

# CITIZENS THANKED FOR FINE SUPPORT BY CHAMBER OF C

To the Editor: The transportation committee of the Medford Chamber of Commerce wish to sincerely thank the community at large absolutely without reservation for the liberal and enthusiastic way they rallied to the call for cars for the Oregon national guard caravan. To all the other towns and rural communities this thanks is also extended. To the people who did their part in cash, is especially extended a vote of thanks. To the various service clubs do we feel deeply grateful for the extremely noticeable way they held their shoulders to the wheel, not only in this gigantic undertaking of their Chamber of Commerce, but to all of their chamber's worthwhile activities. To any and all companies, agencies, individuals, etc., who in any way, shape, matter or form assisted in this spectacular movement do we, the transportation committee of the Medford Chamber of Commerce, not only feel grateful, but wish to thank you.

SEELEY V. HALL, Chairman.

To the Editor: Space will not permit the entertainment committee of the Medford Chamber of Commerce to mention personally and individually the many, many individuals, the various clubs, lodges, churches, etc., for the loyal and liberal way the entire community of Jackson county rallied to our call for assistance in entering the Oregon national guard while equipped here.

Will the citizens, individually and collectively, please accept our sincere thanks for their valuable help in this respect. Will these citizens please accept through this committee their portion of the loving cup presented to them through this committee by General White in the city park last night as a tribute of the officers and men of the guard in appreciation of this, the most extensive program of entertainment ever assembled by any city. Thank you one and all.

W. W. WALKER, Chairman, Entertainment Committee.

# SCHOOL TEACHERS LEAVE FOR LAKE

A party of 15 lady school teachers from Sacramento arrived in Medford this noon. In five Packard cars on a park to park tour. They registered at the Chamber of Commerce and left early in the afternoon for Union Creek, where they will camp tonight and early tomorrow will drive to a near Crater lake as they can get and will reach the bathing of the lake.

The party was delighted to learn from Secretary Boyle that they could reach the lake as they had been told they could not. They had also heard in California that people were being prevented for going to Crater lake.

# CHINESE STUDENTS ISSUE CALL TO WAR

SHANGHAI, June 26.—(A. P.) A meeting of the Shanghai students union decided to issue an appeal to all Chinese students throughout the country to "learn the art of war and be ready to fight for their country."

It was resolved to petition the military chiefs to select teachers to "arouse the patriotism of the people and soldiers."

The program for students' demonstrations in many parts of China yesterday was largely a fiasco, owing to official prohibition of meetings. The precautions taken at Shanghai completely frustrated the students' activities here. Many volunteers have been withdrawn from the Shanghai streets which are resuming a normal appearance.

The additional Japanese destroyers have gone to Amoy and Canton.

# A \$25,000 BLAZE AT THE DALLES

THE DALLES, Ore., June 26.—Fire of unknown origin completely destroyed the contents of the Walter Williams company and Edward C. Pease company warehouses here in about an hour beginning at 11:30 a. m. today. Had it not been for increased water pressure from the new city well put into use a week ago, the entire west end of town would have burned, fire department officials believe. A strong west wind was blowing.

Hardware, farm machinery and a carload of news print belonging to The Dalles Chronicle were stored in the Williams hardware, where the fire started. Both structures were of corrugated iron over wood frames. The loss was estimated at \$25,000.

RANCHER RIDES FOR LIFE.

(Continued From Page One)

to seven miles long, about a mile wide and nearly 200 feet deep, it is estimated.

Headings of R. W. W. W. four miles below the newly formed lake, have vacated the town in favor of higher ground fearing a temporary stoppage of the flow of the river would be followed by a flood.

# MAYOR HYLAN IN DEATH STRUGGLE WITH TAMMANY

NE YORK, June 26.—(A. P.)—Father Knickerbocker's political temperature has started on its quadrennial ascension, which marks the opening of his mayoralty fight. Wise or otherwise, diagnosticians predict a high fever for the old gentleman long before primary rolls around in September.

Hitherto these temperatures have been caused by efforts of republicans and fusionists to twist the tail of the Tammany tiger. This time, if that feat is to be accomplished it may be by one of the same political faith, Mayor John P. Hylan.

The mayor who has held office for eight years, is desirous of another term. Whether he will be renominated by the democratic party is a question the Tammany chieftains have not yet officially decided, but if he does not get the regular nomination he is expected to run independently.

The possibility of the mayor running independently is agitating the Tammany braves. The managers of the wigwag are practical politicians with an eye to the patronage at stake. The mayor of New York rules an empire and these politicians are not losing sight of the fact that the metropolis has many thousands of employees whose payroll runs up into the millions.

