AN IMPORTANT CHANGE IN POLICY

STUDEBAKER herewith announces the discontinuance of the custom of presenting a new line of automobiles each year. Instead of bringing Studebaker Cars dramatically up-to-date once in twelve months, *we shall keep them up-to-date all of the time*—with every improvement and refinement made available by our great engineering and manufacturing resources. This policy not only directly benefits present Studebaker owners, but it also enables purchasers of new cars to obtain models that are always modern—*without the necessity of waiting for annual changes*, and without the danger of their new cars becoming obsolete.

BACK of this new policy is an amazing story—of interest to everyone who owns or expects to own an automobile. The dramatic success of the present line of Studebaker Cars is one reason for this important change. Month after month we keep breaking records—sales keep piling up. This year we will sell almost four times as many automobiles as we produced in the big boom year which followed the war. Owners report endurance records, even beyond our greatest expectations. Out in the rugged mountain regions where Studebaker sells four times its normal proportion of cars, owners talk about these models in the most extravagant terms. In 1924 the Corporation's sale of repair parts dropped to \$10 per car per year. Mechanical stamina under severe usage—remarkable performance under the most difficult travel conditions—*these are the qualities for which Studebaker Cars have long been noted.* Surely, these significant facts prove beyond any shadow of doubt that Studebaker Cars are so soundly

engineered and manufactured and so eminently satisfactory in the hands of owners, *that drastic annual changes are not required.* Improvements and refinements will be made from time to time. New features will be added. When our engineering department (maintained at a cost of more than half a million dollars a year) devises an improvement in any model, it will be made without regard to the calendar. As in the past, we shall continue to pioneer vital betterments that have proved their merit through practical use. Alert, aggressive, receptive to new ideas, resourceful in executing them, guided by scientific research and spurred by imagination, the Studebaker organization proposes to build better motor cars than ever before. Now you may buy a Studebaker on any day of the year with the confident assurance that the sturdy, thrifty, one-profit car you drive away will not be stigmatized by any act of ours as a "last year's model." Today, in even more generous measure than in the past, Studebaker Cars offer the utmost value for the money.

THE STUDEBAKER CORPORATION OF AMERICA, SOUTH BEND, INDIANA
