OLD RESIDENT OF PIONEER DAYS IS VALLEY VISITOR

Mr. Edward D. Slosson, wife and daughter of Mobile, Ala., are visiting their relatives, the Beeson family of Ashland and Talent.

Mr. Slosson was one of the first northern saw mill men to operate extensively in the southern long leaf pine.

He is now in his 82nd year, a Civil war veteran, serving in an Illinois regiment through the entire struggle under Grant and Sherman, being severely wounded at the battle of Mobile on the very ground where he has made his home for the past 55 years.

Mr. Slosson, Welborn, Beeson Sr., Henry and Ambrose Brophy built the old saw mill at Prospect on Rogue river and operated it for several years. Mr. Slosson and family then returning to their former home in Illinois and later to Alabama.

When they operated the Prospect mill, then known as the Red Bluff mill, their postoffice and trading point was Ashland, the only other postoffice in the valley being Jacksonville. The beautiful city of Medford, which they hope soon to see for the first time, was not founded for many years after their departure. They anticipate greatly their visit to Prospect and hope to reach Crater lake.

Mr. Slosson was born on a farm in Illinois, nearly joining the Pierce farm on which Gov. Walter M. Pierce was born. Mr. Slosson's sister was the wife of Gov. Pierce's brother.

The Slossons spent the winter at Glendale and Los Angeles and are returning by the northern route.

BANNER DROPPED BY LA FOLLETTE MUST BE RAISED

MADISON, Wis., June 23.—(A. P.) The progressives of the nation are looking to those in Wisconsin "to make no mistake at this critical hour", Senator George W. Norris, republican, Nebraska, declared today in a formal statement. He came here to attend the funeral yesterday of Senator Robert M. LaFollette.

"The death of our great leader must not be taken as any disintegration in our ranks," he said. "Petty jealousies and personal ambitions must be forgotten."

"The banner of human freedom that has fallen from his hands must be raised aloft and the fight carried on until happiness shall come to every home and joy be enthroned at every fireside."

Senator Norris conferred last night with Mrs. LaFollette and with several leaders of the LaFollette followers in the state. A special election for the selection of a successor to Senator LaFollette probably will be ordered in the near future by Governor Blaine.

A proposal has been put forward that Mrs. LaFollette become a candidate but she has made no public announcement as to her attitude. Meantime, the names of several prominent persons in the state organization have been discussed, including Governor Blaine, Fred Zimmerman, secretary of state, and Congressman John M. Nelson who managed the senator's presidential campaign last year.

Six inches tall, topping all delegates to the disabled American Veterans convention here. He weighs 300 pounds.

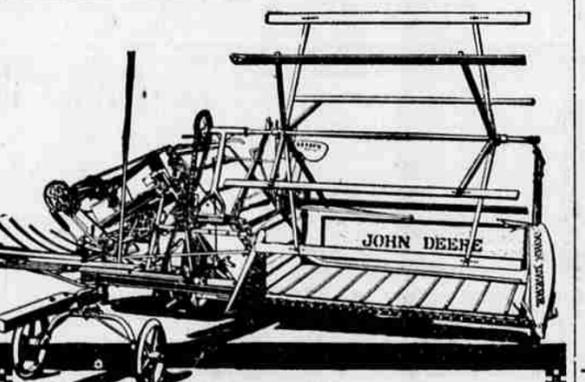

Villancourt has been in the regular army for ten years, but was "too big" to go overseas. The army made him fat, he said, adding that he weighed only 225 pounds when he enlisted. Villancourt wears size fifteen shoes and for eight months during the war went without shoes in Yuma, Ariz., because "government red tape" made it impossible for him to secure a special pair of shoes.

Costs Less in the Long Run

When you buy a John Deere Grain Binder you are assured of extra years of low cost service because the John Deere is built better. Measuring its value by the true yard stick—the low cost per acre harvested—you will find the John Deere a most economical binder investment.

John Deere Grain Binder

You will appreciate the efficiency of the John Deere Binder most of all when the grain is extremely heavy or where it is down and tangled, because it is built to meet difficult field conditions.

Thereasons why the John Deere gives better, longer service are apparent the minute you see it. Its main frame, its platform, its wheels, form a rigid support for the binder—no binding of the operating parts to cause heavy draft and breakage, even under most severe conditions.

And because its rigid construction prevents binding, the parts run true and free. The John Deere is truly a horse-saver—it's unusually light draft.

The Quick-Turn Truck is another feature you will like. It keeps the binder running straight, permits square turns, takes off side draft from the horses, and because its axle is flexibly mounted, the wheels hold to the ground.

To appreciate the better construction of this Light-Draft Binder you will have to see it. A sample is set up for your inspection.