This week the mayor sprung a coup by calling in departmental heads and inviting those who were not for him to remove their feet from under the Hylan patronage table. While the meeting was not public, it was announced those present including eight Tammany leaders, had endorsed his proposed nomination by "acclamation."

This aroused the ire of Comptroller Charles L. Craig, a Tammany man, but a bitter foe of the mayor who contacted with a letter to the district attorney and the governor, calling for the mayor's removal from office on the ground that he had violated the honest code providing against "corrupt use of a position or authority."

So far scarcely a man has been mentioned seriously for the republican nomination.

The G. O. P. leaders say they are enjoying the row within the wigwag and hoping for a wide split that will allow a republican to win in a democratic stronghold.

The political forecast is: Warmer.

HOT WAVE PASSES.

(Continued From Page One)

light wind continuing from the southwest throughout most of the morning and the early part of this afternoon, the mercury here today was kept down to a maximum of 92 degrees, the temperature recorded at 2 p. m. today. Yesterday's maximum was 99.

EURENE, Ore., June 26.—Cool breezes during the night and today cleared the atmosphere and at one p. m. this afternoon the thermometer registered 84 degrees. The relative humidity also rose several points. At 1 p. m. a mark of 43 was reported. The temperature was 97 at 1 p. m. yesterday.

# FOOTS CREEK NEWS

G. W. Lance and wife were home for a few hours Sunday.

Our mail carrier had a collision with Mr. Merrick's truck Monday. His car was pretty badly damaged, but he was able to get away under his own power after considerable delay.

Last Sunday a car went over the bank near the Lances'. It had to be carried away. The driver could not learn who were in the car.

Rev. McAfee Wilson of Rogue River will preach at our school house at 10 next Sunday. After the sermon the classes will proceed at once to the usual lesson study. As Mr. Wilson preaches at Rogue River at 11 the service must begin promptly.

O. W. Stumbo was cutting hay for C. Carr the early part of the week. Lester Boling is back and is at the same mining job as before he went away.

An all day meeting was held at Foots Creek school house last Sabbath. Rev. Lawrence stressed Sabbath observance, making it plain the Sabbath began with creation, for man's own good. Rest and worship being the reason for man having the Sabbath day.

Also a male quartet from Los Angeles rendered very fine music in the afternoon.

# ONE KILLED AND MANY INJURED IN TRAIN CRASH

CHICAGO, June 26.—(A. P.) One man was killed and several persons were injured in a collision of two elevated trains on the South Side line of the Chicago Rapid Transit company today. One of the trains caught fire.

The man killed was Pierce Moore. At least five other persons were severely injured and others were bruised and cut.

An empty train crashed into a northbound train and one of the coaches was thrown from the rails but remained on the elevated structure. Officials of the elevated company said none of the passengers was seriously injured.

Moore was standing on the rear platform of the forward express train when the crash occurred.

# RECORD PRICE FOR OREGON WOOL, 1925

PORTLAND, Ore., June 26.—The largest wool sale of the season has been closed, establishing new high market levels and stimulating interest in the trade. The Portland Wool Warehouse company sold 350,000 pounds of fine and half blood at prices ranging from 45 to 46 1/2 cents. Boston firms were the purchasers.

Today's sale means that the margin between buyers and holders' ideas has narrowed down to a business basis and it is expected to start active buying in the country. Bids out today range from 35 to 37 cents a shipping point.

# DEATH THREATS MADE AGAINST KELSO OFFICERS

KELSO, Wash., June 26.—Anonymous letters threatening the lives of Luke S. May, criminologist, retained by Cowitz county to investigate the murder of Thomas Doherty, and Deputy Sheriff Clarence Dunbar, are the developments in the Doherty murder mystery revealed today.

May received his letter Thursday evening through the mail. The letter, hand printed and with no name signed, informed the criminologist, he "better lay off" his investigations in this field or he would meet the same fate as Doherty. Officials believe the letters are the effort of some "crank" or of someone that knows something about the Doherty murder who is attempting to establish the theory that the crime was committed by a half-wit.

A. Rurle Todd, recalled mayor, last night departed for Seattle, it was learned today.

"I have told my followers to keep their mouths shut and their ears open during the time that must elapse before the hearing of the quo warranto proceedings instituted this afternoon," Todd said prior to leaving. "I expect to call a mass meeting in Seattle for Monday night, when I shall discuss the fraud charges."

Todd explained that he planned to remain away from Kelso until the action started to regain his former office is heard in court three weeks hence.

French Socialists Reopen.

PARIS, June 26.—(A. P.)—The chamber of deputies finance committee rejected by a vote of 19 to 14 the socialists' proposal for a capita levy.

KANSAS CITY, June 26.—(A. P.)—Premen late today found the bodies of two unidentified men in the ruins of the Gillis theater building which was demolished by an explosion and fire late last night. Both were badly charred.
