

AUTOIST IS GIVEN DOUBLE TERM ON LIQUOR VIOLATION

Melbourne "Mel" Dunn pleaded guilty in Judge Taylor's court Saturday to two charges of violating the 18th amendment, which were preferred against him by Sheriff Ralph Jennings. Dunn was sentenced to spend 60 days in the county jail and pay a fine of \$150 on each charge, that of possessing and transporting intoxicating liquors.

He was arrested by the sheriff and his brother, Paul Jennings, Friday near Phoenix. Twelve gallons of the illegal substance was found in the automobile, which is now being confiscated in accordance with the law. Two pistols were also in the car. For these pistols the man had a permit, which allowed him to carry them in Siskiyou county, Cal., but in Oregon that permit is void. As yet no charge covering that violation of the state law has been filed. However, the sheriff's office states one will be filed in a very short time.

Dunn, who has lived in this locality for the past two years, and is very well known, has been under the surveillance of the sheriff and district attorney's office for the past three months or more. At the hearing before Judge Taylor, Newton Chaney, district attorney, suggested that no consideration be given the defendant because of his physical incapacity. Dunn has only one arm, and neither because of the fact that he had an aged mother who needed his care, for it had been for the defendant to realize the step he was taking when engaging in that pursuit which is contrary to law, and the consequences thereof, if apprehended.

E. B. Reno, recently of Crescent City, Calif., arrested by Sheriff Jennings while making a delivery of moonshine near Grape street Friday evening, also pleaded guilty before Judge Taylor to the charge of possessing and transporting intoxicating liquors. When arrested, he possessed one gallon. He was sentenced to spend three months in the county jail and pay a fine of \$200 on each charge.

A PRE-HISTORIC APARTMENT HOUSE FOUND IN ARIZONA

NEW YORK, June 22.—(A. P.)—A pre-historic "apartment house" with 120 traceable rooms was discovered in ruins near Globe, Ariz., by Erich Schmidt of the American museum of natural history, he announced late yesterday on his return from a five months' exploration.

Mr. Schmidt described his find as "a walkup" structure, somewhat similar to the communal house type familiar to students of early American archaeology. Of the 120 rooms, 47 were excavated, yielding skeletons of women and children, together with many specimens of stone, shell and bone work.

The ruin consisted of clusters of single rooms and in one instance the clusters, he said, adjoined a fort-like enclosure.

The explored believed the inhabitants were responsible for the petroglyphs, or inscriptions upon rock common in that region.

GOVERNOR PIERCE HERE FOR REVIEW NATIONAL GUARDS

Governor Walter E. Pierce arrived in the city on train No. 13 this forenoon, was met by President R. J. Clancy of the Chamber of Commerce and several officers of the national guard, who conducted him to an awaiting national guard auto, in which he was at once whisked out to Camp Jackson to spend the remainder of the day, and with other state officials and United States army officers review the annual parade of the Oregon national guard this afternoon.

The governor has seldom visited Medford in the past two years and this visit will be a short one. He leaves in the morning with Secretary of State Kozar and Carl Abrams, secretary of the state board of control, in the state car for Roseburg, where they will make an inspection of the old soldiers' home during the day and then return to Salem.

At 6:30 P. M. today Brigadier-General George A. White will entertain Governor Pierce and other visiting state officials and a few other men at mess at Camp Jackson.

PRESIDENT'S PARENTS GIVEN CREDIT BY PRESIDENT'S PASTOR

NEW YORK, June 22.—(A. P.)—President Coolidge was cited yesterday as an example of the value of parental training by his pastor, the Rev. Dr. Jason Noble Pierce, who preached at the Fifth Avenue Presbyterian church.

Paying a tribute to President Coolidge's parents, who, he said, "reared him under the influence of a firm, consistent Christian home, the pastor credited that home influence rather than heredity for developing the president into a man of absolute sincerity, genuine integrity and real genuineness."

The character of the president cannot be accounted for merely by the fact that he was brought up in a free country, attending a liberal college or had the opportunities and possibilities of growth, he said. "These alone are not sufficient. We must go back to the state in which he was born, to the home in which he was reared, to the influence of his Christian father and the abiding influence of his sainted mother."

GRANTS PASS MAN ON MINE BOARD

SALEM, Ore., June 22.—A state board of mining surveys, created by the 1925 legislature through a bill introduced by Senator Miller of Grants Pass, was today appointed by Governor Pierce. The members appointed by the governor are W. W. Elmer of Portland, George R. Wiegand of Baker and P. S. Woodin of Grants Pass. President W. J. Kerr of Oregon Agricultural college is an ex-officio member and the dean of the schools of mines at O. A. C. is ex-officio director of the surveys.

Mrs. Henry Dince of Seattle, Wash., is among the recent arrivals who are visiting relatives in the valley. Mrs. Dince is visiting her parents, Mr. and Mrs. Leonard Williams.

HOT WAVE CAUSES STIFF CONSUMPTION OF CITY'S WATER

Sunday, due to a nice breeze arising in the afternoon was cooler with a maximum of 99, than on Saturday when the maximum was 103. Today, which started with a minimum of 53, promised to be another warm one. The present wave of warm weather has caused an enormously increased consumption of water, but the city's water supply is amply meeting the emergency, although the summer water regulations were ordered into effect yesterday for the season, which is several weeks later than usually ordered enforced.

The great consumption of water during the day and evening Saturday caused the city officials, as a matter of precaution, to have the fire whistle blown to reduce this drain on the city's reservoirs, by stopping irrigation of lawns and gardens.

The city water commission and other city officials declare that the rule requiring all irrigation to cease when the fire whistle blows will be strictly enforced, and that all persons not shutting off their hose nozzles at the sound of the whistle will be prosecuted and fined.

