HERE TO INSPECT CAMP, WORK PROGRESSING

Several hundred people from Medford and other parts of the valley visited Camp Jackson Sunday and were surprised at the magnitude of the camp and begin to realize what the encampment will mean to the city and valley.

There are about 300 tents set up for the different companies and the officers' tents are now being erected to the north of the encampment.

There is a frame kitchen mess hall, modernly equipped, being built for each of the 32 companies, as well as those for the officers. There are also frame latrines and shower baths being built for each company.

Work on installing complete electric and telephone systems is now in progress and everything will be in readiness for the arrival of the troops Friday.

Brigadier General George A. White, Major J. V. Shur, Lieut. Col. Alvin E. Baker and Captain Patrick W. Kelly arrived Sunday morning. They were met by Captain Ralph Cowgill at the station and taken out to Camp Jackson. In the afternoon Captain Cowgill took General White up to locate a camp site for the troops on the evening of June 20, en route to Crater Lake. They will return this afternoon. General White and Major Shur will leave this evening for Salem and will return with the troops Friday.

Lieut. Col. Baker and Captain Kelly will remain here to look after finishing details of the camp. Wednesday morning 10 regimental officers and 125 enlisted men will also arrive to assist with the final arrangement of the camp. There will be provision made for plenty of parking space for autos during all the maneuvers of the camp.

### FRANKLIN T. GRIFFITH PRESIDENT N. E. L. A., VISITS IN MEDFORD

Franklin T. Griffith, president of the National Electric Light association is a local visitor in this city today stopping off on his way to San Francisco to attend the N. E. L. A. convention which takes place next week. Mr. Griffith, who is also president of the Portland Electric Power company is accompanied by C. M. Clark, chairman of the board of that company. Arriving from Portland yesterday they were met by local representatives of the California Oregon Power company who are conducting them on a trip through this territory, during which they are visiting some of the Copco power developments at Klamath Falls, Copco, California and elsewhere. They are expected to arrive from Copco this evening and will spend the night here. Mr. Griffith who is a speaker of national reputation will address the Copco forum at a special meeting which will take place at 8:30 p. m. tonight in the assembly room of the Copco building. The visitors are planning to drive to San Francisco by way of the Redwoods highway and will leave Medford for the national convention tomorrow morning.

### NEED MORE CARS FOR TRIP TO CRATER LAKE

The Chamber of Commerce committees in charge are still hard at work lining up the many cars needed for taking the Oregon National Guard on a trip up to Crater Lake and back the last week of the coming state encampment here. About 250 cars have been signed up but 250 more are needed. All citizens having cars are urged to come forward and volunteer at once, if they have not already done so, and not wait to be called on by committees.

### COURT OVERRULES DEFENSE MOTION IN CHURCH CASE

Circuit Judge Charles M. Thomas last week overruled the motion of the defense in the suit of the Ashland Baptist church against the First Baptist church of that city, for a "more definite and specific wording of the complaint," on the ground that extraneous matter was contained in it as filed.

The defendants thereupon filed a demurrer to the complaint, asking for a "more definite and specific complaint," and holding there was nothing upon which to base a suit. No decision has been handed down upon the demurrer.

The controversy, which has been decided in favor of the plaintiffs in the counsel of the Baptist church, is an aftermath of the Dr. Price "divine healing" meetings held in Ashland in 1922, resulting in a schism in the church in that city, one branch standing by the tenets and teachings of the Baptist and the other the so-called "Four Square" gospel.

### AMERICA IS LAUDED.

(Continued From Page One) Even among ourselves were many who listened with serious concern to such forebodings. They were not quite sure whether we had created a nation with the soul of a nation. They wondered if perhaps we had merely brought together a large number of people in a large place.

Unity is demonstrated. Had these misgivings been justified when the hour of trial came, it would have meant disaster to us and to the world. But instead of crumbling into a chaos of discordant elements, America proved its truly national unity. It demonstrated conclusively that there is a spiritual quality shared by all races and conditions of men which is their universal heritage and common nature. Powerful enough to hold this people to a high ideal in time of supreme trial, why may we not hope that the same influence will at length reach men and women wherever they are found on earth?

Scandinavian Praised. President Coolidge praised the Scandinavian immigrants for their contribution to American life, but made no direct reference to present day immigration problems which prompted congress to enact the law designed to limit the flow of aliens from South Europe and encourage immigration from countries in the northern part of the continent. Recalling that just one hundred years ago a group of 52 persons set out from Norway on the 45 ton sloop Restauration as the first organized party of immigrants from that country, the president said that "Minnesota would not be Minnesota, the group of imperial northwestern states would not be what they are, but for the contribution that has been made to them by the Scandinavian countries."

During the period from 1815 to 1848, Mr. Coolidge asserted, immigration from northern and western Europe not only built the United States "into numbers, wealth and authority in the world, but had a tremendous reflex on Europe."

Home Is Nation's Bulwark. "But for American example and influence," he added, "the democratic movements of 1832 and 1848 in Europe might have been long postponed. The broadly democratic evolution which swayed Europe so greatly in the latter half of the nineteenth century might have failed entirely."

Immigration from north and west Europe, gave "constant encouragement there to liberal thought and action," he said, "and in this country by gradually giving the north a great preponderance in numbers, hastened the downfall of slavery."

"America with all that it represents of hope in the world," the president told his audience, "is now and will be what you make it. Its institutions of religious liberty, of education and economic opportunity, of constitutional rights, of integrity of the law, are the most precious possessions of the human race."

"These do not emanate from the government. Their abiding place is with the people. They come from the consecration of the father, the love of the mother, and the devotion of the children. They are the product of that honest, earnest and tireless effort that goes into the rearing of the family altar and the making of the home of our country."

### CONDITIONS IN CHINA SERIOUS.

(Continued from page one.) The defense measures of the foreign colonies are continuing but the arrival of further naval contingents has emboldened the authorities to lighten the duties of the volunteers. Two hundred marines from the Japanese ship Tatsuwa were landed this morning. Two Japanese gunboats and two Japanese destroyers proceeded up the Yangtze Kiang to protect foreigners at upper ports of that river.

Silk and Wool Patterns of Bordered Silks at \$10.00

Buttermilk Cream creates beauty almost like magic. The most wonderful thing about it is the fact that whilst it turns the dull, most lifeless complexion to radiant beauty and makes red or rough hands or arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin. No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, freckled, crows feet or lines around the mouth, or roughness of the face, hands or arms caused by wind or sun, you will find that any or all of these troubles will quickly disappear with the use of Howard's Buttermilk Cream.
