This cozy little English type cottage is of stucco, arranged so that additional sleeping rooms may be provided upstairs. Compactly built and attractive in design, this little cottage is reasonable in cost. All available space is used and "convenience" is the keynote of its arrangement and design.

A stairway could be built between the bedroom and bathroom, opening on the hall, and ample room is provided upstairs for two bedrooms and storage space.

An infinite selection of materials, the necessary equipment and proper organization with which to handle your business, is what we have to offer.

AN EVERHOT AUTOMATIC STORAGE WATER HEATER

A Dozen Reasons Why You Should Have Installed in Your New, Beautiful Home an EVERHOT AUTOMATIC WATER HEATER

1. Only heater that keeps a tank full of water Everhot on a tiny pilot light.
2. A full stream to every faucet at once.
3. Largest heating surface, burner capacity considered.
4. Stepped flueway—increases efficiency and permits larger burner capacity.
5. Insulated like a huge thermos bottle.
6. Specially designed, non-carbonizing burner. Cannot flash back—has no gauzes.
7. Exceptionally low stack temperatures prove minimum heat loss.
8. Sturdy, copperoid steel boiler—riveted for strength and welded for tightness.
9. Condensation and liming almost entirely eliminated.
10. Perfect temperature control—entire boiler of water delivered without change of temperature.
11. No copper coils or complicated parts. Freedom from service assured.
12. Real hot water service for a few cents a day.
