CENTRAL POINT, June 19.—The Jackson County Health association met on Friday, June 12th at the home of the Misses Carlton, west of town, a large number of the members being present. The main feature of the day was the talk by Miss Marie Faldine of Alaska.

Miss Faldine will be favorably remembered as the first Jackson county nurse who ever held that position. For the past two or three years, however, she has been a public health nurse in Alaska, and was sent by the governor of that country to Washington, D. C., as the Alaskan representative at the National Public Health congress. On her way back to the northland, Miss Faldine stopped off here and was asked to open before the meeting of the association by Miss Mildred Carlton, president.

After a fine banquet in her honor, Miss Faldine told of her Alaska work, hard, unceasing fight against disease and unsanitary conditions. In many cases she found herself the only person in a large village who has any idea of caring for the sick, fighting "flu" or of sanitation, and in all cases one physician has to cover several villages.

There was a meeting of the Civic club last Friday which was quite well attended and a very successful meeting was reported.

Mr. and Mrs. Harold Fields have moved their music store from the Peart building to their new place, recently purchased from Archie Parker and located "just around the corner" on the highway, and are getting nicely settled.

Mr. Parker and family have gone to San Francisco to make their future home.

Mr. and Mrs. Frank Clark motored up from Oakland, Calif., last week for a short visit with Mrs. Clark's parents, Mr. and Mrs. E. H. Thornbrew. They came Friday morning, returning Sunday morning.

Mrs. Clark was formerly Miss Molly Thornbrew.

Mrs. L. L. Norcross left Sunday morning for a visit with her brother, who lives in Cottage Grove.

Miss Alta Norcross, daughter of Mr. and Mrs. L. L. Norcross, is home for a visit from her school in Visalia, Calif., where she has taught the past three years. She will attend summer school in northern California this summer.