A number of citizens did not observe this long standing rule Saturday night, but this is thought to be partly due to their thinking that some Shiner train or like event was the cause of the whistle blowing, as the siren blew so long and loud.

FULL PROTECTION GUARANTEED IN CHINESE WALKOUT

HONG KONG, June 22.—(A. P.)—The government here today issued a notification guaranteeing full protection to life and property during the sympathetic strike now being carried on here by Chinese students and workers. The family of any person killed while engaged in carrying on his customary work, will be paid \$2000, the notice said.

Chinese seamen employed on the liner Empress of Asia deserted the ship here today and it was probable the ship would be unable to sail on scheduled date.

Girls replaced Chinese striking elevator operators at the Hong Kong hotel today while the hotel bandmen, Filipinos, put down their instruments and substituted for Chinese table boys, who left their posts.

A number of British and Portuguese boys volunteered their services in other departments of the hotel affected by the strike, as well as Whelan's cafe.

Chinese office boys employed by the principal mercantile firms were walking out today.

An attempt was being made to perfect arrangements this afternoon for replacing striking Chinese crews who left British coasters here.

SHEPHERD TO TAKE STAND

The health department head testified that at the time of young McClintock's death an epidemic of typhoid, caused in all probability by eating oysters, existed in Chicago.

Upon cross examination Dr. Bundeson said his department had a record of only one questionable shipment of oysters to the hotel in which McClintock ate oysters shortly before his death, and that the shipment was received 22 days after the youth died.

GOVERNOR REVIEWS TROOPS. (Continued from page one.)

Some idea of the high morale of the troops furnished by the amazing fact that the camp's guard tent has not a single prisoner, even for the infringement of minor rules and regulations, nor has it housed one since the inauguration of camp. This is believed to approach a record, as the 2500 men and 150 officers present are under rigid discipline at all times.

A Busy Week Ahead. From now until next Friday, when the troops will break camp and return to their homes, they will have plenty to occupy their time and attention. Roughly, the week will be devoted to field maneuvers, with many intricate night and day problems of field duty to be solved. The reins of discipline necessarily will be tightened somewhat and more exacting demands laid upon every man present, regardless of rank.

While General White's plans necessarily cannot be made public, as this would nullify the very purpose of the field maneuvers, it is not revealing a military secret to disclose that the entire command will engage in a campaign against a mythical enemy Tuesday and Wednesday, in the general direction of Bybee Bridge, on the Rogue river. So much has been made clear, and acting on this a number of local organizations have planned a Camp Fire entertainment for the troops at that point Tuesday night. The brigade commander has intimated his willingness for this to be done and an elaborate program of stunts and amusing, entertaining features is being arranged. Organizations uniting in this entertainment are: American Legion, Kiwanis, Rotarians, Craters, Lions, Copcons, Elks, Dokies, De Molays, Business and Professional Women and the Chamber of Commerce.

Thursday next all troops in the field will return to camp and will receive their pay for the training period, preparatory to breaking camp the next day.

Soldiers Are Diverted

Members of the brigade who bivouacked at Union Creek, Crater Lake National park, Saturday night, did not attempt to push on to the lake itself Sunday, as reconnaissance by General White indicated this would not be advisable because of the heavy snows near that historic spot. Accordingly they were diverted from the original route and returned to camp late Sunday by way of Klamath Falls and the Green Mountain road. While this made the trip slightly longer it also enhanced the enjoyment of the outing which was thoroughly appreciated by all the troops participating.

Before resuming their journey Sunday the soldiers at Union Creek took part in an impressive religious service conducted by Chaplain W. S. Gilbert. Not an accident or mishap of serious character occurred during the entire time and the soldiers returned to camp in the best of health and spirits, grateful to the citizens of Medford whose generous donation of autos made the outing possible.

Social features tonight are: Entertainments for visiting soldier members by Medford Knights of Pythias, Medford Knights of Columbus and other fraternal orders, a ball for all officers, a dance for enlisted men at the Jackson county fairgrounds pavilion and special theatrical attractions.

Went to Lake Anyway. Among Medford citizens who drove to Crater Lake, there was considerable criticism expressed that the Guardsmen were not taken to the lake, instead of over to Klamath Falls, and according to many of them, the boys themselves were sorely disappointed.

To a representative of The Mail Tribune today a well known Medford citizen who drove his own car to the lake said:

"We promised these boys to show them Crater Lake, not Klamath Falls. We gave our cars and contributed our services to put Medford and Crater Lake on the map, and then were forced to kick our shins all day and all night at Union Creek when we could just as well

Camp Notes

Mr. and Mrs. A. C. Marsters and niece and grandson drove down from Roseburg Sunday to spend a few days and attend the review at Camp Jackson Monday.

Carl Abrams, colonel in the world war and at present colonel in the reserves, is here from Salem to attend the review and visit at Camp Jackson.

Senator George Joseph and Colonel W. C. North of the Spanish-American war, of Portland, and William Bailey of Seattle are here to attend the campment.

City Commissioners Mann and Biegelow of Portland are among the prominent visitors in Medford to attend camp inspection.

State Senator and Mrs. J. L. Patterson, who were here to attend the review at Camp Jackson, leave tomorrow for Klamath Falls and will return to Medford Wednesday.

Chief Traffic Officer Rafferty of Salem was in charge of the traffic officers on the highway yesterday accompanying the military caravan to Crater lake and return, and also at the review of troops today at Camp Jackson.

Owing to the death and burial today at Roseburg of Mrs. O. P. Coshaw, wife of Judge Coshaw of the supreme court, and a sister of Tom Kay, state treasurer, Tom Kay was unable to

Leaving Tonight HARRY CAREY IN "The FLAMING FORTIES" From "TENNESSEE'S PARDNER" By Bret Harte
